A Chronicle of Echoes Apr 08 2022 "Corporate reform" is not reform at all. Instead, it is the systematic destruction of the foundational American institution of public education. The primary motivation behind this destruction is greed. Public education in America is worth almost a trillion dollars a year. Whereas American public education is a democratic institution, its destruction is being choreographed by a few wealthy, well-positioned individuals and organizations. This book investigates and exposes the handful of people and institutions that are often working together to become the driving force behind destroying the community public school.

Common Core Dilemma—Who Owns Our Schools? Dec 29 2023 In her new book, bestselling author Mercedes Schneider provides little-known details about the history of the Common Core State Standards. She lifts the veil on how the Common Core was developed, who was present in the back room, the push to copyright it so that test-makers could profit, and the urgency for governors to sign commitments before the standards were even completed. CCSS is publicized as being a state-led, teacher-developed approach guaranteed to ensure that all students are college- and career-ready. By the end of this eye-opening book, readers will come to understand the CCSS and its attendant assessments as something very different—an education-restricting, profit-garnering opportunity packaged as an education-sounding sales pitch. *Common Core Dilemma* will appeal to readers across the political spectrum who want to better understand the role of corporations, nonprofits, big donors with strings attached, and the federal government in exercising control in our schools. "Mercedes Schneider is the right person to take a close look at the controversies around the Common Core. She is not only a high school teacher, but also holds a Ph.D. in research methods and statistics. No one digs deeper than she to understand the politics, money, and personalities behind big issues." —Diane Ravitch, professor of education at New York University, historian of education and bestselling author, author of *Reign of Error* "The Common Core 'state' standards swept the nation in an educational coup d'etat six years ago. The campaign was so swift that most Americans—indeed most educators—had never even heard of the standards when they were adopted. Mercedes Schneider has become the nation's leading detective investigating this 'whodunnit' mystery, and here she tells the tale, from the beginning." —Anthony Cody, educator, writer, and public speaker
