icon and legendary bassist Victor L Wooten comes an inspiring parable of music life and the difference between playing all the right notes and feeling them The Music Lesson is the story of a struggling young musician who wanted music to be his life and who wanted his life to be great Then from nowhere it seemed a teacher arrived Part musical genius part philosopher part eccentric wise man the teacher would guide the young musician on a spiritual journey and teach him that the gifts we get from music mirror those from life and every movement phrase and chord has its own meaning All you have to do is find the song inside The best book on music and its connection to the mystic laws of life that I ve ever read I learned so much on every level Multiple Grammy Award winning saxophonist Michael Brecker Music Theory in Practice Eric Taylor,2008-05 Fully revised this workbook remains the best way to prepare for ABRSM s Grade 5 Theory of Music Exam Features a clear explanation of music notation many worked examples and practice exercises definitions of important words and concepts specimen exam questions and helpful tips for students *Get to the Point!* Joel Schwartzberg,2017-10-16 In this indispensable guide for anyone who must communicate in speech or writing Schwartzberg shows that most of us fail to convince because we don t have a point a concrete contention that we can argue defend illustrate and prove He lays out step by step how to develop one In Joel s Schwartzberg s ten plus years as a strategic communications trainer the biggest obstacle he s come across one that connects directly to nervousness stammering rambling and epic fail is that most speakers and writers don t have a point They typically have just a title a theme a topic an idea an assertion a catchphrase or even something much less A point is something more It s a contention you can propose argue defend illustrate and prove A point offers a position of potential value Global warming is real is not a point Scientific evidence shows that global warming is a real human generated problem that will have a devastating environmental and financial impact is a point When we have a point our influence snaps into place We communicate belief conviction and urgency This book shows you how to identify your point leverage it stick to it and sell it and how to train others to identify and successfully make their own points
