*Reinventing Fire* Amory Lovins, 2013-10 Oil and coal have built our civilisation created our wealth and enriched the lives of billions Yet their rising costs to our security economy health and environment are starting to outweigh their benefits Moreover the tipping point where alternatives work better and compete purely on cost is not decades in the future it is here and now And that tipping point has become the fulcrum of economic transformation In *Reinventing Fire* Amory Lovins and the Rocky Mountain Institute offer a new vision to revitalise business models and win the clean energy race not forced by public policy but led by business for long term advantage This independent and rigorous account offers market based solutions integrating transportation buildings industry and electricity It maps pathways for running a 158% bigger US economy in 2050 but needing no oil no coal no nuclear energy one third less natural gas and no new inventions This transition would cost 5 trillion less than business as usual without counting fossil fuels huge hidden costs Whether you care most about profits and jobs or national security or environmental stewardship climate and health *Reinventing Fire* makes sense It s a story of astounding opportunities for creating the new energy era Publisher description [Reinventing Fire](#) Amory Lovins, 2011-10-15 Imagine fuel without fear No climate change No oil spills no dead coalminers no dirty air no devastated lands no lost wildlife No energy poverty No oil fed wars tyrannies or terrorists No leaking nuclear wastes or spreading nuclear weapons Nothing to run out Nothing to cut off Nothing to worry about Just energy abundance benign and affordable for all forever That richer fairer cooler safer world is possible practical even profitable because saving and replacing fossil fuels now works better and costs no more than buying and burning them *Reinventing Fire* shows how business motivated by profit supported by civil society sped by smart policy can get the US completely off oil and coal by 2050 and later beyond natural gas as well Authored by a world leader on energy and innovation the book maps a robust path for integrating real here and now comprehensive energy solutions in four industries transportation buildings electricity and manufacturing melding radically efficient energy use with reliable secure renewable energy supplies Popular in tone and rooted in applied hope *Reinventing Fire* shows how smart businesses are creating a potent global market driven and explosively growing movement to defossilize fuels It points readers to trillions in savings over the next 40 years and trillions more in new business opportunities Whether you care most about national security or jobs and competitive advantage or climate and environment this major contribution by world leaders in energy innovation offers startling innovations will support your values inspire your support and transform your sense of possibility Pragmatic citizens today are more interested in outcomes than motives *Reinventing Fire* answers this trans ideological call Whether you care most about national security

or jobs and competitive advantage or climate and environment its startling innovations will support your values inspire your support and transform your sense of possibility

*Reinventing Fire* Amory B. Lovins, Rocky Mountain Institute, 2011 Oil and coal have built our civilisation created our wealth and enriched the lives of billions Yet their rising costs to our security economy health and environment are starting to outweigh their benefits Moreover the tipping point where alternatives work better and compete purely on cost is not decades in the future it is here and now And that tipping point has become the fulcrum of economic transformation In *Reinventing Fire* Amory Lovins and the Rocky Mountain Institute offer a new vision to revitalise business models and win the clean energy race not forced by public policy but led by business for long term advantage This independent and rigorous account offers market based solutions integrating transportation buildings industry and electricity It maps pathways for running a 158% bigger US economy in 2050 but needing no oil no coal no nuclear energy one third less natural gas and no new inventions This transition would cost 5 trillion less than business as usual without counting fossil fuels huge hidden costs Whether you care most about profits and jobs or national security or environmental stewardship climate and health *Reinventing Fire* makes sense It s a story of astounding opportunities for creating the new energy era

**Winning the Oil Endgame** Amory B. Lovins, 2004 Enough about the oil problem Here s the solution Over a few decades starting now a vibrant US economy then others can completely phase out oil This will save a net 70 billion a year revitalize key industries and rural America create a million jobs and enhance security Here s the roadmap independent peer reviewed co sponsored by the Pentagon for the transition beyond oil led by business and profit

**Power Shift** Robert Arthur Stayton, 2015 *Power Shift* is the most compelling argument for solar energy that has ever been assembled The book blends crystal clear explanations of energy with visionary thinking into a plausible blueprint for reaching a 100% solar future in fifty years *Power Shift* goes far beyond other solar books by exploring the human relationship with energy showing how solar energy fits into the historical progression of human energy use The book describes how solar is so fundamentally different from other energy sources that it marks the beginning of a new era of human advancement

**Car Wars** John J. Fialka, 2015-09-22 Drawing from the last decade of his 26 year career at the Wall Street Journal where he covered energy and environmental matters *ClimateWire* founder and industry insider John Fialka brings to life this thrilling and important story about American s rejection and second obsession with the electric car The resurgence of the electric car in modern life is a tale of adventurers men and women who bucked the complete dominance of the fossil fueled car to seek something cleaner simpler and cheaper Award winning former Wall Street Journal reporter John Fialka documents the early days of the electric car from the M I T Caltech race between prototypes in the summer of 1968 to the 1987 victory of the Sunraycer in the world s first race featuring solar powered cars Thirty years later the electric has captured the imagination and pocketbooks of American consumers Organizations like the U S Department of Energy and the state of California along with companies from the old guard of General Motors and Toyota as well as upstart young players like Tesla Motors and Elon

Musk have embraced the once extinct technology The electric car has steadily gained traction in the U S and around the world We are watching the start of a trillion dollar worldwide race to see who will dominate one of the biggest commercial upheavals of the 21st century

