The New Old World Jun 30 2021 The New Old World looks at the history of the European Union, the core continental countries within it, and the issue of its further expansion into Asia. It opens with a consideration of the origins and outcomes of European integration since the Second World War, and how today's EU has been theorized across a range of contemporary disciplines. It then moves to more detailed accounts of political and cultural developments in the three principal states of the original Common Market-France, Germany and Italy. A third section explores the interrelated histories of Cyprus and Turkey that pose a leading geopolitical challenge to the Community. The book ends by tracing ideas of European unity from the Enlightenment to the present, and their bearing on the future of the Union. The New Old World offers a critical portrait of a continent now increasingly hailed as a moral and political example to the world at large.

The New Zealand Family from 1840 Apr 08 2022 An authoritative demographic history of the New Zealand family from 1840&–2005, this reference is a collection of statistics that interprets the changing role of the family and its members. Using detailed research spanning 165 years, the authors chart the move from the large family of the 19th century to the baby boom, the increase in family diversity, and the modern trend towards unsustainably small families. This analysis of society helps trace changing attitudes and the structure of society by noting the reasons for and consequences of the demographic changes.

The Book of the New Sun May 29 2021 An extraordinary epic, set a million years in the future, in the time of a dying sun, when our present culture is no longer even a memory. Severian, a torturer's apprentice, is exiled from his guild after falling in love with one of his prisoners. Ordered to the distant city of Thrax, armed with his ancient executioner's sword, Terminus Est,

Severian must make his way across the perilous, ruined landscape of this far-future Urth. But is his finding of the mystical gem, the Claw of the Conciliator, merely an accident, or does Fate have a grander plans for Severian the torturer . . . ? This edition contains the first two volumes of this four volume novel, *The Shadow of the Torturer* and *The Claw of the Conciliator*.

The New Analog Jun 22 2023 An NPR Best Book of 2017 "This is not a book about why vinyl sounds better; it's way more interesting than that . . . it] is full of things I didn't know, like why people yell into cellphones . . . Ultimately, it's about how we consume sound as a society - which is, increasingly, on an individual basis." --NPR "If you're a devoted music fan who's dubious about both rosy nostalgia and futuristic utopianism, Damon Krukowski's *The New Analog* is for you." --The New York Times Book Review "A pointedly passionate look at what's been lost in the digital era." --Los Angeles Times What John Berger did to ways of seeing, well-known indie musician Damon Krukowski does to ways of listening in this lively guide to the transition from analog to digital culture Having made his name in the late 1980s as a member of the indie band Galaxie 500, Damon Krukowski has watched cultural life lurch from analog to digital. And as an artist who has weathered the transition, he has challenging, urgent questions for both creators and consumers about what we have thrown away in the process: Are our devices leaving us lost in our own headspace even as

they pinpoint our location? Does the long reach of digital communication come at the sacrifice of our ability to gauge social distance? Do streaming media discourage us from listening closely? Are we hearing each other fully in this new environment? Rather than simply rejecting the digital disruption of cultural life, Krukowski uses the sound engineer's distinction of signal and noise to reexamine what we have lost as a technological culture, looking carefully at what was valuable in the analog realm so we can hold on to it. Taking a set of experiences from the production and consumption of music that have changed since the analog era--the disorientation of headphones, flattening of the voice, silence of media, loudness of mastering, and manipulation of time--as a basis for a broader exploration of contemporary culture, Krukowski gives us a brilliant meditation and guide to keeping our heads amid the digital flux. Think of it as plugging in without tuning out.

Revelation Oct 15 2022 The final book of the Bible, Revelation prophesies the ultimate judgement of mankind in a series of allegorical visions, grisly images and numerological predictions. The New Midwest May 22 2023 In the public imagination, Midwestern literature has not evolved far beyond heartland laborers and hardscrabble immigrants of a century past. But as the region has changed, so, in many ways, has its fiction. In this book, the author explores how shifts in work, class, place, race, and culture has been reflected or ignored by novelists and short story writers. From Marilynne Robinson to Leon Forrest, Toni

Morrison to Aleksandar Hemon, Bonnie Jo Campbell to Stewart O'Nan this book is a call to rethink the way we conceive Midwestern fiction, and one that is sure to prompt some new must-have additions to every reading list.

