Note to teachers: Please read the Teaching Notes before discussing the answers with your students. Given the topic of race and ethnicity, the answers to these questions are suggested, not absolute.

#### **Reading Assignment 1: Getting Ready to Read, page 2**

**How are the above men the same? How are they different?**

The men are from similar ethnic and cultural groups, but are generally seen to be of different races.

**How are the above men the same? How are they different?**

**How are the above women the same? How are they different?**

The women are from different ethnic and cultural groups, but are generally understood to be from the same racial groupage

#### **Exercise 1: Participating in class discussion, page 3**

1. Students should mention physical and cultural similarities and differences with the three groups. Indications of cultural differences might be clothing, style, adornment, and facial expression.
2. The dictionary definitions of race and ethnicity are very similar. Reading Selection 1 suggests that race refers to biological traits, while ethnicity refers to cultural and behavioral traits.
3. Students will bring their current understanding of the terms race and ethnicity. The instructor should try to broaden that understanding to first make the standard distinction between the two (physical differences vs. cultural differences) and then lead to a more sociological perspective which makes distinctions based on social structure.
4. Group C
5. Group A
6. Answers will vary.
7. This question asks students to evaluate material based on their knowledge and experience. Try to work into the discussion the concepts of dominant and minority grouping, segregation, subjugation, and integration without having to use those terms directly.