**The Third Industrial Revolution** Jeremy Rifkin,2011-10-04 The Industrial Revolution powered by oil and other fossil fuels is spiraling into a dangerous endgame The price of gas and food are climbing unemployment remains high the housing market has tanked consumer and government debt is soaring and the recovery is slowing Facing the prospect of a second collapse of the global economy humanity is desperate for a sustainable economic game plan to take us into the future Here Jeremy Rifkin explores how Internet technology and renewable energy are merging to create a powerful Third Industrial Revolution He asks us to imagine hundreds of millions of people producing their own green energy in their homes offices and factories and sharing it with each other in an energy internet just like we now create and share information online Rifkin describes how the five pillars of the Third Industrial Revolution will create thousands of businesses millions of jobs and usher in a fundamental reordering of human relationships from hierarchical to lateral power that will impact the way we conduct commerce govern society educate our children and engage in civic life Rifkin s vision is already gaining traction in the international community The European Union Parliament has issued a formal declaration calling for its implementation and other nations in Asia Africa and the Americas are quickly preparing their own initiatives for transitioning into the new economic paradigm The Third Industrial Revolution is an insider s account of the next great economic era including a look into the personalities and players heads of state global CEOs social entrepreneurs and NGOs who are pioneering its implementation around the world

*Clean Power Politics* Joseph P. Tomain,2017-02-17 Clean Power Politics explains clean energy policy and the need for a successful transition to clean energy in the future

**The Collapse of Western Civilization** Naomi Oreskes,Erik M. Conway,2014-07-01 The year is 2393 and the world is almost unrecognizable Clear warnings of climate catastrophe went ignored for decades leading to soaring temperatures rising sea levels widespread drought and finally the disaster now known as the Great Collapse of 2093 when the disintegration of the West Antarctica Ice Sheet led to mass migration and a complete reshuffling of the global order Writing from the Second People s Republic of China on the 300th anniversary of the Great Collapse a senior scholar presents a gripping and deeply disturbing account of how the children of the Enlightenment the political and economic elites of the so called advanced industrial societies failed to act and so brought about the collapse of Western civilization In this haunting provocative work of science based fiction Naomi Oreskes and Eric M Conway imagine a world devastated by climate change Dramatizing the science in ways traditional nonfiction cannot the book reasserts the importance of scientists and the work they do and reveals the self serving interests of the so called carbon combustion complex that have turned the practice of science into political fodder Based on sound scholarship and yet unafraid to speak boldly this book provides a welcome moment of clarity amid the cacophony of climate change literature

Bold Peter H. Diamandis,Steven Kotler,2016-02-23 Bold is a radical how

**Challenges** Georgios Papanagnou,2011-01-01 Producing scientific knowledge that can inform solutions and guide policy making is one of the most important functions of social science Nonetheless if social science is to become more relevant and influential so as to impact on the drawing and execution of policy certain measures need to be taken to narrow its distance from the policy sphere This decision is less obvious than it seems Both research and experience have proved that policy making is a complex often sub rational interactive process that involves a wide range of actors such as decision makers bureaucrats researchers organized interests citizen and civil society representatives and research brokers In addition social science often needs to defend both its relevance to policy and its own scientific status Moving away from instrumental visions of the link between social research and policy this collective volume aims to highlight the more constructed nature of the use of social knowledge **The Best Democracy Money Can Buy** Greg Palast,2003-02-25 Palast is astonishing he gets the real evidence no one else has the guts to dig up Vincent Bugliosi author of None Dare Call it Treason and Helter Skelter Award winning investigative journalist Greg Palast digs deep to unearth the ugly facts that few reporters working anywhere in the world today have the courage or ability to cover From East Timor to Waco he has exposed some of the most egregious cases of political corruption corporate fraud and financial manipulation in the US and abroad His uncanny investigative skills as well as his no holds barred style have made him an anathema among magnates on four continents and a living legend among his colleagues and his devoted readership This exciting collection now revised and updated brings together some of Palast s most powerful writing of the past decade Included here are his celebrated Washington Post expos on Jeb Bush and Katherine Harris s stealing of the presidential election in Florida and recent stories on George W Bush s payoffs to corporate cronies the payola behind Hillary Clinton and the faux energy crisis Also included in this volume are new and previously unpublished material television transcripts photographs and letters **Electricity Restructuring** Laura Lynne Kiesling,Andrew N. Kleit,2009 This volume explores how Texas s groundbreaking program of electricity restructuring has become a model for truly competitive energy markets in the United States The authors contend that restructuring in Texas has been successful because the industry is free from federal over *Real Prospects for Energy Efficiency in the United States* National Research Council,National Academy of Engineering,National Academy of Sciences,America's Energy Future Panel on Energy Efficiency Technologies,2010-06-10 America s economy and lifestyles have been shaped by the low prices and availability of energy In the last decade however the prices of oil natural gas and coal have increased dramatically leaving consumers and the industrial and service sectors looking for ways to reduce energy use To achieve greater energy efficiency we need technology more informed consumers and producers and investments in more energy efficient industrial processes businesses residences and transportation As part of the America s Energy Future project Real Prospects for

Energy Efficiency in the United States examines the potential for reducing energy demand through improving efficiency by using existing technologies technologies developed but not yet utilized widely and prospective technologies The book evaluates technologies based on their estimated times to initial commercial deployment and provides an analysis of costs barriers and research needs This quantitative characterization of technologies will guide policy makers toward planning the future of energy use in America This book will also have much to offer to industry leaders investors environmentalists and others looking for a practical diagnosis of energy efficiency possibilities *Sustainable Investing and Environmental Markets* Richard L.
