This guide addresses the values, advantages, and challenges of different higher education options. Once a family and student evaluate their options, the guide discusses what students must do in the application process to get accepted. The guide takes a unique approach to breaking down the concerns surrounding paying for college: how schools differ in distributing financial aid, minimizing student debt, and how higher education may be less expensive than conventional wisdom leads us to believe. Whether a family is looking to do-it-yourself or seeking assistance, the guide provides a list of resources, and some guidance to using those resources, to help successfully navigate through

higher education.

The College-bound Student's Almanac May 30 2021

College Bound and Moving Up Sep 26 2023 Today, there is a huge income gap between college graduates and high school graduates. Yet, many young Americans still believe that "they don't need college" to get rich or get ahead. For every "self made millionaire" who skipped college, there are millions of high school graduates who will struggle financially for the rest of their lives. For about the same cost to buy and insure a "nice" new car, then drive it for four years, many young adult Americans could pay for a four year college degree instead. That degree then would earn them enough extra income on average to buy a new car for cash every two years for the rest of their lives! Take out a car loan or a school loan? It's a no brainer! Dr. Mike Santaniello, who drove a truck for fourteen years and was the first person in his family to attend college, destroys the myths about college. His book proves once and for all that going to college is "worth it" for almost everyone. Based on years of research on college students and their families, this book teaches parents and grandparents who are not college graduates what they could do to encourage their children to become successful college students. From over twenty five years of teaching, advising, and studying working college students, Dr. Mike Santaniello offers the aspiring college student inside information on how to excel in college and beyond.
