[Anything Goes](#) May 18 2022 Ethan Mordden has been hailed as "a sharp-eared listener and a discerning critic," by Opera News, which compares his books to "dinner with a knowledgeable, garrulous companion." The "preeminent historian of the American musical" (New York Times), he "brings boundless energy and enthusiasm buttressed by an arsenal of smart anecdotes" (Wall Street Journal). Now Mordden offers an entirely fresh and infectious history of American musical theatre. [Anything Goes](#) stages a grand revue of the musical from the 1700s through to the present day, narrated in Mordden's famously witty, scholarly, and conversational style. He places us in a bare rehearsal room as the cast of [Oklahoma!](#) changes history by psychoanalyzing the plot in the greatest of the musical's many Dream Ballets. And he gives us tickets for orchestra seats on opening night-raising the curtain on the pleasures of Victor Herbert's [The Red Mill](#) and the thrill of [Porgy and Bess](#). Mordden examines the music, of course, but also more neglected elements. Dance was once considered as crucial as song; he follows it from the nineteenth century's zany hoofing to tap "combinations" of the 1920s, from the injection of ballet and modern dance in the 1930s and '40s to the innovations of Bob Fosse. He also explores the changing structure of musical comedy and operetta, and the evolution of the role of the star. Fred Stone, the avuncular Scarecrow in the [Wizard of Oz](#), seldom varied his acting from part to part; but the versatile Ethel Merman turned the headlining role inside out in [Gypsy](#), playing a character who was selfish, fierce, and destructive. From "ballad opera" to burlesque, from [Fiddler on the Roof](#) to [Rent](#), the history and lore of the musical unfolds here in a performance worthy of a standing ovation.

Trade Marks Journal Dec 25 2022

[Challenge the Death Angel](#) May 06 2021 At Kadena Air Force Base on Okinawa, Angus and sixty-two other young Marines stand at the tail of the huge airplane, a Hercules, that will take them on the last leg of their journey to Southeast Asia. The flight has been held up for about twenty minutes for a late arrival. When the man finally shows up, Angus is startled by his appearance. He's wearing faded, frayed fatigues, carrying an old green canvas bag in one hand, and a long, leather case in the other. He wears a strip of camouflaged cloth tied around his head, and pulled down level with the top of his eyebrows. His hair is long, almost reaching his shoulders. While Angus stands there gawking, all the young Marines walk up the ramp past him. Before Angus realizes it, he is standing there alone, the last passenger to climb aboard. There were a few vacant seats left, but he decides to sit next to this late arriver. It might prove to be interesting. Next stop, Viet-Nam.

Michel Tournier, Le Coq de Bruyère Jun 18 2022 This book is a study of Michel Tournier's collection of short stories, *Le Coq de bruyere*, but it is also much more. Author Walter Redfern sees the stories as a microcosm of the whole fictional universe of Tournier, widely regarded as France's premier living writer.

Les Sauvages Américains Sep 09 2021 Algonquian and Iroquois natives of the American Northeast were described in great detail by colonial explorers who ventured into the region in the seventeenth and eighteenth centuries. Beginning with the writings of John Smith and Samuel de Champlain, Gordon Sayre analyzes French and English accounts of Native Americans to reveal the rhetorical codes by which their cultures were represented and the influence that these images of Indians had on colonial and modern American society. By emphasizing the work of Pierre Franaois-Xavier Charlevoix, Joseph-Franaois Lafitau, and Baron de Lahontan, among others, Sayre highlights the important contribution that French explorers and ethnographers made to colonial literature. Sayre's interdisciplinary approach draws on anthropology, cultural studies, and literary methodologies. He cautions against dismissing these colonial texts as purveyors of ethnocentric stereotypes, asserting that they offer insights into Native American cultures. Furthermore, early accounts of American Indians reveal Europeans' serious examination of their own customs and values: Sayre demonstrates how encounters with natives' wampum belts, tattoos, and pelt garments, for example, forced colonists to question the nature of money, writing, and clothing; and how the Indians' techniques of warfare and practice of adopting prisoners led to new concepts of cultural identity and inspired key themes in the European enlightenment and American individualism.

Life A User's Manual Jan 14 2022 Over twenty years ago, Godine published the first English translation of Georges Perec's masterpiece, *Life A User's Manual*, hailed by the Times Literary Supplement, Boston Globe, and others as "one of the great novels of the century." We are now proud to announce a newly revised twentieth anniversary edition of *Life*. Carefully prepared, with many corrections, this edition of *Life A User's Manual* will be the preferred reference edition for the future. *Life* is an unclassified masterpiece, a sprawling compendium as encyclopedic as Dante's *Commedia* and Chaucer's *Canterbury Tales* and, in its break with tradition, as inspiring as Joyce's *Ulysses*. Structured around a single moment in time — 8:00 p.m. on June 23, 1975 — Perec's spellbinding puzzle begins in an apartment block in the XVIIth arrondissement of Paris where, chapter by chapter, room by room, like an onion being peeled, an extraordinary rich cast of characters is revealed in a series of tales that are bizarre, unlikely, moving, funny, or (sometimes) quite ordinary. From the confessions of a racing cyclist to the plans of an avenging murderer, from a young ethnographer obsessed with a Sumatran tribe to the death of a trapeze artist, from the fears of an ex-croupier to the dreams of a sex-change pop star to an eccentric English millionaire who has devised the ultimate pastime, *Life* is a manual of human irony, portraying the mixed marriages of fortunes, passions and despairs, betrayals and bereavements, of hundreds of lives in Paris and around the world. But the novel is more than an extraordinary range of fictions; it is a closely observed account of life and experience. The apartment block's one hundred rooms are arranged in a magic square, and the book as a whole is peppered with a staggering range of literary puzzles and allusions, acrostics, problems of chess and logic, crosswords, and mathematical formula. All are there for the reader to solve in the best tradition of the detective novel.

