[Literature](#) Dec 09 2021 High school and college teachers interested in offering units or courses on Native American literature have often had to carve out new teaching strategies because ready resources and guides are scarce. In *Reading Native American Literature: A Teacher's Guide*, Bruce A. Goebel offers innovative and practical suggestions about how to introduce students to a range of Native American works. Grounded in the idea that studying tribal cultures will enable students to gain deeper insights into Native literatures, each chapter helps teachers recognize what students need to know and then provides them with supporting materials and activities that will lead them to more informed interpretations of the literature. After considering ways in which a study of Native American literature addresses gaps in standard American history textbooks, Goebel discusses the complexity that lies in the language of race. In the following chapters, he offers in-depth study of specific texts, including early Native American poetry, James Welch's *Fools Crow*, Leslie Marmon Silko's *Ceremony*, and Sherman Alexie's *The Business of Fancydancing*. Reproducible copies of traditional, tribally specific poems and stories are

linked to the larger texts being studied. In addition to a brief annotated bibliography of resources for teaching Native American literature, the chapters also contain histories, a glossary, and teaching activities.

Teaching African American Literature Through

Experiential Praxis Jan 10 2022 This book focuses on teaching African American literature through experiential praxis. Specifically, the book presents several canonical African American literature authors in a study abroad context. The book chapters consider the historical implications of travel within the African American literature tradition including slave narratives, migration narratives, and expatriate narratives. The book foregrounds this tradition and includes activities, rhetorical prompts, and thematic discussion that support instruction.

Teaching Western American Literature May 26 2023 In this volume experienced and new college- and university-level teachers will find practical, adaptable strategies for designing or updating courses in western American literature and western studies. Teaching Western American Literature features the latest developments in western literary research and cultural studies as well as pedagogical best practices in course development. Contributors provide practical models and suggestions for courses and assignments while presenting concrete strategies for

teaching works both inside and outside the canon. In addition, Brady Harrison and Randi Lynn Tanglen have assembled insights from pioneering western studies instructors with workable strategies and practical advice for translating this often complex material for classrooms from freshman writing courses to graduate seminars. Teaching Western American Literature reflects the cutting edge of western American literary study, featuring diverse approaches allied with women's, gender, queer, environmental, disability, and Indigenous studies and providing instructors with entrée into classrooms of leading scholars in the field.

American Pedagogy Mar 24 2023 Excerpt from American Pedagogy: Education, the School, and the Teacher, in American Literature We are physiologically connected and set forth in our beginnings, and it is a matter of immense consequence to our character, what the connection is. In our birth we not only begin to breathe and circulate blood, but it is a question hugely significant whose the blood may be, For in this we have whole rivers of predispositions, good or had, set running in us - as much more powerful to shape our future than all tuition and regulative influence that 'come after, as they are earlier in their beginning, deeper in their insertion, and more constant in their Operation. A Teacher's Guide for Culturally Responsive Teaching in the American Literature Curriculum Jun 02

2021 Edgar Allen Poe, Benjamin Franklin, Mark Twain, Harper Lee, John Steinbeck. These are some of the greats of American Literature. Most are household names, recognizable even to those who paid little attention in high school. All these authors have something in common; they are white. In high school American Literature classes, white authors come to the forefront. Their voices ring for generation upon generation to hear. These authors help students understand trends and attitudes of the American past. However, heavily presenting literature by white authors, therefore leaving out other racial voices, creates a narrow, unrealistic view of United States history. It takes out the unique attitudes of the 'other,' or the group of people who were not white. More

specifically, the black voice is often skimmed over in American Literature classes. Students usually study Frederick Douglass, Langston Hughes, and Maya Angelou. However, how many more black authors can most students name from their formal education? This leaning towards Eurocentric literature, rather than Afrocentric, is quite paradoxical, as American history relies on people of color, just as much as white people. Another paradox is the presentation of literature about black issues written by white authors; white authors write with second-hand knowledge of the black experience, therefore distorting it. By using culturally responsive pedagogy in American Literature classes, high school teachers can utilize literature such as *Twelve Years a Slave* by Solomon Northup, *I Know Why the Caged Bird Sings* by Maya Angelou, and *Kindred* by Octavia Butler in their classrooms to widen students' understanding of

[How to Teach American Literature](#) May 06 2024 How does one keep classic books alive for young people today and teach them that literature

is instructional and delightful? How does the teacher foster a classroom environment that encourages student participation and promotes enjoyment so that teenagers learn to appreciate literary study? More specifically, how can teachers cover centuries of American literature with students who don't appreciate why they should read material written centuries ago about people and issues that appear to be irrelevant to life today in a language that seems esoteric? The author of this series of high school teaching guides addresses these issues. *How to Teach American Literature: A Practical Teaching Guide* provides a detailed resource for teachers or anyone interested in an in-depth study of the subject. This second book in the series covers American literature from the Puritan era to contemporary works. Included are suggestions for cultivating a love for literature, teaching techniques, detailed analyses of each work, questions for review and test questions with suggested responses, essay topics, audiovisual aids, classroom handouts, and recommended books that enhance teaching. The author emphasizes two basic reasons for teaching literature: it is instructional and delightful. This book provides a comprehensive methodology for teaching the subject that a teacher could apply to one year's lesson plans without further investment in time. Elizabeth McCallum Marlow has developed quality comprehensive guides for the

teaching community based on her thirty-five years of experience and her passion for literature. Teaching professionals will find her tried and true practices to be invaluable. --Johnathan Arnold, MBA, M.Ed, D.Ed.Min Headmaster Covenant Christian Academy, Cumming, GA

Teaching with Digital Humanities Aug 29 2023 Jennifer Travis and Jessica DeSpain present a long-

overdue collection of theoretical perspectives and case studies aimed at teaching nineteenth-century American literature using digital humanities tools and methods. Scholars foundational to the development of digital humanities join educators who have made digital methods central to their practices. Together they discuss and illustrate how digital pedagogies deepen student learning. The collection's innovative approach allows the works to be read in any order. Dividing the essays into five sections, Travis and DeSpain curate conversations on the value of project-based, collaborative learning; examples of real-world assignments where students combine close, collaborative, and computational reading; how digital humanities aids in the consideration of marginal texts; the ways in which an ethics of care can help students organize artifacts; and how an activist approach affects debates central to the study of difference in the nineteenth century.
