How parents and educators can teach kids to love reading in the digital age Everyone agrees that reading is important, but kids today tend to lose interest in reading before adolescence. In *Raising Kids Who Read*, bestselling author and psychology professor Daniel T. Willingham explains this phenomenon and provides practical solutions for engendering a love of reading that lasts into adulthood. Like Willingham's much-lauded previous work, *Why Don't Students Like School?*, this new book combines evidence-based analysis with engaging, insightful recommendations for the future. Intellectually rich argumentation is woven seamlessly with entertaining current cultural references, examples, and steps for taking action to encourage reading. The three key elements for reading enthusiasm—decoding, comprehension, and motivation—are explained in depth in *Raising Kids Who Read*. Teachers and parents alike will appreciate the practical orientation toward supporting these three elements from birth through adolescence. Most books on the topic focus on early childhood, but Willingham understands that kids' needs change as they grow older, and the science-based approach in *Raising Kids Who Read* applies to kids of all ages. A practical perspective on teaching reading from bestselling author and K-12 education expert Daniel T. Willingham Research-based, concrete suggestions to aid teachers and parents in promoting reading as a hobby Age-specific tips for developing decoding ability, comprehension, and motivation in kids from birth through adolescence Information on helping kids with dyslexia and encouraging reading in the digital age Debunking the myths about reading education, *Raising Kids Who Read* will empower you to share the joy of reading with kids from preschool through high school. Advice for raising resourceful, resilient, and responsible children--based on the latest child development research. "Success" is a popular buzzword in discussions about children. But instead of prescribing what success looks like for kids, we should be making sure that they develop the skills they will need to become "doers"—people who proactively seek out what they want in life. *Raising Can-Do Kids* offers parents hands-on, proven ways to raise kids who embrace the uncertain and challenging adventure that is growing up. Description Bullying and burglars. Being laughed at and being left alone. Accidents, illness, family break-up and moving home. Tests at school, changing school. And monsters under the bed. This book helps children learn how to deal with real and imagined worries. It explains what worry is and where it comes from. It explains how and why worries make people think and feel the way they do. *Put Your Worries Away* understands what is in a worrier's head and body. It suggests ways in which a child can learn to overcome anxiety. With this book, children can learn solutions that really work so that they feel more in control, able to engage with their lives and keep their worries in perspective. Each book in the 'Kids Can Cope' series is backed up with practical activities for the child to complete and discuss, consolidating and personalising learning, plus extra notes for parents or teachers. Supports PSHE teaching in the National Curriculum, and encourages both self development and empathy for others, while fostering resilience and giving advice on how to seek help. One night, when Ethan reaches under his bed for a toy truck, he finds this note instead: "Monsters! Meet here for final test." Ethan is sure his parents are trying to trick him into staying under the covers, until he sees five colorful sets of eyes blinking at him from beneath the bed. Soon, a colorful parade of quirky, squeaky little monsters compete to become Ethan's monster. But only the little green monster, Gabe, has the perfect blend of stomach-rumbling and snorting needed to get Ethan into bed and keep him there so he falls asleep—which as everyone knows, is the real reason for monsters under beds. With its perfect balance of giggles and shivers, this silly-spooky prequel to the award-winning *I Need My Monster* and *Hey, That's MY Monster!* will keep young readers entertained. Current research tells us today's kids and teens don't know how to budget or spend wisely. They have purchasing influence, but they aren't prepared to handle money. Parents presume that their kids "get it" or that they are learning these skills in school. Yet kids still need parental guidance on how to manage money. *Your Kids Can Master Their Money* reveals key traits of financially wise people and gives parents tools to instill those traits in their children. Lynn Kleiner presents her creative ideas and stories for movement and percussion-playing as she delights preschool through primary-age children with orchestral favorites.

