

OUMA VERWERF HAAR MEESTERSGRAAD

Notozi Jennifer Mgobozi is 'n 75-jarige ouma van vyf (5.1.1) (kleinkinders). Sy het in (5.1.2) (November) 2021 haar meestersgraad in onderwys aan die Walter Sisulu Universiteit behaal. Sy sê dit was (5.1.3) (maklik), maar beslis die moeite werd. Haar familie én ander mense is baie trots (5.1.4) (...) haar.

Jennifer is al (5.1.5) (baie) as 40 jaar lank betrokke by onderwys. Sy werk by *NECT*, wat probeer (5.1.6) (onderwys in SA verbeter). (5.1.7) (Sy doen juis haar navorsing oor *NECT* se program vir Engels as EAT). Sy sal (5.1.8) (bly) wees as haar navorsing 'n positiewe effek op onderwys het; veral in die landelike gebiede. 5

Jennifer sê studies en opleiding het (5.1.9) (iets met ouderdom te doen). Sy sê daar is nou baie (5.1.10) (geleentheid). As jy (5.1.11) (dus/dis) kan, moet jy dit doen. Daarom is sy nie van plan om gou af te tree nie. Inteendeel! (5.1.12) (Sy wil verwerf met lof haar doktorsgraad volgende jaar). 10

Jennifer is 'n (5.1.13) (inspireer) vir ander. Sy het bewys: (5.1.14) Waar 'n wil is is 'n weg! 15

Secondary School External Examination Systems Barend Vlaardingerbroek, Neil Taylor, 2009 Summative assessment has been a contentious issue in educational circles for several decades particularly high stakes assessment events which arise at various junctures of the school cycle especially those at the end of it The French Baccalaureat and English A Levels and their numerous clones throughout the francophone and anglophone worlds are household names and represent milestone events in people's lives as their outcomes are principal determinants of young people's future prospects These examinations are external they are devised conducted and processed by agencies outside the schools usually ministerial examination units As such they act as blind arbiters of student achievement providing the proverbial level playing field which ensures the comparability of outcomes In the pyramidal school structures of yesteryear examinations acted as filters regulating the progression of pupils to subsequent tiers of formal education Exit points occurred from primary school level up from where unsuccessful candidates could enter the labour force and or embark on occupationally specific further education and training With the modernisation of the labour market and an ever higher social demand for access to higher levels of formal education the filtering function of examinations at lower levels of schooling has been gradually eroded while burgeoning numbers of students at the upper secondary level have brought about reforms that include curricular diversification and sometimes radical overhauls of terminating assessment systems including the modification and in some instances abandonment of external examinations This edited volume brings together the experiences of twenty examination systems from around the world to show how these dynamic entities have adapted over time to the changing context of schooling Following an introduction by Stephen P Heyneman of World Bank repute there are sixteen chapters presenting Country Case Studies which have been written up under common subheadings thereby highlighting the comparative nature of the work and facilitating cross referencing The subsequent four chapters elaborate on the theme of external examinations beyond national borders including a contribution by the International Baccalaureate Organisation A defining feature of the work is the attention it pays to what it calls the nuts and bolts of external examinations from question setting to grading procedures These are it is argued instrumental in nurturing and maintaining public confidence in external examinations The book will be of immense value to people involved in educational policy studies especially strategic educational planning as well as those directly concerned with formal assessment The work has been written to appeal to a wide audience of informed persons it is accessible to teachers and interested laypeople as well as to academics Study and Master Life Sciences Grade 11 CAPS Study Guide Gonasagaren S. World Yearbook of Education 2003 Jill Bourne, Euan Reid, 2003-12-16 The issues raised by the role of language in education are some of the most important and contentious faced by education systems across the globe Language is embedded in the concepts of nationhood and identity and is therefore directly linked to the very social and political fabric of a country In a climate of increasing globalisation development and mobility of populations nations around the world are

concerned with the tension between cultivating a sense of cultural and linguistic cohesion and making use of the linguistic diversity that exists in every country and region This book examines the implications and impacts the dilemmas and potential for language education in relation to education systems and wider society Split into three key parts it considers current issues in language education including the role of language in maintaining power and inequalities in encouraging participation and inclusion and in challenging the status quo different approaches to language education around the world the potential for language to provide opportunities for the disadvantaged illustrated by case studies of three cities This recent volume of the internationally respected World Yearbook of Education continues the tradition of offering a wide range of international perspectives from leading commentators on a universal concern The material amassed here will be essential reading for teacher educators education researchers and school leaders across the world