Start Here Nov 03 2021 As heard on NPR's Fresh Air Recommended by The New York Times' Sam Roberts “Start Here is an urgent and timely primer on the approaches that are working and don't require federal approval or political revolution to end one of the most pressing justice issues the country faces today.” —Brooklyn Daily Eagle A bold agenda for criminal justice reform based on equal parts pragmatism and idealism, from the visionary director of the Center for Court Innovation, a leader of the reform movement Everyone knows that the United States leads the world in incarceration, and that our political process is gridlocked. What can be done right now to reduce the number of people sent to jail and prison? This essential book offers a concrete roadmap for both professionals and general readers who want to move from analysis to action. In this forward-looking, next-generation criminal justice reform book, Greg Berman and Julian Adler of the Center for Court Innovation highlight the key lessons from these programs—engaging the public in preventing crime, treating all defendants with dignity and respect, and linking people to effective community-based interventions rather than locking them up. Along the way, they tell a series of gripping stories, highlighting gang members who have gotten their lives back on track, judges who are transforming their courtrooms, and reformers around the country who are rethinking what justice looks like. While Start Here offers no silver bullets, it does put forth a suite of proven reforms—from alternatives to bail to diversion programs for mentally ill defendants—that will improve the lives of thousands of people right now. Start Here is

a must-read for everyone who wants to start dismantling mass incarceration without waiting for a revolution or permission. Proceeds from the book will support the Center for Court Innovation's reform efforts.

Bedlam in the New World Apr 01 2024 A rebellious Indian proclaiming noble ancestry and entitlement, a military lieutenant foreshadowing the coming of revolution, a blasphemous Creole embroiderer in possession of a bundle of sketches brimming with pornography. All shared one thing in common. During the late eighteenth century, they were deemed to be mad and forcefully admitted to the Hospital de San Hipolito in Mexico City, the first hospital of the New World to specialize in the care and custody of the mentally disturbed. Christina Ramos reconstructs the history of this overlooked colonial hospital from its origins in 1567 to its transformation in the eighteenth century, when it began to admit a growing number of patients transferred from the Inquisition and secular criminal courts. Drawing on the poignant voices of patients, doctors, friars, and inquisitors, Ramos treats San Hipolito as both a microcosm and a colonial laboratory of the Hispanic Enlightenment—a site where traditional Catholicism and rationalist models of madness mingled in surprising ways. She shows how the emerging ideals of order, utility, rationalism, and the public good came to reshape the institutional and medical management of madness. While the history of psychiatry's beginnings has often been told as seated in Europe, Ramos proposes an alternative history of madness's medicalization that centers colonial Mexico and places religious figures, including inquisitors, at the pioneering forefront.

The UN Secretary-General from the Cold War to the New

Era Sep 13 2022 An in-depth examination of the evolving peace and security activities of the United Nations Secretary-General in the context of developments in international politics. The constraints and opportunities which the Office has experienced under Pérez de Cuéllar and Boutros-Ghali in the transition to the post-Cold War world and the controversy which has surrounded the Office reflects the volatility and uncertainty of the UN in a changing environment. It is argued that the Secretary-General's activities in the 1990s reflect a development of the international civil service beyond the classical model.

Mercy Street Sep 01 2021 NATIONAL BESTSELLER “Ms. Haigh is an expertly nuanced storyteller long overdue for major attention. Her work is gripping, real, and totally immersive, akin to that of writers as different as Richard Price, Richard Ford, and Richard Russo.”—Janet Maslin, *New York Times* The highly praised, “extraordinary” (*New York Times Book Review*) novel about the disparate lives that intersect at a women’s clinic in Boston, by *New York Times* bestselling author Jennifer Haigh For almost a decade, Claudia has counseled patients at Mercy Street, a clinic in the heart of the city. The work is consuming, the unending dramas of women in crisis. For its patients, Mercy Street offers more than health care; for many, it is a second chance. But outside the clinic, the reality is different.

Anonymous threats are frequent. A small, determined group of anti-abortion demonstrators appears each morning at its door. As the protests intensify, fear creeps into Claudia’s days, a humming anxiety she manages with frequent visits to Timmy, an affable pot dealer in the midst of his own existential crisis. At Timmy’s, she encounters a random assortment of customers, including Anthony, a lost soul who spends most of his life

online, chatting with the mysterious Excelsior11—the screenname of Victor Prine, an anti-abortion crusader who has set his sights on Mercy Street and is ready to risk it all for his beliefs. Mercy Street is a novel for right now, a story of the polarized American present. Jennifer Haigh, “an expert natural storyteller with a keen sense of her characters’ humanity” (New York Times), has written a groundbreaking novel, a fearless examination of one of the most divisive issues of our time.

