'A truly extraordinary crime novel' - Lynda La Plante Death is an art, and he is the master . . . Three glass cabinets appear in London's Trafalgar Square containing a gruesome art installation: the floating corpses of three homeless men. Shock turns to horror when it becomes clear that the bodies are real. The cabinets are traced to @anonymous - an underground artist shrouded in mystery who makes a chilling promise: MORE WILL FOLLOW. Eighteen years ago, Detective Inspector Grace Archer escaped a notorious serial killer. Now, she and her caustic DS, Harry Quinn, must hunt down another. As more bodies appear at London landmarks and murders are livestreamed on social media, their search for @anonymous becomes a desperate race against time. But what Archer doesn't know is that the killer is watching their every move - and he has his sights firmly set on her . . . He is creating a masterpiece. And she will be the star of his show. Praise for The Art of Death: 'I flew through it . . . tense, gripping and brilliantly inventive' SIMON LELIC 'Unsettling, fast-paced, suspenseful and gripping . . . Excellent' WILL DEAN 'A serial killer thriller with the darkest of hearts' FIONA CUMMINS 'A tense-as-hell high-body count page turner, but a rarer thing too - one that's also full of genuine warmth and humanity' WILLIAM SHAW Latin American culture has given birth to numerous dramatic works, though it has often been difficult to locate information about these plays and playwrights. This volume traces the history of Latin American theater, including the Nuyorican and Chicano theaters of the United States, and surveys its history from the pre-Columbian period to the present. Sections cover individual Latin American countries. Each section features alphabetically arranged entries for playwrights, independent theaters, and cultural movements. The volume begins with an overview of the development of theater in Latin America. Each of the country sections begins with an introductory survey and concludes with copious bibliographical information. The entries for playwrights provide factual information about the dramatist's life and works and place the author within the larger context of international literature. Each entry closes with a list of works by and about the playwright. A selected, general bibliography appears at the end of the volume. Martial artist Frank Rivers shows readers how to successfully negotiate the daily strife in their business and personal lives. Using the owl's bearing and conduct as a model for effectively handling conflict, he offers fresh and thoughtful strategies for confronting life's most complex challenges with poise and integrity. Discusses the sociological implications of portraits painted in seventeenth and eighteenth century America The Academy and the Limits of Painting in Seventeenth-Century France is the first study in over a century devoted to the creation of one of the most important European institutions of art, the French Académie Royale. Founded in the mid-1660s, the Academy institutionalised the discourse around painting and thus had an immediate impact on the making of art in France, becoming a decisive influence on painting until the close of the nineteenth century. In the process of forging an identity for itself, the Academy redefined almost every aspect of art - the nature of art training, the sources of patronage, the social standing of the artist, and the place of the arts in national life. The Gilded Age (1865-1918) saw the sudden rise of America's first High Society, including such prominent families as the Astors, Whitneys, and Vanderbilts. As an aristocracy based on fortunes recently acquired, these families endeavored to live like Europe's blue-blooded nobility, shedding Puritan restraint as they joyously flaunted their new wealth--especially where their homes were concerned. They erected French chateaus and Italian palazzos on New York's Fifth Avenue, at Newport, and elsewhere, often taking inspiration from Parisian styles of the Second Empire. They rejected more modest American styles just as they rejected middle-class society, and for interior decoration they turned to such artisans as Tiffany, Herter Brothers, and Allard's of Paris. Immensely readable and illuminated with 250 stunning color and black-and-white illustrations, this is the fascinating story of America's first millionaire society, the way they lived and partied, and the lush artistic and cultural legacy they established. Successful, experienced, and award-winning Chief Information Security Officers and Risk Officers share their 'tips of the trade' with those who want to accelerate their paths in these fields. The combination of technical sophistication, fervent determination, and strong business acumen of this remarkable group, is what makes them excel consistently and against all odds. This is a 'must-read' for cyber and risk professionals that fulfill a daily crucial, global mission, and compete in one of the most intense careers in the world. Profiles the careers of fifty American artists, presented chronologically from colonial limners from the sixteenth and seventeenth centuries, to Kara Walker, born in 1969, and includes time lines and reproductions of their work. This anthology brings together twenty outstanding works of recent scholarship on the history of the visual arts in