There are selections for marching, dancing, trotting, skipping, jumping, hiding, sleeping, playing instruments, entering class, and saying goodbye. Lots of fun, this book will allow teachers to capture children's interest in orchestral music for a lifetime. The CD contains 25 tracks including selections from Bizet's *Carmen*, Saint-Saëns' *Carnival of the Animals*, Dvorák's *New World Symphony*, Haydn's *Surprise Symphony*, and many more. A practical analysis and inspiring guide for teaching kids

"ethical fitness" Parents are beginning to realize that deficiencies in ethics and character are becoming a big problem among our nation's children. According to the latest data, lying, cheating, and rampant insensitivity to other people are increasingly common. What can parents do? In this book, ethics expert Rushworth Kidder shows how to customize interventions to a child's age and temperament. He encourages parents not to give up, since what they do can always make a difference, regardless of how long or deep the bad habits of dishonesty may be. Encourages parents to intervene early and re-establish children on the right course Explores the keys to ethical behavior: honesty, responsibility, respect, fairness, and compassion All of Kidder's practical advice is based on the latest psychological and neuroscientific research about how kids develop character and learn what's right and wrong. Teen author, Adom Appiah motivates children to take positive actions. The book is based on Appiah's bestselling book, *Kids Can Change the World* where he shares a 12 step process and motivational stories on how kids can turn their passion into progress. Investing your life in your family brings you joy, and doing it on a single income doesn't need to stress you out! In *You Can Stay Home with Your Kids!* Erin Odom of *The Humbled Homemaker* blog shares her best money-saving tips so you can live frugally and thrive as a stay-at-home or work-from-home mom. From the moment you discovered you were going to be a mom, you envisioned spending each day with your kids, guiding, teaching, and loving them. But diapers, wipes, shoes, and braces are expensive! Though it may feel impossible to manage on one income, Erin Odom is here to show you that, through God's grace, staying at home with your kids isn't just doable; it's doable while living the good life. Your kids are young only once—you don't have to miss out just because money is tight. Erin shares 100 tips, tricks, and simple ways that she has provided the good life on a budget for her family—and you can do the same! *You Can Stay Home with Your Kids!* explores topics like: making and sticking to a budget side income ideas inexpensive ways to do birthday parties educational and enrichment activities for little ones that won't break the bank date ideas and other ways to connect with your spouse without spending a lot planning for holidays and much more! Experience the freedom, flexibility, and joy that come with being a hands-on mom and spending every day guiding, enjoying, and nurturing your kids while still providing a lifestyle you can be proud of. This book shows parents the communication skills they need to teach their children to govern themselves. With the proper family environment and understanding of childhood behaviors homes can become happier. Real kids make a real difference in their communities in this vibrantly photographed chronicle by George Ancona. George Ancona celebrates the joy of kids giving back. In one after-school program, middle-school students mentor and tutor younger children. Via a special partnership, schoolchildren help professionals train assistance dogs for people with disabilities. At a community farm, families plant, grow, and harvest produce for soup kitchens and charities. In these and other examples of volunteering, kids of all ages work together knitting hats and scarves for those who could use warm clothes, packing hot meals to deliver to housebound people, and keeping roadways clean. Young humanitarians reading these accounts may well be inspired to find ways that they can help, too. Solve toddler challenges with eight key mindshifts that will help you parent with clarity, calmness, and self-control. In *Why is My Child in Charge?*, Claire Lerner shows how making critical mindshifts—seeing children's behaviors through a new lens —empowers parents to solve their most vexing childrearing challenges. Using real life stories, Lerner unpacks the individualized process she guides parents through to settle common challenges, such as throwing tantrums in public, delaying bedtime for hours, refusing to participate in family mealtimes, and resisting potty training. Lerner then provides readers with a roadmap for how to recognize the root cause of their child's behavior and how to create and implement an action plan tailored to the unique needs of each child and family. *Why is My Child in Charge?* is like having a child development specialist in your home. It shows how parents can develop proven, practical strategies that translate into adaptable, happy kids and calm, connected, in-control parents. In the spirit of "An Inconvenient Truth," John Javna and his 14-year-old daughter, Sophie, offer 50 environmentally inspired, kid-powered approaches to reducing waste and improving the world. "Help your child develop good eating habits by teaching them how to cook. In this brilliant book, beautifully illustrated step-by-step recipes show children how to make delicious and nutritious food. As well as finding out how easy it is to make lots of scrummy things to eat, they'll practise skills like measuring, weighing and counting without even realising it. Packed with ideas for everything from pizzas to pancakes, including breakfasts, snacks, main meals and sweet treats, there's plenty to keep kids busy in the kitchen"--Publisher's website. "Bam and Jam are big dogs with even bigger hearts. All they want in life is to make friends and be happy, but life isn't always easy... Join Bam and Jam on their adventures as they face the many daily struggles of being a little bit different." There are a great many activities and social settings or requirements that are inaccessible to some, either through