**The Prophecy Con** Feb 22 2021 Book Two in the Rogues of the Republic series. Who would have thought a book of naughty poems by elves could mean the difference between war and peace? But if stealing the precious volume will keep the Republic and the Empire from tearing out each other's throats, rogue soldier Isafesira de Lochenville--"Loch" to friends and foes alike--is willing to do the dishonest honors. With her motley crew of magic-makers, law-breakers, and a talking warhammer, she'll match wits and weapons with dutiful dwarves, mercenary knights, golems, daemons, an arrogant elf, and a sorcerous princess. But getting their hands on the prize--while keeping their heads attached to their necks--means Loch and company must battle their way from a booby-trapped museum to a monster-infested library, and from a temple full of furious monks to a speeding train besieged by assassins. And for what? Are a few pages of bawdy verse worth waging war over? Or does something far more sinister lurk between the lines? From Patrick Weekes, one of the minds behind the critically acclaimed Mass Effect video game series, *The Prophecy Con* continues the action-packed fantasy adventure that kicked off in *The Palace Job*.

**The Dark Defiles** May 20 2023 Joe Abercrombie's *Best Served Cold* meets George R. R. Martin's *A Game of Thrones* in the final novel in Richard K. Morgan's epic *A Land Fit for Heroes* trilogy, which burst onto the fantasy scene with *The Steel Remains* and *The Cold Commands*. Ringil Eskiath, a reluctant hero viewed as a corrupt degenerate by the very people who demand his help, has traveled far in search of the Illwrack Changeling, a deathless human sorcerer-warrior raised by the bloodthirsty Aldrain, former rulers of the world. Separated from his companions—Egar the Dragonbane and Archeth—Ringil risks his soul to master a deadly magic that alone can challenge the might of the Changeling. While Archeth and the Dragonbane embark on a trail of blood and tears that ends up exposing long-buried secrets, Ringil finds himself tested as never before, with his life and all existence hanging in the

balance. Expect surprises and suspense, along with the usual derring-do and entertaining characters.”—Booklist Praise for Richard K. Morgan and his acclaimed series, *A Land Fit for Heroes* “Bold, brutal, and making no compromises—Richard K. Morgan doesn’t so much twist the clichés of fantasy as take an axe to them. Then set fire to them.”—Joe Abercrombie “Morgan has taken traditional sword and sorcery tropes and given them a hard, contemporary kick. The antithesis of the cosy fairytale, this one is for big boys.”—The Times (London) “A crisp stylist who demonstrates equal facility with action scenes and angst.”—The New York Times Book Review “A full-immersion experience, uncompromising and bleakly magnificent.”—Kirkus Reviews

**Thirteen** Mar 18 2023 One hundred years from now, and against all the odds, Earth has found a new stability; the political order has reached some sort of balance, and the new colony on Mars is growing. But the fraught years of the 21st century have left an uneasy legacy ... Genetically engineered alpha males, designed to fight the century's wars have no wars to fight and are surplus to requirements. And a man bred and designed to fight is a dangerous man to have around in peacetime. Many of them have left for Mars but now one has come back and killed everyone else on the shuttle he returned in. Only one man, a genetically engineered ex-soldier himself, can hunt him down and so begins a frenetic man-hunt and a battle survival. And a search for the truth about what was really done with the world's last soldiers. *BLACK MAN* is an unstoppable SF thriller but it is also a novel about prejudice, about the ramifications of playing with our genetic blue-print. It is about our capacity for violence but more worrying, our capacity for deceit and corruption. This is another landmark of modern SF from one of its most exciting and commercial authors.

**Market Forces** Aug 23 2023 From the award-winning author of *Altered Carbon* and *Broken Angels*—a turbocharged new thriller set in a world where killers are stars, media is mass entertainment, and freedom is a dangerous proposition . . . A coup in Cambodia. Guns to Guatemala. For the men and women of Shorn Associates, opportunity is calling. In the superheated global village of the near future, big money is made by finding the right little war and supporting one side against the other—in exchange for a share of the spoils. To succeed, Shorn uses a new kind of corporate gladiator: sharp-suited, hard-driving gunslingers who operate armored vehicles and follow a Samurai code. And Chris Faulkner is just the man for the job. He fought his way out of London’s zone of destitution. And his kills are making him famous. But unlike his best friend and competitor at Shorn, Faulkner has a side that outsiders cannot see: the side his wife is trying to salvage, that another woman—a porn star turned TV news reporter—is trying to exploit. Steeped in blood, eyed by common criminals looking for a shot at fame, Faulkner is living on borrowed time. Until he’s given one last shot at getting out alive. . . .

**Sleep State Interrupt** Jun 28 2021 *Sleep State Interrupt* centers around Waylee Freid, an unemployed journalist and musician with ever-worsening bipolar disorder, and her countercultural friends in the decaying city of Baltimore. Frustrated by the injustice of a system that benefits only a few, and the apathy of a population content to lose themselves in a virtual reality called *BetterWorld*, the group busts a notorious teenage hacker out of jail and sneaks into a closed election fundraiser at the Smithsonian castle, where they record incriminating admissions by a corrupt president and a power-mad CEO. Hunted by Homeland Security, Waylee and her friends must reach a substantial audience by broadcasting their video during the Super Bowl. But to do so, they will have to break into one of the most secure facilities ever built.

