Good Strategy Bad Strategy Richard Rumelt,2011-07-19 *Good Strategy Bad Strategy* clarifies the muddled thinking underlying too many strategies and provides a clear way to create and implement a powerful action oriented strategy for the real world Developing and implementing a strategy is the central task of a leader A good strategy is a specific and coherent response to and approach for overcoming the obstacles to progress A good strategy works by harnessing and applying power where it will have the greatest effect Yet Rumelt shows that there has been a growing and unfortunate tendency to equate Mom and apple pie values fluffy packages of buzzwords motivational slogans and financial goals with strategy In *Good Strategy Bad Strategy* he debunks these elements of bad strategy and awakens an understanding of the power of a good strategy He introduces nine sources of power ranging from using leverage to effectively focusing on growth that are eye opening yet pragmatic tools that can easily be put to work on Monday morning and uses fascinating examples from business nonprofit and military affairs to bring its original and pragmatic ideas to life The detailed examples range from Apple to General Motors from the two Iraq wars to Afghanistan from a small local market to Wal Mart from Nvidia to Silicon Graphics from the Getty Trust to the Los Angeles Unified School District from Cisco Systems to Paccar and from Global Crossing to the 2007 08 financial crisis Reflecting an astonishing grasp and integration of economics finance technology history and the brilliance and foibles of the human character *Good Strategy Bad Strategy* stems from Rumelt s decades of digging beyond the superficial to address hard questions with honesty and integrity

The Age of Surveillance Capitalism Shoshana Zuboff,2019-01-15 The challenges to humanity posed by the digital future the first detailed examination of the unprecedented form of power called surveillance capitalism and the quest by powerful corporations to predict and control our behavior In this masterwork

of original thinking and research Shoshana Zuboff provides startling insights into the phenomenon that she has named surveillance capitalism The stakes could not be higher a global architecture of behavior modification threatens human nature in the twenty first century just as industrial capitalism disfigured the natural world in the twentieth Zuboff vividly brings to life the consequences as surveillance capitalism advances from Silicon Valley into every economic sector Vast wealth and power are accumulated in ominous new behavioral futures markets where predictions about our behavior are bought and sold and the production of goods and services is subordinated to a new means of behavioral modification The threat has shifted from a totalitarian Big Brother state to a ubiquitous digital architecture a Big Other operating in the interests of surveillance capital Here is the crucible of an unprecedented form of power marked by extreme concentrations of knowledge and free from democratic oversight Zuboff s comprehensive and moving analysis lays bare the threats to twenty first century society a controlled hive of total connection that seduces with promises of total certainty for maximum profit at the expense of democracy freedom and our human future With little resistance from law or society surveillance capitalism is on the verge of dominating the social order and shaping the digital future if we let it **The CB PLL Data Book** Lou Franklin,1995
