Teaching Humanities and Social Sciences, 7e prepares teachers to develop and implement programs in the humanities and social sciences learning area from F-10. It successfully blends theory with practical approaches to provide a basis for teaching that is engaging, inquiry-based and relevant to students' lives. Using Version 8.1 of the Australian Curriculum, the text discusses the new structure of the humanities and social sciences learning area. Chapters

on history, geography, civics and citizenship, and economics and business discuss the nature of these subjects and how to teach them to achieve the greatest benefit for students, both as sub-strands within the Year F-6/7 HASS subject and as distinct Year 7-10 subjects. Throughout, the book maintains its highly respected philosophical and practical orientation, including a commitment to deep learning in a context of critical inquiry. With the aid of this valuable text, teachers can assist primary, middle and secondary students to become active and informed citizens who contribute to a just, democratic and sustainable future.

The Neonatal Resuscitation Program (NRP) is an educational program jointly sponsored by the American Academy of Pediatrics (AAP) and the American Heart Association (AHA). Psychological Association is the style manual of choice for writers, editors, students, and educators in the social and behavioral sciences, nursing, education, business, and related disciplines. New Syllabus Mathematics (NSM) is a series of textbooks specially designed to provide valuable learning experiences to engage the hearts and minds of students sitting for the GCE O-level examination in Mathematics. Included in the textbooks are Investigation, Class Discussion, Thinking Time, Journal Writing, Performance Task and Problems in Real-World Contexts to support the teaching and learning of Mathematics. Every chapter begins with a chapter opener which motivates students in learning the topic. Interesting stories about Mathematicians, real-life examples and applications are used to arouse students' interest and curiosity so that they can appreciate the beauty of Mathematics in their surroundings. The use of ICT helps students to visualise and manipulate mathematical objects more easily, thus making the learning of Mathematics more interactive. Ready-to-use interactive ICT templates are available at <http://www.shinglee.com.sg/StudentResources/> This book is exceptional in the sense that it provides an introduction to law in general rather than the law of one specific jurisdiction, and it presents a unique way of looking at legal education. It is crucial for lawyers to be aware of the different ways in which societal problems can be solved and to be able to discuss the advantages and disadvantages of different legal solutions. In this respect, being a lawyer

involves being able to reason like a lawyer, even more than having detailed knowledge of particular sets of rules. Introduction to Law reflects this view by focusing on the functions of rules and on ways of arguing the relative qualities of alternative legal solutions. Where 'positive' law is discussed, the emphasis is on the legal questions that must be addressed by a field of law and on the different solutions which have been adopted by, for instance, the common law and civil law tradition. The law of specific jurisdictions is discussed to illustrate possible answers to questions such as when the existence of a valid contract is assumed. Relationships and sensitivity to others through a chapter on diversity and integrated discussions of diversity issues. Communication specialists, and anyone interested in improving their interpersonal relationship skills. "Learn how to learn more effectively! This comprehensive text helps you identify your learning style and select the most appropriate learning strategies for you. With hands-on self assessment tools and examples of how different learning strategies are applied, this book will help you get the most out of the college learning experience!"--Back cover. of Essentials of Fire Fighting, 6th Edition and adds three chapters written and validated to meet the emergency medical and hazardous materials requirements of NFPA® 1001, 2013 Edition. Chapter 22 specifically addresses the Firefighter I and Firefighter II knowledge and skills requirements for the emergency medical care competencies identified in NFPA® 1001, 2013 Edition Chapter 4. Chapters 23 and 24 meet the First Responder Awareness and Operations Levels for Responders according to NFPA® 472: Standard for Competence of Responders to Hazardous Materials/Weapons of Mass Destruction Incidents, 2012 Edition and OSHA 1910.120. The chapters also provide validated content to meet Section 6.6, Mission-Specific Competencies: Product Control, of NFPA® 472. The hazardous materials information is adapted from the IFSTA Hazardous Materials for First Responders, 4th Edition. Taking a comprehensive approach across four modules, Educational Psychology for Learning and Teaching investigates the development of the learner over time, the learning process, individual differences in the classroom, and educational psychology in contemporary classrooms. This wholly Australian and New Zealand text caters for those who are planning to work with any age range from early childhood to adolescence and beyond. This seventh edition expands on Dynamic Systems Theory, the Information Processing Model and critical thinking around standardised testing. Duchesne presents multiple views of learning, rather than just one, prompting

students to think critically and develop their own philosophy of learning and teaching, drawing on the various theories. Premium online teaching and learning tools are available on the MindTap platform. Learn more about the online tools au.cengage.com/mindtap