Sidekick Feb 24 2023

Balzac on the Barricades Nov 11 2021 The role of nineteenth-century French literature in a distinctively modern political movement When Parisian workers took to the streets in February 1848, they adopted the rallying cry of *droit au travail* (the right to work). That protesters increasingly framed employment as a political right represented a radical and modern development. But where had this idea originated? In her examination of this cause célèbre of France's Second Republic, Rebecca Powers shows that the redefinition of labor as a basic right sprang not only from political debates but also directly from contemporary literature. Powers charts the rise of this revolutionary concept through the tales of bourgeois dominance in the novels and newspaper articles of Honoré de Balzac. As Powers explains, this realist semiotician of French provincial and urban life par excellence was the first to attempt a definition of modern labor as an integral part of the emerging modern society. Powers makes clear how recognizing Balzac's influence on mid-nineteenth-century political discourse is essential to understanding the course of events in that earth-shaking year.

Sidekicks Feb 07 2024 Thirteen-year-old Guy Martin, also known as superhero Pumpkin Pete's sidekick Speedy, helps the League of Big Justice save the human race from being turned into puppets by Pinoh Keyoh and the Brotherhood of Rottenness.

The Sidekick Comes of Age Jun 11 2024 Literary sidekicks like Dr. Watson and Robin the Boy Wonder have not been the singular subject of a significant critical study—until now. Using young adult literature (YA) to study the sidekick reveals new and exciting ways to understand these kinds of characters and this kind of literature. YA has embraced the sidekick, recognizing the way the character reflects the importance of growth and finding one's place in the world. The nature of many YA texts allows sidekicks to grow beyond literary or historical origins. This includes letting sidekicks “evolve” over the course of multiple texts, using parallel novels to add complexity to a sidekick's characterization, and telling a story from the sidekick's perspective, paradoxically making the sidekick the hero. A singularly focused and prolonged study helps to establish sidekick scholarship as a burgeoning field in and of itself.

Sidekicks 5: The Brotherhood of Rotten Babysitters Apr 09 2024 After Pumpkin Pete accidentally blows up the League of Big Justice and the Sidekick Super Clubhouse, the superhero trouble begins.

The Inn and the Traveller Sep 02 2023 "In the landscape of the early modern European comic novel the inn often features as a monument to digression - the perfect setting for chance encounters with strangers who always have a story to tell. This wide-ranging comparative study explores the special part played by the inn, tracing the progress of a succession of wayward heroes and narrators in five canonical texts: Cervantes's ""Don Quijote"", Scarron's ""Roman comique"", Fielding's ""Joseph Andrews"" and ""Tom Jones"", Sterne's

""Tristram Shandy"" and Diderot's ""Jacques le fataliste"". As this celebration of digressive fiction unfolds, a very different picture emerges of the novel's rise and development."

Framing Monsters Oct 11 2021 Beginning with celebrated classics, the author locates King Kong (1933) within the era of lynching to evince how the film protects whiteness against supposed aggressions of a black predator and reviews The Wizard of Oz (1939) as a product of the Depression's economic anxieties. From there, the study moves to the cult classic animated Sinbad Trilogy (1958-1977) of Ray Harryhausen, films rampant with xenophobic fears of the Middle East as relevant today as when the series was originally produced. Advancing to more recent subjects, the author focuses on the image of the monstrous woman and the threat of reproductive freedom found in Aliens (1986), Jurassic Park (1993), and Species (1995) and on depictions of the mentally ill as dangerous deviants in 12 Monkeys (1996) and The Cell (2000). An investigation into physical freakishness guides his approach to Edward Scissorhands (1990) and Beauty and the Beast (1991).

Adverse Possession Jun 06 2021 A cautionary tale of a big real estate deal gone bad: A cesspool's brew of money, mud, murder, and blood. After a messy break-up with his old law firm, young attorney Nick Shuman gets in over his head, when he takes on a big case brought by a small but wealthy California landowner. It's 2007 and the price of real estate is exploding. Shuman's new client, Joe Munoz, is being sued by a large insurance company with an army of attorneys looking to complete a massive development deal in an unspoiled corner of Southern California. Only Joe and his key piece of land, "Little Rocking-Horse Ranch," stand in the way. But Joe has a past that adds a wild card to the mix: an unsolved, decades-old murder tied to him and the ranch, and his murky reasons for refusing to sell it for the huge sum offered. To fend off their mighty foes and launch their own quest to tilt against the windmills of Big Business and Institutionalized Power, Nick and Joe assemble a rag-tag cast of unlikely allies and characters. In a constant game of catch-up, things get dirty fast. A high-powered, crooked law firm and the Russian mob complicate matters for the under-manned defenders of "Little Ranch." The stakes rise faster than the real estate market, as evidence disappears, and lives and loves are cut down or ruined. The September 2008 collapse of Lehman Brothers and the inescapable crush of The Great Recession shatter this deadly struggle for everyone.
