## Comparing American Political Parties Answer Sheet

**American Parties in Context** Robert Harmel, Matthew Giebert, Kenneth Janda, 2016-04-14 Roughly sixty five years ago a group of political scientists operating as the Committee on Political Parties of the American Political Association thought long and hard about whether the American parties were adequately serving their democracy and made specific recommendations for improvements Comparing the parties of this country to those of Great Britain the Committee found the American parties to be lacking in such fundamentals as clear policy differences strong and effective organization and unity of purpose among each party's representatives in public offices Starting from that background this book is intended to significantly enhance students understanding of the American parties today by putting them in broader context How do the twenty first century Democrats and Republicans compare to the APSA Committee's responsible parties model of the mid twentieth And how do the American parties compare to parties of other democracies around the world including especially the British parties Harmel Giebert and Janda answer those questions and in the process demonstrate that the American parties have moved significantly in the direction of the responsible parties model but while showing little inclination for implementing the greater discipline the Committee thought essential Already having provided as much ideological choice as the British parties the US parties have now edged closer on the other critical requirement of legislative cohesion The authors show that the latter has resulted naturally from the greater homogenization of the meaning of Democrat and Republican across the country both within the electorate and now within Congress as well The dramatic increase in cohesion is not the product of greater party discipline but rather of sectoral realignments

**The Politics Industry** Katherine M. Gehl, Michael E. Porter, 2020-06-23 Leading political innovation activist Katherine Gehl and world renowned business strategist Michael Porter bring fresh perspective deep scholarship and a real and actionable solution Final Five Voting to the grand challenge of our broken political and democratic system Final Five Voting has already been adopted in Alaska and is being advanced in states across the country The truth is the American political system is working exactly how it is designed to work and it isn't designed or optimized today to work for us for ordinary citizens Most people believe that our political system is a public institution with high minded principles and impartial rules derived from the Constitution In reality it has become a private industry dominated by a textbook duopoly the Democrats and the Republicans and plagued and perverted by unhealthy competition between the players Tragically it has therefore become incapable of delivering solutions to America's key economic and social challenges In fact there's virtually no connection between our political leaders solving problems and getting reelected In *The Politics Industry* business leader and path breaking political innovator Katherine Gehl and world renowned business strategist Michael Porter take a radical new approach They ingeniously apply the tools of business analysis and Porter's distinctive Five Forces framework to show how the political system functions just as every other competitive industry does and how the duopoly has led to the devastating outcomes we see today Using this competition lens Gehl and Porter identify the most powerful lever for change a strategy comprised of a clear set of choices in two key areas how our elections work and how we make our laws Their bracing assessment and practical recommendations cut through the endless debate about various proposed fixes such as term limits and campaign finance reform The result true political innovation *The Politics Industry* is an original and completely nonpartisan guide that will open your eyes to the true dynamics and profound challenges of the American political system and provide real solutions for reshaping the system for the benefit of all THE INSTITUTE FOR POLITICAL INNOVATION The authors will donate all royalties from the sale of this book to the Institute for Political Innovation

*Asymmetric Politics* Matthew Grossmann, David A. Hopkins, 2016 The Republican Party is the vehicle of an ideological movement whereas the Democratic Party is a coalition of social groups with concrete policy concerns Democrats prefer a more moderate party leadership that makes compromises whereas Republicans favor a more conservative party leadership that sticks to principles Each party finds popular support for its approach because the American public simultaneously favors liberal positions on specific policy issues and conservative views on the broader role of government

*Responsible Parties* Frances Rosenbluth, Ian Shapiro, 2018-10-02 How popular democracy has paradoxically eroded trust in political systems worldwide and how to restore confidence in democratic politics In recent decades democracies across the world have adopted measures to increase popular involvement in political decisions Parties have turned to primaries and local caucuses to select candidates ballot initiatives and referenda allow citizens to enact laws directly many places now use proportional representation encouraging smaller more specific parties rather than two dominant ones Yet voters keep getting angrier There is a steady erosion of trust in politicians parties and democratic institutions culminating most recently in major populist victories in the United States the United Kingdom and elsewhere Frances Rosenbluth and Ian Shapiro argue that devolving power to the grass roots is part of the problem Efforts to decentralize political decision making have made governments and especially political parties less effective and less able to address constituents long term interests They argue that to restore confidence in governance we must restructure our political systems to restore power to the core institution of representative democracy the political party