the United States from the colonial period to 1945. The selected essays--all written within the past two decades--reflect the interdisciplinary character of current art historiography in America and the variety of approaches that contribute to the dynamism in the field. The authors take up diverse subjects--from colonial portraits to nineteenth-century sculptures of women to photographic images of New York--and invite those with a general knowledge of the history of American art to think more deeply about art and culture. Employing many interpretive methodologies, including iconology, social history, structuralism, psychobiography, and feminist theory, the contributors to this volume combine close analysis of specific art objects or groups of objects with discussion of how these works of art operated within their cultural contexts. The authors consider the works of such artists as John Singleton Copley, Charles Willson Peale, Winslow Homer, Thomas Eakins, Georgia O'Keeffe, and Jackson Pollock as they assess how paintings, sculpture, prints, drawings, and photographs have carried meaning within American society. And they investigate how the conceptualization, production, and presentation of works of art both inform and are informed by prevailing attitudes toward the role of the arts and the artist in American culture. [This book is] for American art survey courses. [It] provides a thorough ... chronology of American art, including painting, sculpture, architecture, decorative arts, photography, and folk art. [The author] presents art and artists within the context of their times, including insights into the intellectual, spiritual, and political environment. [He] charts the growth of a distinctly American art culture.-Back cover. A panorama of painterly motifs, combined and reprised Ann Craven (born 1972) superimposes source photographs, historical works and her own paintings, creating mediated images that feature layer upon layer of referentiality--a collage of her most treasured curios. Peacocks showcase their plumage; birds perch on a branch; a trio of horses pose "just so." Through these acts of creation and recreation, Craven becomes both master and copyist, citing herself in her own art historical lineage. Animals, birds, flowers, moons: Craven's motifs are in themselves an incantation--a wish to repeat, reencounter, relive. In keeping with this process of revisitation, Craven's paintings are repeated in threes throughout this fully illustrated catalog, mimicking the tripartite structure of her Animals Birds Flowers Moonsexhibition. The book is divided into three parts, each paired with one of three texts: two newly commissioned essays by Durga Chew-Bose and Keith Mayerson, and a 2021 interview between Craven and Lois Dodd. During the Cold War, freedom of expression was vaunted as liberal democracy's most cherished possession—but such freedom was put in service of a hidden agenda. In The Cultural Cold War, Frances Stonor Saunders reveals the extraordinary efforts of a secret campaign in which some of the most vocal exponents of intellectual freedom in the West were working for or subsidized by the CIA—whether they knew it or not. Called "the most comprehensive account yet of the [CIA's] activities between 1947 and 1967" by the New York Times, the book presents shocking evidence of the CIA's undercover program of cultural interventions in Western Europe and at home, drawing together declassified documents and exclusive interviews to expose the CIA's astonishing campaign to deploy the likes of Hannah Arendt, Isaiah Berlin, Leonard Bernstein, Robert Lowell, George Orwell, and Jackson Pollock as weapons in the Cold War. Translated into ten languages, this classic work—now with a new preface by the author—is "a real contribution to popular understanding of the postwar period" (The Wall Street Journal), and its story of covert cultural efforts to win hearts and minds continues to be relevant today. Amid the grandeur of the remote Pacific Northwest stands Kingcome, a village so ancient that, according to Kwakiutl myth, it was founded by the two brothers left on earth after the great flood. The Native Americans who still live there call it Quee, a place of such incredible natural richness that hunting and fishing remain primary food sources. But the old culture of totems and potlatch is being replaced by a new culture of prefab housing and alcoholism. Kingcome's younger generation is disenchanting and alienated from its heritage. And now, coming upriver is a young vicar, Mark Brian, on a journey of discovery that can teach him—and us—about life, death, and the transforming power of love. Title Summary field provided by Blackwell North America, Inc. All Rights Reserved Today the work of so-called "outsider" artists is receiving unprecedented attention. This major critical appraisal of America's 20th-century self-taught artists coincides with a major 1998 traveling exhibition organized by the Museum of American Folk Art in New York. While some of these artists have received critical recognition, others remain virtually unknown, following their muse regardless. 