A modern classic, this stunning debut marked #1 bestselling author John Green's arrival as a groundbreaking voice in contemporary fiction. Travel often inspires the creation of narratives about journeys and destinations, more so with the increasing availability of online platforms, applications for smartphones and tablets, and various other social media technologies. This book examines travel blogs and their associated social media as a form of self-presentation that negotiates the tensions between discourses of travel and

tourism. As such, it addresses how contemporary travellers use online platforms to communicate their experiences of journeys and destinations, and how the traveller/tourist dichotomy finds expression in these narratives. Addressing the need for more in-depth analysis through a study of blogs, this exploration of networked narratives of an individual's travel experience considers personal motivations, self-promotion, and self-presentation as key factors in the creation of both personal and commercial travel blogs. As this text applies concepts such as self-presentation and heteroglossia, it will be of interest to both students and scholars of tourism, new media, sociology, cultural studies, and discourse studies. Join award-winning podcaster Oliver Gee on this laugh-out-loud journey through the streets of Paris. He tells of how five years in France have taught him how to order cheese, make a Parisian person smile, and convince anyone you can fake French (even if, like Oliver, you speak the language like an Australian cow). A fresh voice on the Paris scene, he shares the soaring highs and crushing lows that come with following your dreams to the French capital. He also befriends the city's too-cool-for-school basketballers, chases runaway crocodiles, and goes on a mammoth honeymoon trip around France on his little red scooter. On the first day, a mist descended from the heavens blanketing Earth.On the second day, a cryptic message, 'Infusion commencing', appeared in the corner of everyone's eyes. On the third day, the sick were healed and the crippled walked again. On the fourth day, celebration and joy spread across the globe. And on the fifth day, the warping began...There was no warning. A mist descended from the sky, disabling all technology and causing a weird message to appear at the corner of everyone's eye. The situation grew even worse as animals and people started to warp, transforming into terrible monsters that prey on the livings. Within months, human civilization had crumbled. Unable to fight the seemingly-indestructible beasts, the survivors are reduced to cowering in reinforced shelters. Waiting for the end to come. Helpless. All seemed lost until a few brave souls discovered the secret of their new reality: the Tec and how to use it to level up. Together they represent humanity's last best hope for salvation. But they first must find the answers to the mystery of their new existence. Their journey will require them to quickly adapt to alien technology, operate strange spaceships, and even befriend an extra-terrestrial merchant with an Inferiority Complex. The magic and wonder of winter's first snowfall is perfectly captured in Ezra Jack Keat's Caldecott Medal-winning picture book. Young readers can enjoy this celebrated classic as a full-sized board book, perfect for read-alouds of all kinds and a great gift for the holiday season. In 1962, a little boy named Peter put on his snowsuit and stepped out of his house and into the hearts of millions of readers. Universal in its appeal, this story beautifully depicts a child's wonder at a new world, and the hope of capturing and keeping that wonder forever. This big, sturdy edition will bring even more young readers to

the story of Peter and his adventures in the snow. Ezra Jack Keats was also the creator of such classics as Goggles, A Letter to Amy, Pet Show!, Peter's Chair, and A Whistle for Willie. (This book is also available in Spanish, as *Un día de nieve*.) Praise for *The Snowy Day*: "Keats made Peter's world so inviting that it beckons us. Perhaps the busyness of daily life in the 21st century makes us appreciate Peter even more—a kid who has the luxury of a whole day to just be outside, surrounded by snow that's begging to be enjoyed." —The Atlantic "Ezra Jack Keats's classic *The Snowy Day*, winner of the 1963 Caldecott Medal, pays homage to the wonder and pure pleasure a child experiences when the world is blanketed in snow."—Publisher's Weekly

The third book in a fabulous urban fantasy series featuring a 2,000 year old Druid, the last of his kind ... magic, ancient gods, plenty of action and a wholly original sense of humour. 'A page-turning and often laugh-out-loud-funny caper through a mix of the modern and the mythic' Ari Marmell, author of *THE WARLORD'S LEGACY* 'Celtic mythology and an ancient Druid with modern attitude mix it up in the Arizona desert in this witty new fantasy series' Kelly Meding, author of *THREE DAYS TO DEAD* Thor, the Norse god of thunder, is worse than a blowhard and a bully—he's ruined countless lives and killed scores of innocents. After centuries, Viking vampire Leif Helgarson is ready to get his vengeance, and he's asked his friend Atticus O'Sullivan, the last of the Druids, to help take down this Norse nightmare. One survival strategy has worked for Atticus for more than two thousand years: stay away from the guy with the lightning bolts. But things are heating up in Atticus's home base of Tempe, Arizona. There's a vampire turf war brewing, and Russian demon hunters who call themselves the Hammers of God are running rampant. Despite multiple warnings and portents of dire consequences, Atticus and Leif journey to the Norse plane of Asgard, where they team up with a werewolf, a sorcerer and an army of frost giants for an epic showdown against vicious Valkyries, angry gods and the hammer-wielding thunder thug himself. 'Kevin Hearne breathes new life into old myths, creating a world both eerily familiar and startlingly original' Nicole Peeler, author of *TEMPEST RISING* Quentin Jacobson has spent a lifetime loving Margo Roth Spiegelman from afar. So when she cracks open a window and climbs into his life - dressed like a ninja and summoning him for an ingenious campaign of revenge - he follows. After their all-nighter ends, Q arrives at school to discover that Margo has disappeared. Rediscover an exciting and heartfelt, opposites attract romance from New York Times bestselling author Debbie Macomber. Duke Porter is the best pilot of *Midnight Sons*, a bush-plane charter service located in the small town of Hard Luck, Alaska. He is a rugged, no-nonsense traditionalist set in his ways. But much like the arctic winds of Alaska, city lawyer Tracy Santiago arrives from Seattle to shake Duke's world. Tracy first visits Hard Luck for business, but returns because she likes the town, the community, and—against her own judgement—she even likes Duke Porter. He's so obviously not the kind of nice, sensitive man she wants. Or thinks she wants. And she is obviously not the traditional woman he was

