Rabindranath Tagore's Theatre Abhijit Sen,2021-09-28 This book analyses Rabindranath Tagore s contribution to Bengali drama and theatre Throughout this book Abhijit Sen locates and studies Rabindranath s experiments with drama theatre in the context of the theatre available in nineteenth century Bengal and explores the innovative strategies he adopted to promote his brand of theatre This approach finds validation in the fact that Rabindranath combined in himself the roles of author actor producer who always felt that without performance his dramatic compositions fell short of the desired completeness Various facets of his plays as theatre and his own role as a theatre practitioner are the prime focus of this book This book will be of great interest to students and scholars in Theatre and Performance Studies and most notably those focusing on Indian Theatre and Postcolonial Theatre **Advances in Internal Combustion Engine Research** Dhananjay Kumar Srivastava,Avinash Kumar Agarwal,Amitava Datta,Rakesh Kumar Maurya,2017-11-29 This book discusses all aspects of advanced engine technologies and describes the role of alternative fuels and solution based modeling studies in meeting the increasingly higher standards of the automotive industry By promoting research into more efficient and environment friendly combustion technologies it helps enable researchers to develop higher power engines with lower fuel consumption emissions and noise levels Over the course of 12 chapters it covers research in areas such as homogeneous charge compression ignition HCCI combustion and control strategies the use of alternative fuels and additives in combination with new combustion technology and novel approaches to recover the pumping loss in the spark ignition engine The book will serve as a valuable resource for academic researchers and professional automotive engineers alike *Hydrogen Production Technologies* Mehmet Sankir,Nurdan Demirci Sankir,2017-03-20 Provides a comprehensive practical review of the new technologies used to obtain hydrogen more efficiently via catalytic electrochemical bio and photohydrogen production

Hydrogen has been gaining more attention in both transportation and stationary power applications Fuel cell powered cars are on the roads and the automotive industry is demanding feasible and efficient technologies to produce hydrogen The principles and methods described herein lead to reasonable mitigation of the great majority of problems associated with hydrogen production technologies The chapters in this book are written by distinguished authors who have extensive experience in their fields and readers will have a chance to compare the fundamental production techniques and learn about the pros and cons of these technologies The book is organized into three parts Part I shows the catalytic and electrochemical principles involved in hydrogen production technologies Part II addresses hydrogen production from electrochemically active bacteria EAB by decomposing organic compound into hydrogen in microbial electrolysis cells MECs The final part of the book is concerned with photohydrogen generation Recent developments in the area of semiconductor based nanomaterials specifically semiconductor oxides nitrides and metal free semiconductor based nanomaterials for photocatalytic hydrogen production are extensively discussed
