Ker-SPLASH! is an up-to-date, comprehensive look at the hobby and sport of recreational boating and water skiing. It is intended as a guide for both the neophyte and the experienced recreational power boater. The book includes detailed instructions for: (1) Selecting and buying a boat; (2) Making an intelligent engine choice; (3) Selecting boating accessories; (4) Choosing skis, boards, and towables; (5) Selecting a personal slalom ski; (6) Learning to ski and towing a skier; (7) Learning to slalom; (8) Riding and towing other water toys; and (9) Maintenance and safety issues. Ker-SPLASH! covers these types of recreational powerboats: sterndrive runabouts, tournament ski boats, mini-jet boats, personal watercraft, offshore performance boats, deck and pontoon boats, outboard ski boats, fish 'n' ski boats, and cuddy cabins. Comparative descriptions and contact addresses of the major boat, ski, wakeboard, and accessory manufacturers are included. Ker-SPLASH is not only a reference guide, but it also includes down-to-earth information and entertaining boating stories. Popular Mechanics inspires, instructs and influences readers to help them master the modern world. Whether it's practical DIY home-improvement tips, gadgets and digital technology, information on the newest cars or the latest breakthroughs in science -- PM is the ultimate guide to our high-tech lifestyle. Popular Mechanics inspires, instructs and influences readers to help them master the modern world. Whether it's practical DIY home-improvement tips, gadgets and digital technology, information on the newest cars or the latest breakthroughs in science -- PM is the ultimate guide to our high-tech lifestyle. In 1999, Admiral Thomas Moorer, a former chairman of the Joint Chiefs of Staff, charged that China plotted to take over the Panama Canal and use the area to launch a nuclear attack on the United States. In the U.S.

Senate, Trent Lott, the then-Republican Senate Majority Leader, expressed concern that the Chinese could deny U.S. ships passage. Now, a CIA informant in Panama with possible information on the Chinese take-over has been killed and the agency has to again look at the potential Communist threat. It steps up its investigation by sending veteran CIA agent Jack Dallas to find out the truth. A former Navy diver, Dallas has to dive deep into the canal and the Hong Kong company that runs the canal ports. His investigation leads him to a prominent businessman in Shanghai, bankers in Monaco and Russian mobsters in Miami before finding out the stunning truth and racing to prevent a major catastrophe in the canal. The primary objective of the report was to provide reservoir managers with technical and economic information regarding the possible methods for controlling the levels of MTBE and BTEX in reservoir water supplies. This report comprehensively evaluates options to give practical data and advice to water managers who wish to consider the benefits of dual use (use to store drinking water supplies and use as recreational attractions) without introducing unacceptable health risks into the water bodies being managed. Originally published by AwwaRF for its subscribers in 2003 Popular Mechanics inspires, instructs and influences readers to help them master the modern world. Whether it's practical DIY home-improvement tips, gadgets and digital technology, information on the newest cars or the latest breakthroughs in science -- PM is the ultimate guide to our high-tech lifestyle. Popular Science gives our readers the information and tools to improve their technology and their world. The core belief that Popular Science and our readers share: The future is going to be better, and science and technology are the driving forces that will help make it better. Popular Mechanics inspires, instructs and influences readers to help them master the modern world. Whether it's practical DIY home-improvement tips, gadgets and digital technology, information on the newest cars or the latest breakthroughs in science -- PM is the ultimate guide to our high-tech lifestyle.
