Master the role and responsibilities of the veterinary assistant! From respected veterinary educator Margi Sirois, Elsevier's Veterinary Assisting Textbook, 3rd Edition covers everything you need to know to pass the Approved Veterinary Assistant (AVA) exam and succeed in clinical practice. With this comprehensive textbook students will learn to assist in laboratory and radiographic procedures, properly restrain animals, set up equipment and supplies, clean and maintain practice facilities, feed and exercise patients, collect samples, handle and dispense medications, groom patients, and record keeping. Updated content reflects the latest advances in veterinary assisting procedures, and new images illustrate key tasks. Comprehensive coverage provides details on the tasks performed by veterinary assistants, and covers everything you need to know to pass the Approved Veterinary Assistant (AVA) exam and succeed in clinical practice. Step-by-step instructions and hundreds of full-color photographs show veterinary assisting tasks and clarify key concepts. Information on office procedures and client relations prepares you to be involved in many of the business aspects of veterinary practice and to work closely with management staff. Coverage of the workflow in a veterinary practice helps you understand your role as well as the roles of all the other members of the veterinary health care team. Critical Concept boxes highlight important points and provide useful tips to improve your knowledge and skills. A student workbook provides activities to help you apply concepts to veterinary practice, including definitions of key terms, review questions, crossword puzzles, illustration labeling, sample cases, and clinical applications. Available separately. NEW! Completely updated content throughout reflects the latest advances in veterinary assisting procedures for improved patient service. NEW! Fear-free handling coverage now included in Chapter 6: Animal Behavior and Restraint. NEW! Poultry Care section added to Chapter 13: Large Animal Nursing and Husbandry. NEW and UPDATED! Additional and revised images throughout accurately illustrate key veterinary assisting tasks. Get the most out of your nurse assisting textbook, and review for your certification exam! Corresponding to the chapters in Sorrentino and Remmert's Mosby's Textbook for Nursing Assistants, 9th Edition, this workbook reinforces your understanding with numerous exercises and review questions. Checklists help you study skills — with a checklist for each of the 100+ procedures in the text. The Competency Evaluation Review section helps you prepare for the CNA exam with a review of content, a skills evaluation review, and two practice exams. Answers are included for all review questions and practice exams! Comprehensive review corresponds chapter-by-chapter to the textbook. Competency Evaluation Review section includes a content review and review questions for all key topics, a skills evaluation review, and two practice exams that help to prepare you for the written certification exam. A wide variety of exercises enhances learning and

keeps you interested in the material. Skills checklists help you review and practice the procedures required for certification. Independent learning activities in every chapter allow additional review and practice. Optional learning exercises are provided for longer programs and/or higher-level students. NEW review chapters are added to correspond to the five new chapters in the textbook. Easy to understand and simple to use, Student Workbook for Modern Dental Assisting, 10th Edition, provides the best review and practice available in workbook form for mastering core dental assisting skills. Doni Bird and Debbie Robinson offer chapter-by-chapter practice questions and exercises, competency skill sheets, flashcards, procedure reviews, and case studies to help you master the content in your textbook. It's essential in helping you master the skills you need for clinical success. Comprehensive practice exercises for each chapter (short answer, fill-in-the-blank, and multiple-choice questions and labeling exercises) help you master key terminology and important concepts. A multimedia review section refers you to relevant procedure videos on the text's Multimedia Procedures DVD to visually reinforce your understanding of chapter content. Patient case exercises section directs you to patient information on the companion Evolve website's Interactive Dental Office, including related medical and dental histories, radiographs, and charting information to will help you answer questions that reinforce chapter content and help you develop clinical decision-making skills. Competency skill sheets provide clear guidelines for each skill and help you evaluate your strengths and weaknesses in performing procedural skills. Pages are also perforated so that you can remove individual skill sheets and take them with you. Tear-out flashcards summarize key information about the sciences, medical emergencies, infection control, radiography, dental materials, dental instruments, and dental procedures for convenient, portable review of key information necessary to prepare for examinations. Brief case scenarios with accompanying questions challenge you to apply key clinical concepts and prepare you for real world practice. Competency skills checklists are provided for all procedures new to the textbook, including use of the caries detection device, applying fluoride varnish, taking a patient's pulse oximetry and ECG, performing intraoral and extraoral photography, and performing radiography with digital sensors and phosphor storage plates. Patient form activities offer valuable practice filling out blank patient forms that are essential to today's dental office. UPDATED! New chapter organization breaks material into manageable portions, improving your ability to retain important information. Organization matches that of the accompanying text "Lippincott's textbook for nursing assistants" and exercises are grouped according to key learning points derived from the learning objectives in the text. Also includes exercises for Appendix C., "Introduction to the language of health care," and checklists for every procedure in the text.--cover Enhance your learning with a wealth of interactive exercises for practice, reinforcement, and recall! An indispensable companion to the textbook, the Student Workbook for The Administrative Dental Assistant, 5th Edition combines the key objectives and content of the book with challenging exercises — putting the information you need into a practical context. The Medical Assistant Vocabulary Workbook is an awesome tool to use before a course of study as it will help you develop a strong working Insider's Language before you even begin your review. Learn the Secret to Success! After nearly 20 years of teaching Lewis Morris discovered a startling fact: Most students didn't struggle with the subject, they struggled with the language. It was never about brains or ability. His students simply didn't have the knowledge of the specific language needed to succeed. Through experimentation and research, he discovered that for any subject there was a list of essential words, that, when mastered, unlocked a student's ability to progress in the subject. Lewis called this set of vocabulary the "Insider's Words". When he applied these "Insider's Words" the results were incredible. His students began to learn with ease. He was on his way to developing the landmark series of workbooks and applications to teach this "Insider's Language" to students around the world. Emphasis on 21st century job skills is seen throughout the book as chapters discuss the soft skills — like work ethic, collaboration, professionalism, social responsibility, critical thinking, and problem-solving — that dental assistants must possess. NEW! Career-Ready Practice exercises are included at the end of each chapter asking readers to recall and assimilate information learned within the chapter and demonstrate its application in the dental office. NEW! Content updates include HIPAA changes, insurance updates (including the new claim form), dental terminology overview, new hazard communication procedures, and more. NEW! Additional artwork incorporates new images focused on technology in the dental office and new, paperless ways to manage the day-to-day functions. This comprehensive full-color student workbook contains worksheets for each chapter of Lippincott Textbook for Nursing Assistants, Third Edition. The worksheets are fully integrated with the text and offer exercises, questions, and learning activities for students. NEW! Updated activities and questions reflect the new content in Elsevier's Veterinary Assisting Textbook, 3rd Edition. The 6th edition of this comprehensive nursing assistant training textbook is organized by body system, which gives students a context for learning. Here is important information about the latest edition: Chapters are organized around body systems (structure and function, normal changes of aging, and common diseases and related care are grouped together). Chapter review sections contain multiple choice questions, along with short answer questions. The concept of person-centered care is reinforced throughout the book. This edition contains new information about the following diseases and disorders: COVID-19, migraines and cluster headaches, more types of cancers, respiratory syncytial virus (RSV), metabolic syndrome, varicose veins, and seasonal affective disorder (SAD), as well as expanded and reorganized mental health disorder coverage. We added additional electronic documentation guidelines. We included new information on topics including testing (albumin/protein, CT calcium score, point-of-care testing [POCT], and continuous glucose monitoring [CGM] systems); medical devices (stents, Holter monitors, nebulizers); and patient care/treatments (cochlear implants, targeted therapy, and information from the International Dysphagia Diet Standardisation Institute (IDDSI) on thickened liquids and texture modified foods). There is a hardback version of this book.