The Book of Strange New Things May 10 2022 A monumental, genre-defying novel that David Mitchell calls “Michel Faber’s second masterpiece,” *The Book of Strange New Things* is a masterwork from a writer in full command of his many talents. It begins with Peter, a devoted man of faith, as he is called to the mission of a lifetime, one that takes him galaxies away from his wife, Bea. Peter becomes immersed in the mysteries of an astonishing new environment, overseen by an enigmatic corporation known only as USIC. His work introduces him to a seemingly friendly native population struggling with a dangerous illness and hungry for Peter’s teachings—his Bible is their “book of strange new things.” But Peter is rattled when Bea’s letters from home become increasingly desperate: typhoons and earthquakes are devastating whole countries, and governments are crumbling. Bea’s faith, once the guiding light of their lives, begins to falter. Suddenly, a separation measured by an otherworldly distance, and defined both by one newly discovered world and another in a state of collapse, is threatened by an ever-widening gulf that is much less quantifiable. While Peter is reconciling the needs of his congregation with the desires of his strange employer, Bea is struggling for survival. Their trials lay bare a profound meditation on faith, love tested beyond endurance, and our responsibility to those closest to us. Marked by the same bravura storytelling and precise language

that made *The Crimson Petal and the White* such an international success, *The Book of Strange New Things* is extraordinary, mesmerizing, and replete with emotional complexity and genuine pathos.

Women's Tales from the New Mexico WPA Apr 20 2023 As part of the Works Progress Administration during the Depression, two women interviewers, Lou Sage Batchen and Annette Hesch Thorp, gathered women's stories or cuentos from many native ancianas to glean vivid details of a way of life now long disappeared.

The New Class War Feb 04 2022 An Evening Standard's Book of the Year 'A tour de force.' David Goodhart All over the West, party systems have shattered and governments have been thrown into turmoil. The embattled establishment claims that these populist insurgencies seek to overthrow liberal democracy. The truth is no less alarming but is more complex: Western democracies are being torn apart by a new class war. In this controversial and groundbreaking analysis, Michael Lind, one of America's leading thinkers, debunks the idea that the insurgencies are primarily the result of bigotry and reveals the real battle lines. He traces how the breakdown of class compromises has left large populations in Western democracies politically adrift. We live in a globalized world that benefits elites in high income 'hubs' while suppressing the economic and social interests of those in more traditional lower-wage 'heartlands'. A bold framework for understanding the world, *The New Class War* argues that only a fresh class settlement can avert a never-ending cycle of clashes between oligarchs and

populists - and save democracy.

Rising Mar 20 2023 A Pulitzer Prize Finalist, this powerful elegy for our disappearing coast “captures nature with precise words that almost amount to poetry” (The New York Times). Hailed as “the book on climate change and sea levels that was missing” (Chicago Tribune), *Rising* is both a highly original work of lyric reportage and a haunting meditation on how to let go of the places we love. With every record-breaking hurricane, it grows clearer that climate change is neither imagined nor distant—and that rising seas are transforming the coastline of the United States in irrevocable ways. In *Rising*, Elizabeth Rush guides readers through these dramatic changes, from the Gulf Coast to Miami, and from New York City to the Bay Area. For many of the plants, animals, and humans in these places, the options are stark: retreat or perish. Rush sheds light on the unfolding crises through firsthand testimonials—a Staten Islander who lost her father during Sandy, the remaining holdouts of a Native American community on a drowning Isle de Jean Charles, a neighborhood in Pensacola settled by escaped slaves hundreds of years ago—woven together with profiles of wildlife biologists, activists, and other members of these vulnerable communities. Nobrow Nov 27 2023 From John Seabrook, one of our most incisive and amusing cultural critics, comes *Nobrow*, a fascinatingly original look at the radical convergence of marketing and culture. In the old days, highbrow was elite and unique and lowbrow was commercial and mass-produced. Those distinctions have been eradicated by a new cultural landscape where “good” means popular, where artists show their work at K-Mart, Titanic becomes a bestselling classical album, and Roseanne Barr guest edits *The New Yorker*: in short, a culture of *Nobrow*. Combining social commentary, memoir, and profiles of the potentates and purveyors of pop culture—entertainment mogul David Geffen, MTV President Judy McGrath, Snoop Doggy Dogg, *Nobrow* high-priest George Lucas, and others—Seabrook offers an enthralling look at our breakneck society where culture is ruled by the unpredictable

Buzz and where even aesthetic worth is measured by units shipped.

