"Christopher Castaneda's study of the construction of the pipelines that transported southwestern gas to the Northeast traces the ways in which the federal regulatory process fostered competitive growth in the natural gas industry." "In 1938, the Natural Gas Act granted the Federal Power Commission jurisdiction over the interstate transmission and sale of natural gas. The FPC used its new powers to guide, shape, and manage an intensely competitive period in the industry. As Castaneda shows, aggressive and politically astute entrepreneurs based in the Southwest took advantage of economic opportunity and a regulatory environment conducive to industry growth. They financed and built the nation's longest gas pipelines to connect the massive southwestern reserves with the major northern energy markets. The coal industry, which supplied the raw product for manufactured gas, and the railroad industry, which transported the coal, adamantly but unsuccessfully opposed the action and attempted to halt the introduction of natural gas into their northeastern markets. First, during the war years, emergency regulatory agencies directed the expansion of the industry into Appalachia. Then, in the ensuing peacetime, market forces prompted entrepreneurs to compete vigorously for regulatory approval to build pipelines to sell natural gas in the Northeast." "While previous studies have examined the development of the natural gas industry after 1954, when the Supreme Court's Phillips decision established the FPC as a regulator of price control rather than as a manager of industrial growth, Castaneda's is the first to examine this earlier entrepreneurial era. Based on exhaustive research in corporate records and government documents, Regulated Enterprise offers a case study of government-

business relations during a period of rapid industrial expansion and suggests a new way of looking at federal regulation and competitive growth."--BOOK JACKET.Title Summary field provided by Blackwell North America, Inc. Channeled Transmissions from Yeshua offering evolved, authentic, and original wisdom for the deepest realization of truth, love, and peace through balance, liberation, and transcendence from the burdens that anchor us to suffering and fear. As a child, Carissa Schumacher was told by an angelic presence that she would be a channel for Yeshua of Nazareth. She did not know what that meant at the time nor the impact it would eventually have on her life and countless others. After devoting much of her life to service as an intuitive guide and spirit medium, in late 2019, Yeshua's Divine Presence suddenly came through her channel for the first time. Over the next months,

Yeshua shared his timely, universal, and revelatory messages. The Freedom Transmissions is the result. This singular book offers a pathway to peace by following the Four Elements of Balance: Simplicity, Stability, Surrender, and Stillness. When we embody these four energies, we create and attract the most abundance, nourishment, joy, and flow to our lives. The Freedom Transmissions unburdens us from unnecessary suffering, strengthens our faith and sense of wholeness, and restores balance and peace, reminding us that we are One with the Divine. The joy of these Transmissions is that they are for all people and not just some people on the basis of beliefs or dogma. Yeshua welcomes in all people who come in humility and a genuine desire to find and know self as One with God. This essential text encourages us to choose Faith over Fear, Forgiveness over Blame, Freedom over Suppression, and ushers us from the era of division and polarity to an era of co-creation, transparency, compassion, and equality.