**Broken Angels** Sep 11 2022 Welcome back to the brash, brutal new world of the twenty-fifth century: where global politics isn’t just for planet Earth anymore; and where death is just a break in the action, thanks to the techno-miracle that can preserve human consciousness and download it into one new body after another. Cynical, quick-on-the-trigger Takeshi Kovacs, the ex-U.N. envoy turned private eye, has changed careers, and bodies, once more . . . trading sleuthing for soldiering as a warrior-for-hire, and helping a far-flung planet’s government put down a bloody revolution. But when it comes to taking sides, the only one Kovacs is ever really on is his own. So when a rogue pilot and a sleazy corporate fat cat offer him a lucrative role in a treacherous treasure hunt, he’s only too happy to go AWOL with a band of resurrected soldiers of fortune. All that stands between them and the ancient alien spacecraft they mean to salvage are a massacred city bathed in deadly radiation, unleashed nanotechnology with a million ways to kill, and whatever surprises the highly advanced Martian race may have in store. But armed with his genetically engineered instincts, and his trusty twin Kalashnikovs, Takeshi is ready to take on anything—and let the devil take whoever’s left behind.

**Thirteen** Jan 21 2021 In *Thirteen*, Richard K. Morgan radically reshapes and recharges science fiction yet again, with a new and unforgettable hero in Carl Marsalis: hybrid, hired gun, and a man without a country . . . or a planet. Marsalis is one of a new breed. Literally. Genetically engineered by the U.S. government to embody the naked aggression and primal survival skills that centuries of civilization have erased from humankind, Thirteens were intended to be the ultimate military fighting force. The project was scuttled, however, when a fearful public branded the supersoldiers dangerous mutants, dooming the Thirteens to forced exile on Earth’s distant, desolate Mars colony. But Marsalis found a way to slip back—and into a lucrative living as a bounty hunter and hit man before a police sting landed him in prison—a fate worse than Mars, and much more dangerous. Luckily, his “enhanced” life also seems to be a charmed one. A new chance at freedom beckons, courtesy of the government. All Marsalis has to do is use his superior skills to bring in another fugitive. But this one is no common criminal. He’s another Thirteen—one who’s already shanghaied a space shuttle, butchered its crew, and left a trail of bodies in his wake on a bloody cross-country spree. And like his pursuer, he was bred to fight to the death. Still, there’s no question Marsalis will take the job. Though it will draw him deep into violence, treachery, corruption, and painful confrontation with himself, anything is better than remaining a prisoner. The real question is: can he remain sane—and alive—long enough to succeed?

*In the Orbit of Sirens* Oct 01 2021 Nightmarish machines have driven humanity into the depths of space. The survivors are forced to adapt to a planet filled with monsters.

**Kiln People** Dec 15 2022 In a perilous future where disposable duplicate bodies fulfill every legal and illicit whim of their decadent masters, life is cheap. No one knows that better than Albert Morris, a brash investigator with a knack for trouble, who has sent his own duplicates into deadly peril more times than he cares to remember. But when Morris takes on a ring of bootleggers making illegal copies of a famous actress, he stumbles upon a secret so explosive it has incited open warfare on the streets of Dittotown. Dr. Yosil Maharal, a brilliant researcher in artificial intelligence, has suddenly vanished, just as he is on the verge of a revolutionary scientific breakthrough. Maharal's daughter, Ritu, believes he has been kidnapped-or worse. Aeneas Polom, a reclusive trillionaire who appears in public only through his high-priced platinum duplicates, offers Morris unlimited resources to locate Maharal before his awesome discovery falls into the wrong hands. **Woken Furies** Apr 30 2024 Mixing classic noir sensibilities with a searing futuristic vision of an age when death is nearly meaningless, Richard K. Morgan returns to his saga of betrayal, mystery, and revenge, as Takeshi Kovacs, in one fatal moment, joins forces with a mysterious woman who may have the power to shatter Harlan’s World forever. Once a gang member, then a marine, then a galaxy-hopping Envoy trained to wreak slaughter and suppression across the stars, a bleeding, wounded Kovacs was chilling out in a New Hokkaido bar when some so-called holy men descended on a slim beauty with tangled, hyperwired hair. An act of quixotic chivalry later and Kovacs was in deep: mixed up with a woman with two names, many powers, and one explosive history. In a world where the real and virtual are one and the same and the dead can come back to life, the damsel in distress may be none other than the infamous Quellcris Falconer, the vaporized symbol of a freedom now gone from Harlan’s World. Kovacs can deal with the madness of AI. He can do his part in a battle against biomachines gone wild, search for a three-centuries-old missing weapons system, and live with a blood feud with the yakuza, and even with the betrayal of people he once trusted. But when his relationship with “the” Falconer brings him an enemy specially designed to destroy him, he knows it’s time to be afraid. After all, the guy sent to kill him is himself: but younger, stronger, and straight out of hell. Wild, provocative, and riveting, *Woken Furies* is a full-bore science fiction spectacular of the highest order—from one of the most original and spellbinding storytellers at work today.