The New Neighbor Mar 08 2022 "In the tradition of Zoe Heller's *What Was She Thinking?* Notes on a Scandal, a darkly sophisticated novel about an old woman's curiosity that turns into a dangerous obsession as she becomes involved in her new neighbor's complicated and cloaked life"--

understanding our nation's history and current crisis. Americans have built an empire on the idea of "race," a falsehood that damages us all but falls most heavily on the bodies of black women and men—bodies exploited through slavery and segregation, and, today, threatened, locked up, and murdered out of all proportion. What is it like to inhabit a black body and find a way to live within it? And how can we all honestly reckon with this fraught history and free ourselves from its burden? *Between the World and Me* is Ta-Nehisi Coates's attempt to answer these questions in a letter to his adolescent son. Coates shares with his son—and readers—the story of his awakening to the truth about his place in the world through a series of revelatory experiences, from Howard University to Civil War battlefields, from the South Side of Chicago to Paris, from his childhood home to the living rooms of mothers whose children's lives were taken as American plunder. Beautifully woven from personal narrative, reimagined history, and fresh, emotionally charged reportage, *Between the World and Me* clearly illuminates the past, bracingly confronts our present, and offers a transcendent vision for a way forward.

New Orleans Hurricanes from the Start Dec 05 2021 According to the US Army Corps of Engineers, the city of New Orleans is twice as likely to be struck by a hurricane as any other metropolitan area bordering the Gulf of Mexico. In this work, authors David F. Bastian and Nicholas J. Meis explore the historical records of storms that have affected the region in and around south Louisiana since the first colonizers set foot on the Mississippi delta in the late seventeenth century. Using letters, personal diaries, official records, newspaper articles, and expert analyses, Bastian and Meis delve into the effects of the monstrous storms that have irreparably impacted south Louisiana, including what went awry during Katrina in 2005.

Also examined is the evolution of New Orleans's protection systems as well as what the city can do to avoid another catastrophe.

Kuru Epidemiological Patrol from the New Guinea Highlands to Papua Oct 27 2023

New World A-Coming Feb 16 2023 "When Joseph Nathaniel Beckles registered for the draft in the 1942, he rejected the racial categories presented to him and persuaded the registrar to cross out the check mark she had placed next to Negro and substitute "Ethiopian Hebrew." "God did not make us Negroes," declared religious leaders in black communities of the early twentieth-century urban North. They insisted that so-called Negroes are, in reality, Ethiopian Hebrews, Asiatic Muslims, or raceless children of God. Rejecting conventional American racial classification, many black southern migrants and immigrants from the Caribbean embraced these alternative visions of black history, racial identity, and collective future, thereby reshaping the black religious and racial landscape. Focusing on the Moorish Science Temple, the Nation of Islam, Father Divine's Peace Mission Movement, and a number of congregations of Ethiopian Hebrews, Judith Weisenfeld argues that the appeal of these groups lay not only in the new religious opportunities membership provided, but also in the novel ways they formulated a religio-racial identity. Arguing that members of these groups understood their religious and racial identities as divinely-ordained and inseparable, the book examines how this sense of self shaped their conceptions of their bodies, families, religious and social communities, space and place, and political sensibilities. Weisenfeld draws on extensive archival research and incorporates a rich array of sources to highlight the experiences of average members."--Publisher's description.

The Book of Why Jan 30 2024 A Turing Award-winning

computer scientist and statistician shows how understanding causality has revolutionized science and will revolutionize artificial intelligence "Correlation is not causation." This mantra, chanted by scientists for more than a century, has led to a virtual prohibition on causal talk. Today, that taboo is dead. The causal revolution, instigated by Judea Pearl and his colleagues, has cut through a century of confusion and established causality -- the study of cause and effect -- on a firm scientific basis. His work explains how we can know easy things, like whether it was rain or a sprinkler that made a sidewalk wet; and how to answer hard questions, like whether a drug cured an illness. Pearl's work enables us to know not just whether one thing causes another: it lets us explore the world that is and the worlds that could have been. It shows us the essence of human thought and key to artificial intelligence. Anyone who wants to understand either needs *The Book of Why*.

The Handmaid's Tale Jan 06 2022 An instant classic and eerily prescient cultural phenomenon, from “the patron saint of feminist dystopian fiction” (New York Times). Now an award-winning Hulu series starring Elizabeth Moss. In this multi-award-winning, bestselling novel, Margaret Atwood has created a stunning Orwellian vision of the near future. This is the story of Offred, one of the unfortunate “Handmaids” under the new social order who have only one purpose: to breed. In Gilead, where women are prohibited from holding jobs, reading, and forming friendships, Offred’s persistent memories of life in the “time before” and her will to survive are acts of rebellion. Provocative, startling, prophetic, and with Margaret Atwood’s devastating irony, wit, and acute perceptive powers in full force, *The Handmaid’s Tale* is at once a mordant satire and a dire warning.