looking for. But will they move forward from their legendary clashes and give their love a chance? Previously published. Want more *Midnight Sons*? Don't miss these great titles *Brides for Brothers* *Lessons in Love Because of the Baby* *Falling for him* In the summer of 1978, the B-52's conquered the New York underground. A year later, the band's self-titled debut album burst onto the Billboard charts, capturing the imagination of fans and music critics worldwide. The fact that the group had formed in the sleepy southern college town of Athens, Georgia, only increased the fascination. Soon, more Athens bands followed the B-52's into the vanguard of the new American music that would come to be known as "alternative," including R.E.M., who catapulted over the course of the 1980s to the top of the musical mainstream. As acts like the B-52's, R.E.M., and Pylon drew the eyes of New York tastemakers southward, they discovered in Athens an unexpected mecca of music, experimental art, DIY spirit, and progressive politics—a creative underground as vibrant as any to be found in the country's major cities. In Athens in the eighties, if you were young and willing to live without much money, anything seemed possible. *Cool Town* reveals the passion, vitality, and enduring significance of a bohemian scene that became a model for others to follow. Grace Elizabeth Hale experienced the Athens scene as a student, small-business owner, and band member. Blending personal recollection with a historian's eye, she reconstructs the networks of bands, artists, and friends that drew on the things at hand to make a new art of the possible, transforming American culture along the way. In a story full of music and brimming with hope, Hale shows how an unlikely cast of characters in an unlikely place made a surprising and beautiful new world. While Tom is at work in London, his wife Marina is left bored and alone in the small village where they live. She wishes for someone to do the housework for her and a strange thing happens. You can use this book to design a house for yourself with your family; you can use it to work with your neighbors to improve your town and neighborhood; you can use it to design an office, or a workshop, or a public building. And you can use it to guide you in the actual process of construction. After a ten-year silence, Christopher Alexander and his colleagues at the Center for Environmental Structure are now publishing a major statement in the form of three books which will, in their words, "lay the basis for an entirely new approach to architecture, building and planning, which will we hope replace existing ideas and practices

entirely." The three books are *The Timeless Way of Building*, *The Oregon Experiment*, and this book, *A Pattern Language*. At the core of these books is the idea that people should design for themselves their own houses, streets, and communities. This idea may be radical (it implies a radical transformation of the architectural profession) but it comes simply from the observation that most of the wonderful places of the world were not made by architects but by the people. At the core of the books, too, is the point that in designing their environments people always rely on certain "languages," which, like the languages we speak, allow them to articulate and communicate an infinite variety of designs within a forma system which gives them coherence. This book provides a language of this kind. It will enable a person to make a design for almost any kind of building, or any part of the built environment. "Patterns," the units of this language, are answers to design problems (How high should a window sill be? How many stories should a building have? How much space in a neighborhood should be devoted to grass and trees?). More than 250 of the patterns in this pattern language are given: each consists of a problem statement, a discussion of the problem with an illustration, and a solution. As the authors say in their introduction, many of the patterns are archetypal, so deeply rooted in the nature of things that it seems likely that they will be a part of human nature, and human action, as much in five hundred years as they are today. You can tell a lot about a man by what others call him: father, husband, brother, leader. In the same way, you can learn much about God by understanding what He was called in the Old Testament "El Shaddai, Elohim, Adonai, El Gibbor, " and "Jehovak Melek" are just a few of the over 80 names that people in the Old Testament used to call upon God in different situations. In times of need or times of praise, they used specific names for God that focused on a certain characteristic of His, or on a promise that He made. Today, as we learn God's names and what they mean, we can begin to know Him more intimately. We discover what He wants for us, how He provides for our needs and learn new, deeper ways to approach Him in prayer. In "My Father's Names" you'll find out what the Old Testament names of God mean and how they can bring you closer to your Heavenly Father. Elmer L. David Clemesha and Andrea Zimmerman have created a rhythmic, repeatable refrain that will roll off the lips of every child. A beloved folk singer presents an impassioned account of the fall and rise of the small American towns she cherishes. Dubbed by the New Yorker as "one of America's very best singer-songwriters," Dar Williams has made her career not in stadiums, but touring America's small towns. She has played their venues, composed in their coffee shops, and drunk in their bars. She has seen these communities struggle, but also seen them thrive in the face of postindustrial identity crises. Here, in an account that "reads as if Pete Seeger and Jane Jacobs teamed up" (New York Times), Williams muses on why some towns flourish while others fail, examining elements from the significance of history and nature to the uniting power of public spaces and food. Drawing on her own travels and the work of urban theorists, Williams offers real solutions to rebuild declining communities.

What I Found in a Thousand Towns is more than a love letter to America's small towns, it's a deeply personal and hopeful message about the potential of America's lively and resilient communities. David Gentleman has lived in London for almost seventy years, most of it on the same street. This book is a record of a lifetime spent observing, drawing and getting to know the city, bringing together work from across his whole career, from his earliest sketches to watercolours painted just a few months ago. Here is London as it was, and as it is today: the Thames, Hampstead Heath; the streets, canals, markets and people of his home of Camden Town; and at the heart of it all, his studio and the tools of his work. Accompanied by reflections on the process of drawing and personal thoughts on the ever-changing city, this is a celebration of London, and the joy of noticing, looking and capturing the world.
