introductory book might seem as a straight forward task of setting up a structure and filling in the blanks. However writing this book turned out to be a pleasant journey of discovery. Based on our past experiences each of us had a clear understanding of enterprise architecture based on several years of experience and insight in the field. However when we started writing this book and each of us exposed our individual understandings it became apparent that our understanding of the field differed in several ways. This prompted several discussions leading to an abundance of new insights. Without exception these discussions took place in a pleasant and open atmosphere fueled by our shared drive for understanding and increased insight. We are now even more convinced than before that the field of enterprise architecture is a true multi disciplinary profession. In the resulting book we would like to share our insights while also hoping to continue our discussions now also involving you as a reader. We also realise that the journey is still far from complete. While this introductory book provides an overview of the field of enterprise architecture from the perspective of our insights many aspects need further refinement.
