Pragmatist Truth in the Post-Truth Age Sami Pihlström,2021-09-23 It is commonly believed that populist politics and social media pose a serious threat to our concept of truth Philosophical pragmatists who are typically thought to regard truth as merely that which is helpful for us to believe are sometimes blamed for providing the theoretical basis for the phenomenon of post truth In this book Sami Pihlström develops a pragmatist account of truth and truth seeking based on the ideas of William James and defends a thoroughly pragmatist view of humanism which gives space for a sincere search for truth By elaborating on James's pragmatism and the will to believe strategy in the philosophy of religion Pihlström argues for a Kantian inspired transcendental articulation of pragmatism that recognizes irreducible normativity as a constitutive feature of our practices of pursuing the truth James himself thereby emerges as a deeply Kantian thinker

Building People Mun Leong Liew,2016-11-30 Eavesdrop on a top business leader to learn the secrets of great leadership Building People provides a glimpse into the mind of one of Asia's keenest and most effective business leaders Before becoming Chairman of Changi Airport Group and Surbana Jurong author Mun Leong Liew was named Best CEO in Singapore Best CEO in Asia CEO of the Year Outstanding CEO of the Year and more but his successes are not based strictly upon the numbers This book reveals the personal and professional philosophy behind this extraordinarily effective leader in the context of frank and insightful emails to his staff Touching on everything from honour and potential to training and mentorship these messages paint a clear picture of the difference between good and great leadership Effective leaders build companies but legendary leaders build people by strengthening the heart of your organisation you enable robust growth and dynamic stability from the inside out These emails go beyond mere public relations to lay open the true nature of a man who is honestly deeply committed to his job his responsibility his organisation and most of all his people Learn why work life balance is not a zero sum game Discover what pragmatism and commitment truly mean in business Realise the importance of good partnerships and unsung heroes Manage change effectively and employ it wisely for sustainable success By eavesdropping on a leader's communications with the people he serves you get a real sense of the man behind the success Great leadership is rooted in a philosophy of building up instead of tearing down and motivated by the sincere belief that we bring our own purpose into everything we do Building People brings great leadership to life and inspires action over theory through the insights of Mun Leong Liew

**Color for Science, Art and Technology**

Kurt Nassau,1997-12-18 The aim of this book is to assemble a series of chapters written by experts in their fields covering the basics of color and then some more In this way readers are supplied with almost anything they want to know about color outside their own area of expertise Thus the color measurement expert as well as the general reader can find here information on the perception causes and uses of color For the artist there are details on the causes measurement perception and reproduction of color Within each chapter authors were requested to indicate directions of future efforts where applicable One might reasonably expect that all would have been learned about color in the more than three hundred years since Newton established the fundamentals of color science This is not true because the measurement of color still has unresolved complexities Chapter 2 many of the fine details of color vision remain unknown Chapter 3 every few decades a new movement in art discovers original ways to use new pigments and dyes continue to be discovered Chapter 5 the philosophical approach to color has not yet crystallized Chapter 7 new pigments and dyes continue to be discovered Chapters 10 and 11 the study of the biological and therapeutic effects of color is still in its infancy Chapter 2 Color continues to develop towards maturity and the editor believes that there is much common ground between the sciences and the arts and that color is a major connecting bridge

**Art, the Sublime, and Movement** Amanda Du Preez,2022 This book is a critical interdisciplinary approach to the study of contemporary visual culture and image studies exploring ideas about space and place and ultimately contributing to the debates about being human in the digital age The upward and downward pull seem in a constant contest for humanity s attention Both forces are powerful in the effects and affects they invoke When tracing this iconological history Amanda du Preez s starts in the early nineteenth century moving into the twentieth century and then spanning the whole century up to contemporary twentieth first century screen culture and space travels Du Preez parses the intersecting pathways between Heaven and Earth up and down flying and falling through the concept of being spaced out The idea of being spaced out is applied as a metaphor to trace the visual history of sublime encounters that displace Earth gravity locality belonging home real life and embodiment The book will be of interest to scholars working in art history visual culture media and cultural studies phenomenology digital culture mobility studies and urban studies
