Farming Systems and Food Security in Africa John Dixon, Dennis P. Garrity, Jean-Marc Boffa, Timothy O. Williams, Tilahun Amede, Christopher Auricht, Rosemary Lott, George Mburathi, 2019-12-09 Knowledge of Africa's complex farming systems set in their socio-economic and environmental context is an essential ingredient to developing effective strategies for improving food and nutrition security This book systematically and comprehensively describes the characteristics trends drivers of change and strategic priorities for each of Africa's fifteen farming systems and their main subsystems It shows how a farming systems perspective can be used to identify pathways to household food security and poverty reduction and how strategic interventions may need to differ from one farming system to another In the analysis emphasis is placed on understanding farming systems drivers of change trends and strategic priorities for science and policy Illustrated with full colour maps and photographs throughout the volume provides a comprehensive and insightful analysis of Africa's farming systems and pathways for the future to improve food and nutrition security The book is an essential follow up to the seminal work *Farming Systems and Poverty* by Dixon and colleagues for the Food and Agriculture Organization (FAO) of the United Nations and the World Bank published in 2001 *New Mana* Matt Tomlinson, Ty P. K?wika

Tengan, 2016-04-13 *Mana* a term denoting spiritual power is found in many Pacific Islands languages In recent decades the term has been taken up in New Age movements and online fantasy gaming In this book 16 contributors examine mana through ethnographic linguistic and historical lenses to understand its transformations in past and present The authors consider a range of contexts including Indigenous sovereignty movements Christian missions and Bible translations the commodification of cultural heritage and the dynamics of diaspora Their investigations move across diverse island groups Papua New Guinea Solomon Islands Vanuatu Fiji Tonga Samoa Hawai'i and French Polynesia and into Australia North America and even cyberspace A key insight that the volume develops is that mana can be analysed most productively by paying close attention to its ethical and aesthetic dimensions Since the late nineteenth century mana has been an object of intense scholarly interest Writers in many fields including anthropology linguistics history religion philosophy and missiology have long debated how the term should best be understood The authors in this volume review mana's complex intellectual history but also describe the remarkable transformations going on in the present day as scholars activists church leaders artists and entrepreneurs take up mana in new ways **Contributions to Statistical Analysis** Rafael

Hernandez-Nieto, 2002-07 In this work two new coefficients have been proposed the Coefficient of Proportional Variance C_{pv}

and the Coefficient of Content Validity Ccv The Coefficient of Proportional Variance proposes a solution to the problem of measuring and evaluating the relative variability of a given distribution obviating the problems of subjective interpretation and value judgments The mathematical relationship derived from the Cpv allows for a more precise and more scientific interpretation of relative variability of data The Coefficient of Content Validity permits the calculation of the content validity for each item as well as the total content validity of any data collection instrument that has been subjected to the evaluation of several judges Panel of Experts Technique Until now according to the psychometric and statistical literature a quantitative estimator of the content validity of a measuring instrument had not been achieved

Federalism and Political Restructuring in Nigeria Kunle Amuwo,1998 Twenty essays by four generations of Nigerian scholars are included in this volume the first to examine the historical political economic and comparative dimensions of attempts by the military to restructure the Nigerian federation Evidence is accumulated in support of the book s central thesis that autocratic rule is antipathetic to the sustenance of genuine federal practice and that federal restructuring initiated under the tight control of repressive governments cannot but lead to a situation in which federalism is assaulted if not dismantled It is argued that in such a context the vending of a federal doctrine becomes more or less an exercise in the propagation of false consciousness in the service of power portraying a picture of divided power to hide the reality of undivided power

I Will Survive Gloria Gaynor,2014-03-11 I Will Survive is the story of Gloria Gaynor America s Queen of Disco It is the story of riches and fame despair and finally salvation Her meteoric rise to stardom in the mid 1970s was nothing short of phenomenal and hits poured forth that pushed her to the top of the charts including Honey Bee I Got You Under My Skin Never Can Say Goodbye and the song that has immortalized her I Will Survive which became a 1 international gold seller With that song Gloria heralded the international rise of disco that became synonymous with a way of life in the fast lane the sweaty bodies at Studio 54 the lines of cocaine the indescribable feeling that you could always be at the top of your game and never come down But down she came after her early stardom and problems followed in the wake including the death of her mother whose love had anchored the young singer as well as constant battles with weight drugs and alcohol While her fans always imagined her to be rich her personal finances collapsed due to poor management and while many envied her she felt completely empty inside In the early 1980s sustained by her marriage to music publisher Linwood Simon Gloria took three years off and reflected upon her life She visited churches and revisited her mother s old Bible Discovering the world of gospel she made a commitment to Christ that sustains her to this day

