Brooker,2007-01-01 The Next Step in Biology We are excited to present to you BIOLOGY written by Dr Rob Brooker Dr Eric Widmaier Dr Linda Graham and Dr Peter Stiling it is the next step in majors biology In addition to being active researchers and experienced writers the author team has taught majors biology for years The goal in launching a new text is to offer something better a comprehensive modern text featuring an evolutionary focus with an emphasis on scientific inquiry We invite you to take a few moments to learn more about the many different ways this text is the next step in biology To view a sample chapter go to [www.brookerbiology.com](http://www.brookerbiology.com) **Biology** Robert J. Brooker, Eric P. Widmaier, Linda E. Graham, Peter D. Stiling,2017 Building on the successes of the first and second editions the third edition of this text reflects a focus on core competencies and provides a more learner centred approach The strength of an engaging and current text is improved with the addition of new pedagogical features that direct the students learning goals and provide opportunities for assessment to determine if students understand the concepts **Biology** Sylvia S. Mader, Michael Windelspecht,2025 The aim of Biology 15e text has always been to give students an understanding of biological concepts and a working knowledge of the scientific process **Biology** Mariëlle Hoefnagels,2021-03 I have been teaching nonmajors biology at the University of Oklahoma since 1997 and over that time have encountered many students who fear science in general and biology in particular The complexity abstractions and unfamiliar terms can seem overwhelming at first but with practice I know that anyone can think like a scientist Learning to think scientifically is important well beyond passing your biology class After all scientific issues confront you every day as you navigate your life and your social media accounts How do you know if a claim about climate change is scientific Will you be able to identify misinformation and interpret graphs during the next global health crisis This book will teach you not only to understand the scientific terms you encounter but also to distinguish good science from unscientific claims I ve created the following features to help you make the transition from memorizing facts to

understanding concepts from accepting scientific claims to analyzing them for yourself These tools will help you to pass your class and to be an informed citizen