*Dead Things* Jul 30 2021 The first novel Stephen Blackmoore's noir urban fantasy series, in which necromancer Eric Carter returns home to find his sister’s killer—and send them straight to hell... Eric Carter has a unique skill—he can talk to the dead. Specifically, communicating with restless spirits—or other, even worse entities—and getting them to move on or move out. Sometimes, they take a lot of convincing. And sometimes, they straight up try to kill him. It’s not your typical way to make a living, but Carter’s managed to make it work. Life is pretty good. At least it was. Because Carter’s little sister has just been brutally killed. By something nightmarish. To find the killer Eric Carter is going to have to return to L.A., which he left fifteen years ago when he made a lot of people—and paranormal entities—very angry. And those people have long, unforgiving memories. But Carter is no pushover. He’s got more heavy-duty magical power than most of those with his skill set, and he’s more than happy to use it on anyone or anything who tries to stop him from finding his sister’s killer. And when he does, he is going to make them pray for death—and then he’s going to answer their prayers... Praise for the Eric Carter series: “Blackmoore employs Chanderlesque prose to smoothly incorporate a hard-boiled sense of urban despair into a paranormal plot, with occasional leavening provided by smart-aleck humor.” — Publishers Weekly on *Dead Things* "In a world where Aztec Mythology, dark magic and grim reality blend together, nothing is what it appears to be... Best of all, Blackmoore’s chillingly good storytelling skills ensures that fans will enjoy every step of this adrenaline fueled journey.” — RT Book Reviews (Top Pick) on *Broken Souls* “This series is so fucking good. Blackmoore can’t write these books fast enough to suit me. *BROKEN SOULS* is hyper-caffeinated, turbo-bloody face-stomping fun. This is the L.A-noir urban fantasy you’ve been looking for.” — Kevin Hearne, Author of *The Iron Druid Chronicles* "Carter’s wry voice is amusing as ever, but the grief he carries is palpable, adding depth and a sense of desperation to this action-packed adventure. Readers will be eager for more after this thrilling, emotionally fraught installment.” — Publishers Weekly on *Ghost Money*, Starred Review Series Order: 1. *Dead Things* 2. *Broken Souls* 3. *Hungry Ghosts* 4. *Fire Season* 5. *Ghost Money* 6. *Bottle Demon*

The only work she can find in the ruins of her devastated city is scavenging for alien technology. When she finds a powerful alien weapon, her discovery pays off more than she could have hoped: it draws the attention of the most powerful of the superhuman Empowered, Valene. Valene hears everything, everywhere. She suffers for it, and as they begin a precipitous romance, Kit believes she can use the weapon she's scavenged to mitigate Valene's pain. If she can't, Valene will retreat to the soundlessness of space. Without Valene's compassion, the stricken city is left to the mercy of Valene's ruthless father, who denies the assistance the city needs unless it can pay for it. As Valene's condition worsens, Kit becomes more desperate and unleashes the full power of the alien weapon. In an instant, she is transformed into a being of cosmic power. She can acquire the knowledge and energy of anything - or anyone - she touches.

*Altered Carbon* Apr 18 2023 Four hundred years from now mankind is strung out across a region of interstellar space inherited from an ancient civilization discovered on Mars. The colonies are linked together by the occasional sublight colony ship voyages and hyperspatial data-casting. Human consciousness is digitally freighted between the stars and downloaded into bodies as a matter of course. But some things never change. So when ex-envoy, now-convict Takeshi Kovacs has his consciousness and skills downloaded into the body of a nicotine-addicted ex-thug and presented with a catch-22 offer, he really shouldn't be surprised. Contracted by a billionaire to discover who murdered his last body, Kovacs is drawn into a terrifying conspiracy that stretches across known space and to the very top of society. For a first-time SF writer to be so surely in command of narrative and technology, so brilliant at world-building, so able to write such readable and enjoyable SF adventure, is simply extraordinary.

*Altered Carbon: Download Blues Collection* May 08 2022 In the distant future, the human body is a temporary and interchangeable commodity - if you can pay. For the interstellar elite, bodies are swapped out and reused without a second thought. You never grow old; you never die. However, some bodies are more temporary than others ... Takeshi Kovacs was once a member of the Envoy Corps, stormtroopers for the Interstellar Earth Protectorate, ultra-lethal adepts in switching bodies across the stars. While he served, he was known by a variety of names--Mamba Lev, One Hand Rending, the Icepick--all testament to his capacity for rapid response and extreme violence in whatever flesh he wore. Now he's out of the service and trying to live a different life. But the Protectorate hasn't changed its spots, no matter what world Kovacs drifts to, and with that old combat rage still burning deep inside him, will he ever really be able to walk away? Created by Richard K. Morgan, *Altered Carbon* was previously adapted as a Netflix television series. This original graphic novel, written by Rik Hoskin (Brandon Sanderson's *White Sand*/Pierce Brown's *Red Rising*, expands upon the *Altered Carbon* universe.