Breaking the Two-party Doom Loop Lee Drutman, 2020 American democracy is in deep crisis. But what do we do about it? That depends on how we understand the current threat. In *Breaking the Two-Party Doom Loop*, Lee Drutman argues that we now have for the first time in American history a genuine two-party system with two fully sorted, truly national parties divided over the character of the nation. And it's a disaster. It's a party system fundamentally at odds without anti-majoritarian compromise-oriented governing institutions. It threatens the very foundations of fairness and shared values on which our democracy depends. Deftly weaving together history, democratic theory, and cutting-edge political science research, Drutman tells the story of how American politics became so toxic and why the country is now trapped in a doom loop of escalating two-party warfare from which there is only one escape: increase the number of parties through electoral reform. As he shows, American politics was once stable because the two parties held within them multiple factions, which made it possible to assemble flexible majorities and kept the climate of political combat from overheating. But as conservative Southern Democrats and liberal Northeastern Republicans disappeared, partisan conflict flattened and pulled apart. Once the parties became fully nationalized, a long germinating process that culminated in 2010, toxic partisanship took over completely. With the two parties divided over competing visions of national identity, Democrats and Republicans no longer see each other as opponents but as enemies. And the more the conflict escalates, the shakier our democracy feels. *Breaking the Two-Party Doom Loop* makes a compelling case for large-scale electoral reform, importantly, reform not requiring a constitutional amendment that would give America more parties, making American democracy more representative, more responsive, and ultimately more stable.

**Organizing Political Parties** Thomas Poguntke, Paul D. Webb, Susan E. Scarrow, 2017 Political party organizations play large roles in democracies yet their organizations differ widely and their statutes change much more frequently than constitutions or electoral laws How do these differences and these frequent changes affect the operation of democracy This book seeks to answer these questions by presenting a comprehensive overview of the state of party organization in nineteen contemporary democracies Using a unique new data collection the book's chapters test propositions about the reasons for variation and similarities across party organizations They find more evidence of within country similarity than of cross national patterns based on party ideology After exploring parties organizational differences the remaining chapters investigate the impact of these differences The volume considers a wide range of theories about how party organization may affect political life including the impact of party rules on the selection of female candidates the links between party decision processes and the stability of party programmes the connection between party finance sources and public trust in political parties and whether the strength of parties extra parliamentary organization affects the behaviour of their elected legislators Collectively these chapters help to advance comparative studies of elections and representation by inserting party institutions and party agency more firmly into the centre of such studies Comparative Politics is a series for researchers teachers and students of political science that deals with contemporary government and politics Global in scope books in the series are characterised by a stress on comparative analysis and strong methodological rigour The series is published in association with the European Consortium for Political Research For more information visit [www.ecprnet.eu](http://www.ecprnet.eu) The series is edited by Emilie van Haute Professor of Political Science Universite libre de Bruxelles Ferdinand Muller Rommel Director of the Center for the Study of Democracy Leuphana University and Susan Scarrow Chair of the Department of Political Science University of Houston

**The Increasingly United States** Daniel J. Hopkins, 2018-05-30 In a campaign for state or local office these days you're as likely today to hear accusations that an opponent advanced Obamacare or supported Donald Trump as you are to hear about issues affecting the state or local community This is because American political behavior has become substantially more nationalized American voters are far more engaged with and knowledgeable about what's happening in Washington DC than in similar messages whether they are in the South the Northeast or the Midwest Gone are the days when all politics was local With *The Increasingly United States* Daniel J Hopkins explores this trend and its implications for the American political system The change is significant in part because it works against a key rationale of America's federalist system which was built on the assumption that citizens would be more strongly attached to their states and localities It also has profound implications for how voters are represented If voters are well informed about state politics for example the governor has an incentive to deliver what voters or at least a pivotal segment of them want But if voters are likely to back the same party in gubernatorial as in presidential elections irrespective of the governor's actions in office governors may instead come to see their ambitions as tethered more closely to their status in the national party