150 color images. A truly international treatment of its subject, *The Spirit of Folk Art* draws upon the vast resources of the Girard Collection, amassed by Alexander and Susan Girard and housed at the Museum of International Folk Art in Santa Fe. Distinguished folklorist and scholar Henry Glassie offers a vigorous and often lyrical discussion of the nature of folk art. More than 345 illustrations, including 285 in full color and 50 field photographs showing the various artists at work, provide a rich complement to Glassie's insights. *Sexuality in Ancient Art* is the first anthology on the visual representation of the sexual body, sexual activity and desire, and the role of sexuality in the formation of personality and social institutions. Bringing together essays by historians of the art of Egypt and the Ancient Near East, Greece, the Etruscans, and Rome, this collection demonstrates how a variety of methods and theoretical frames can be used to define and articulate these issues. The goal of this volume is to open a range of new subjects and approaches in the visual arts and the problems of representation to students and scholars of the ancient world. Based on the archives of the Avery Architectural Library of Columbia University and the New York Historical Society, this refreshing portrait of one of America's most prominent architects is at the same time a document of the sweeping social and cultural changes taking place in the country at the turn of the twentieth century. A biography of Stanford White and more, the book recovers a neglected yet significant part of White's career--a career that not only set the bar for twentieth-century architecture but also defined the newly emerging profession of interior design. Looks at five centuries of American architecture, painting, sculpture, decorative arts, and photography. *People Started Getting Sick* When the pandemic hit, nobody was expecting it to be as bad as it was. The economy barely survived the lockdowns, but it staggered along until civil unrest shattered people's hope of better times to come. With it being an election year, more and more Americans were waking up to the idea that they truly were behind the curve. The hope was; if they did not get sick, run out of money, or they could avoid violent mobs, they would be fine. The collapse happened so gradually; nobody saw it coming but the very few. Life-long friends. Three doctors, a realtor, a contractor, and a pro shooter/model, make up the couples who had been lifelong friends and pooled their money to prepare for hard times. They soon find out money cannot buy you everything, even safety and security. A jealous rancher wants to buy their land and does not want to take "no" for an answer. More than once, Lyle and his family are found on the wrong side of the fence. With human remains found on the new property, the mystery deepens, as the world around them slowly descends into chaos. "In this critical history of American painting and sculpture since 1900, the artists, movements and events that led up to America's emergence as a leading force in the world of art are covered in depth. More than half of this volume is devoted to art in the United States since 1945, and includes careful analyses of such styles as Action Painting, Hard Edge Painting, Pop Art, Minimalism, Assemblage, Happenings, Earthworks, Kineticism, Conceptual Art and Bodyworks. These discussions are accompanied by rich accounts of such contemporary masters as Pollock, De Kooning, Rothko, Johns, Lichtenstein, Stella, Noland, Morris, Judd, Smithson and many others." - dust jacket. Wes Craven's *A Nightmare on Elm Street* is one of the most inventive American films of the 1980s. Its sleeper success bred a series of film sequels and a syndicated television program while its villain, Freddy Krueger, became a Hollywood horror icon for the ages. In the four decades since its release, Craven's creation and subsequent franchise has become firmly established as a pop culture institution and a celebrated symbol of American cinema. This book takes readers on an engrossing journey through the history, production and themes of the *Nightmare on Elm Street* film series and its spin-off TV show, *Freddy's Nightmares*. It reveals new stories about the franchise's history and dives into some of the themes and ideas that tend to be overlooked. The book has a foreword by production designer Mick Strawn and exclusive interviews with cast and crew, including legendary Freddy Krueger actor Robert Englund; directors Jack Sholder, Chuck Russell, Mick Garris, Tom McLoughlin, Lisa Gottlieb, and William Malone; cinematographers Jacques Haitkin, Roy H. Wagner, and Steven Fierberg; and many more. The product of a twenty-year, coast-to-coast research project by authors Phil Kovinick and Marian Yoshiki-Kovinick, it offers accurate, concise introductions to women painters, graphic artists, and sculptors, all of whom achieved recognition as depicors of Western subjects between the 1840s and 1980. Their styles range from representationalism to early modernism, while their works depict everything from bold landscapes and scenes of intensive action to studies of Native Americans, pioneers, ranchers, farmers, wildlife, and flora. Each entry in the encyclopedia features the salient facts of the artist's life and career, with attention to her work with Western subject matter. Many of the entries also contain a selected list of the artist's exhibitions, current locations of her work in public collections, pertinent references, and a black-and-white example of her work.