Information Highlighting in Advanced Learner English Marcus Callies,2009 This book presents the first detailed and comprehensive study of information highlighting in advanced learner language echoing the increasing interest in questions of near native competence in SLA research and contributing to the description of advanced interlanguages It examines the production and comprehension of specific means of information highlighting in English by

native speakers and German learners of English as a foreign language presenting triangulated experimental and learner corpus data as corroborating evidence The study focuses on learners use of discourse pragmatically motivated variations of the basic word order such as inversion preposing and it and wh clefts an underexplored field in SLA research to date The book also provides a critical re assessment of the study of pragmatics within SLA It has largely been neglected to date that L2 pragmatic knowledge includes more than the sociopragmatic and pragmalinguistic abilities for understanding and performing speech acts Thus the book argues for an extension of the scope of inquiry in interlanguage pragmatics beyond the cross cultural investigation of speech acts It also discusses pedagogical implications for foreign language teaching and will be of interest to applied linguists and SLA researchers language teachers and curriculum designers **Fungi of Iran** Djafar Ershad,1977 **Making Money Matter** G. Benjamin Bingham,2015-04-07 The way we think about money has

extraordinary impact This book satisfies the growing longing for a financial overview that can provide practical advice and demonstrate how money is a social tool Making Money Matter introduces the reader to common money mistakes and the dysfunctional nature of the current financial framework Its overview of the SRI world will inspire investors to push their advisors envelope while providing new strategies to meet the demand for positive impact It provides a philosophical basis for transforming our view of money from an end unto itself to a means to change the world for the better This book traces the author s journey from early financial innocence to an appreciation of how money works and how it can be transformed People who care about the planet and society at large need a bridge from deeply felt values to practical understanding and advice that will lead to a new money paradigm This new approach covers all aspects of money from everyday transactions to high impact investment options It describes a new investment paradigm that will support both reasonable returns and long term societal and planetary health Socially Responsible Investing SRI is well established for smaller scale investors in the public space and impact investing for accredited and qualified investors is taking hold in the private space Readers want more than flat definitions and need an inclusive overview that can inspire investors on all levels to move the trillions required for addressing the world s many dire problems This book s unique contribution is a personal practical and holistic approach to socially conscious investing which engages the reader in a way that is both healing and empowering Making Money Matter is designed for mass appeal First its biographical true confessions format introduces the reader to common money mistakes made by the author while personalizing the dysfunctional nature of the current financial framework Secondly its personalized overview of the countermovement of socially conscious investment options is designed to inspire investors to push their advisors advice envelope while providing investment managers with practical new strategies to meet the burgeoning demand for positive impact Finally this book provides a philosophical basis for the new money paradigm that shows how to transform our view of money from an end unto itself to a means to change the world for the better This book is aimed at people who are concerned about Wall Street banking and our current monetary and finance system average investors businessmen

progressives libertarians or fiscal conservatives However it should be of particular interest to investment professionals looking for new ways of meeting their clients needs Investment managers and consultants need to be educated about this space This book should be as popular among family office associations as the Chartered Financial Analysts Association But this book s ultimate goal is to provide inspiration to all levels of investors Everyone uses money and the way we think about money has more impact than all the impact investments put together This thinking needs to change Just as consumers drove the growth of the local and organic movements investors will drive the new money paradigm This may help anyone to begin to think about the real bottom line of every transaction which is the impact of our actions on the planet including all living beings that inhabit it

Arabs Down Under Mohammed Mahfoodh Al Ardhi, 2008 Ibrahim a freelance journalist from Arabia has always been deeply aware of his rich Arabian heritage and history but has become disillusioned and disheartened by the seemingly incessant onslaught of Western suspicion abuse and adverse media attention thrust upon his people To Ibrahim and his family it seems as if Western paranoia and prejudice against the Arab has become set in stone It is to escape this climate of hostility that Ibrahim decides to take his wife two sons and three daughters on a holiday away from the heat of the Middle Eastern summer and visit an old journalist friend Mark a staunch Englishman who has retired to New Zealand There they could assimilate a new culture meet new people with new ideas and see a land seldom visited by their fellow Arabs and which has therefore remained untouched by the long tentacles of the Islamic extremist In the weeks that follow Ibrahim discusses with his old friend the ticklish questions of Western misconception misunderstanding and the perceived inequalities of his race Together they are able to dispel the myths and identify the areas of ignorance that prevail in the West and which do so much damage to the image of the Arab Above all Ibrahim is able to nurture within his young teenage offspring the seeds of a brighter future one within which peace and reconciliation between the worlds of Islam and the West are of paramount importance