their own fears or factors out of their control. Now though, we're living in a moment where kindness, empathy and inclusion are being talked about more than ever before; but it's important that these conversations lead to change. Even if that's just within our own home or school environments at first. While on the surface "The Adventures of Bam and Jam" may only appear to deliver a simple lesson, there's a message in each story that runs deeper and is widely transferrable to many aspects of our lives. I try to shed light on situations great and small that we will all be faced with - or have faced previously - as seen in "You Can't Play With Us!" Something as seemingly straightforward as making friends is often quite the opposite, emphasising the importance of understanding inclusion from an early age. Books can be an excellent tool for teaching and building a basic understanding of larger issues. However more than that, children - and parents - often find comfort within their pages. I hope these stories (most based on genuine experience) will serve as both entertaining and educational. Not just for children but dog owners too! The title *When Bright*

Kids Can't Learn might seem to be an oxymoron. However one in five people fit the profile. For every such struggling student there are three advocated who are aggressively trying to find a solution. This book is written for those who are searching for the key that will set mind free. Coding Activities and Adventures for Kids! Unleash the master coder in your child with this activity-filled guide! Fun coding adventures show kids just how far their imagination can take them. (Did you know coding took us to the moon?!) Complete with simple steps, colorful illustrations, and easy-to-follow screenshots, kids will find the encouragement they need to dive right in and discover the amazing power of coding. You'll both love how Kids Can Code: Gives kids the confidence to master coding through simple projects that feel like play. Helps young learners get to know some of the most common coding languages—and the many ways they're used to invent and create—in kid-friendly ways. Makes concepts like plot coordinates and binary code simple (even fun!) to grasp. Boosts computational thinking—tackling large problems by breaking them down into a sequence of smaller, more manageable problems. Gives kids a taste of the many ways coding be used—from music and design to animation and gaming. The activity-based learning in this guide sets kids up for immediate coding success, so they feel like a real programmer. It's the best way to keep them learning and excited about technology! Explains how specific things in a child's environment are connected to the rest of the world, how using them affects the planet, and how the individual can develop habits and projects that are environmentally sound. When things don't go right. When it's not fair. When someone doesn't do what they promised they would. Losing or breaking something, being scared or hurt. Not understanding or being able to make something work. Any of these things can trigger anger in children. In response, they may scream, shout, or lash out. This book helps children learn how to deal with their anger. It explains how and why we get angry, and why we think, feel and do the things we do when we're angry. It explains how children can use up their angry energy safely, in ways that don't hurt anyone or make things worse. Take Charge of Anger understands what's going on for an angry child. It suggests ways in which a child can learn to manage their anger and get help if they need it. With this book, children can learn solutions that really work so that they feel less overwhelmed and upset and more in control. This groundbreaking text by two noted educators and practitioners, with contributions by specialists in their fields, presents a comprehensive, evidence-based approach to pediatric therapy. Their work reflects the focus of practice today—facilitating the participation of children and their families in everyday activities in the content of the physical and cultural environments in which they live, go to school, and play. The authors describe the occupational roles of children in an ecocultural context and examine the influence of that context on the participation of a child with physical, emotional, or cognitive limitations. A substantially revised and updated edition of PETA's (People for the Ethical Treatment of Animals) 1991 book, Kids Can Save the Animals!, with all the most up-to-date information and new ideas for ways children can protect every creature under the sun. Offers practical tips for raising healthy children in a commercial world, based on the results of an art and essay contest in which kids were asked what they want that money cannot buy. In this book, photos of children doing different activities are presented including playing in the park, digging at the beach, even learning to ride a bike! Readers will discover all of the different things that kids can do. The language arts connection is the vocabulary related to fun activities for kids. Nearly forty percent of all fourth graders in this country cannot read at grade level, and this number rises to sixty percent for children coming from poor families. This gap in learning increases as students go through grade school and is a primary reason for school failure. Ironically, this problem comes even after comprehensive research demonstrates that nearly all children can learn to read if taught using proven-effective instruction. Here, the authors describe the principles of this research in language that non-educators can understand and educators can use. It discusses how to recognize whether the research on reading is being used appropriately, and if not, how to make that happen. Through the eyes of parents and educators who have succeeded in their own struggles to change the educational system, the book provides the reader with the tools and knowledge for transforming the way reading is taught in their children's classrooms. This book takes the reader step-by-step through an understanding of the research on reading and ways in which a single, determined person can make a difference in the learning ability of every student in our nation's schools. Part One is a series of chapters written by individuals who discuss what they experienced during these battles and what made them successful. Part Two is written by a series of experts who describe how they have overcome the challenges involved in creating widespread change in school systems. This second edition also includes information on Common Core State Standards, increased testing and accountability efforts, and related policy issues that directly impact how children learn to read. The appendix is filled with resources—people, places, sample tools, a glossary and bibliography to help the reader. Some key features of this book include: Easy to understand descriptions of research First-person stories of how they have helped teach their kids to read Clear understanding of scientifically based reading and how it can be applied to the classroom Summary of reading-related Common Core State Standards Sample tools for parent advocates Resource lists of government officials, organizations that can help with reading efforts Children's Sports Books: An Illustrated Children's Story About Swimming to Teach Your Child How to Never Give Up Their Dreams! Are you looking for a fun book to help you teach your kids the value of perseverance? Do you want your kids to learn how to regulate feelings of frustration and anger? If that's the case, it's time to consider children's stories! When they're young, kids learn about the world through playing. They like having fun, there's no doubt about it. So if you come up and try to teach them a lesson, they're not going to get that. You need to have a fun and entertaining approach to their education. Kids learn best when they can relate to the story or have fun with it. It's all about interaction and adventure. This is why the best children's books tie together valuable lessons about life with whimsical adventures. In this story, we meet Max and his parents. It's Max's first day of swimming lessons, and he's super excited. But, things don't go too well on that first try. Feeling frustrated, Max wants to give up on his dream. Luckily, his parents are there to teach him how to win! Here's what you and your child will learn in this book: Kids and frustration: How to understand emotions with the best strategies for emotional regulation Growth mindset for kids: A lesson in

perseverance and understanding that all great things take time A no-quit attitude: Positive guidelines for kids to develop character and self-confidence to follow their dreams AND SO MUCH MORE! We've all been on the other end of toddler frustration with no idea how to respond to their complaints. This children's book about swimming will help you find the right words (and pictures) to underline the importance of never giving up on your dreams! Scroll up, Click on "Buy Now with 1-Click", and Get Your Copy Now! Gives an overview of the history of war, the causes and consequences of war and terrorism, and information on efforts to avoid military violence. "This picture book helps kids understand and let go of their jealousy with effective strategies and practical tools like focusing on what they can do to feel better and thinking helpful thoughts"-- Kids Can Bake is a collection of 30 beautifully illustrated step-by-step recipes which show children how to bake delicious cakes, biscuits, pies, puddings and tarts. As well as learning how easy it is to bake all sorts of tasty treats, they'll practise skills like measuring, weighing and counting without even realising it. Full of sweet and savoury ideas for everything from cupcakes to cornbread, including breakfasts, snacks, main meals and desserts, there's plenty to keep young bakers busy in the kitchen. Features vegan and gluten-free variations. - More than 30 easy, tasty and fun recipes to make - The perfect introduction to baking - Vegan and gluten-free variations - Children will learn basic cooking skills and practise mathematics too - Suitable for ages 6+, with a little adult assistance When Tanisha spills grape juice all over her new dress, her classmate contemplates how to make her feel better and what it means to be kind. From asking the new girl to play to standing up for someone being bullied, this moving and thoughtful story explores what a child can do to be kind, and how each act, big or small, can make a difference--or at least help a friend. With award-winning author Pat Zietlow Miller's gentle text and Jen Hill's irresistible art, Be Kind is an unforgettable story about how two simple words can change the world. "Kids need supportive advice for dealing with teasing -- or for knowing when they should stop teasing someone else. This book shares practical tools with kids to help them turn away from teasing. Additional activities are included at the back of the book"-- "Carolyn is in a wheelchair, but she doesn't let that stop her! She can do almost everything the other kids can, even if sometimes she has to do it a little differently"-- Level 3 guided reader that helps kids understand the importance of consuming less and the impact that has on keeping the earth healthy. Smart Kid, Can't Read provides expert information for parents of children who are struggling to read or who are reading below grade level. This practical guide outlines five steps aimed at empowering parents to take active roles in their children's education and advocate on their behalf, including how to act quickly once a problem is suspected, understanding what kind of reading help the children need, learning about the reading process, understanding parents' rights under the federal special education law, and practical advice on how to advocate for better reading services in the children's school systems. Smart Kid, Can't Read contains actual case studies with beneficial information and advice for developing a program to help children become better readers. The author encourages parents to advocate on their children's behalf, and presents practical solutions for developing joint programs with tutors and the children's school systems. The book also provides a glossary of terms and references for further information. Young people share valuable advice—words they wish they had heard growing up—to inspire, reassure, encourage, and say You're enough, just as you are. You can . . . be brave, challenge yourself, overcome your fears, be kind, be YOU! Come on an amazing journey with fourteen young people as they grow from birth to eighteen, learning new skills, exploring new worlds, standing up for their own and others' rights, and following their dreams. Created in consultation with real young adults, Alexandra Strick's groundbreaking narrative will inspire and empower young people of all ages and abilities to believe in themselves and follow their own path, especially during tough times. Complemented by Steve Antony's exuberant and inclusive artwork, which introduces fourteen comparable fictional characters and tracks their growth page by page, You Can! is a timely and meaningful gift for graduates or any reader marking significant milestones. "Carrino and Colaneri, HGTV personalities known as the Cousins, bring their design and construction know-how to a young audience in this sprightly introduction to the tools of their trade." —Publishers Weekly From HGTV stars, cousins, and best friends John Colaneri and Anthony Carrino comes a fun-filled picture book that introduces young readers to the tools in a toolbox and how to use them. A hammer. Nails. A screwdriver. How do we use them? Using simple language, cousins Anthony and John introduce kids to tools and their uses. As their construction project grows, so does the number of kids helping. At the end, they reveal exactly what you can do with a toolbox: We can build a playground! For Kylene Beers, the question of what to do when kids can't read surfaced in 1979 when she met and began teaching a boy named George. When George's parents asked her to explain why he couldn't read and how she could help, Beers, a secondary certified English teacher with no background in reading, realized she had little to offer. That moment sent her on a twenty-three-year search for answers to the question: How do we help middle and high schoolers who can't read? Now, she shares what she has learned and shows teachers how to help struggling readers with comprehension, vocabulary, fluency, word recognition, and motivation. Filled with student transcripts, detailed strategies, reproducible material, and extensive booklists, Beers' guide to teaching reading both instructs and inspires. Do you find yourself constantly asking your child to "pick up the pace"? Does he or she seem to take longer than others to get stuff done--whether completing homework, responding when spoken to, or getting dressed and ready in the morning? Drs. Ellen Braaten and Brian Willoughby have worked with thousands of kids and teens who struggle with an area of cognitive functioning called "processing speed," and who are often mislabeled as lazy or unmotivated. Filled with vivid stories and examples, this crucial resource demystifies processing speed and shows how to help kids (ages 5 to 18) catch up in this key area of development. Helpful practical tools can be downloaded and printed in a convenient 8 1/2" x 11" size. Learn how to obtain needed support at school, what to expect from a professional evaluation, and how you can make daily routines more efficient--while promoting your child's social and emotional well-being. Teaching mathematics to a range of learners has always been challenging. With the widespread use of inclusion and RTI, having a variety of effective teaching options for students who struggle is more important than ever. In My Kids Can, you'll get instructional strategies

that allow all struggling math learners to move along the path toward grade-level competency. In My Kids Can teachers share successful ways to work with struggling students. Their instruction is aligned with the NCTM standards and guided by five powerful core principles. Make mathematical thinking explicit. Link assessment and teaching. Build understanding through talk. Expect students to take responsibility for their own learning and support them as they do. Work collaboratively with special education staff to plan effective instruction. These teachers describe how they use whole-group, small-group, and individual instruction as well as other strategies that hold kids to high expectations while scaffolding content and processes across the math curriculum. In addition, an accompanying DVD presents classroom footage of their teaching and includes the language, dialogue, and teaching moves you'll adapt for success with your students. The DVD also contains teacher interviews that answer difficult questions of practice. Best of all, with professional learning questions and video analyses, My Kids Can is great for individuals, teacher study groups, staff development, and preservice courses. Help every child grow as a mathematician. Trust your fellow teachers for instruction that works. Read My Kids Can and use its proven-effective strategies and its professional supports to build on your students' strengths and address their learning needs. Fall/Winter Lessons and Concerts are made fun and easy with these delightful activities and recordings. Children learn about life above and below the snow as they sing, move, play and create music. Lynn Kleiner shares her creative lesson ideas for young children that capture the wonderful power and excitement of interactive musical learning. This is a collection that is successful from preschool through elementary grade 3. Includes options for Orff and Recorder. Vocal and separate accompaniment tracks are included for all songs. I Can Do Hard Things is a beautiful reminder to tune into and listen to that quiet voice inside so that you can do what's right for you. I don't always feel brave, confident or strong. Sometimes it seems easier to follow others along. It's hard to navigate a world in which we get so many messages about how we should be. We pause. We listen to the quiet voice inside. I connect with the love and strength it brings. It helps me remember: I can do hard things. I Can Do Hard Things: Mindful Affirmations for Kids is the perfect addition to your home or school library. (The book is available in Spanish as Yo Puedo Hacer Cosas Dificiles: Afirmaciones Concientes Para Niños).
