Things That Can and Cannot Be Said Jan 01 2024 An activist and an actor
reflect on Edward Snowden and the surveillance state in this collection that
“reads like a whistleblower’s travel diary” (Disorient). In late 2014, Arundhati
Roy, John Cusack, and Daniel Ellsberg traveled to Moscow to meet with NSA
whistleblower Edward Snowden. The result was a series of essays and
dialogues in which Roy and Cusack reflect on their conversations with
Snowden. In these provocative and penetrating discussions, Roy and Cusack
discuss the nature of the state, empire, and surveillance in an era of
perpetual war, the meaning of flags and patriotism, the role of foundations
and NGOs in limiting dissent, and the ways in which capital—but not
people—can freely cross borders. “Things That Can and Cannot Be Said is
not a book with solutions, nor even a comprehensive framing of the problem.
Its charm and potential lies in its disarming conversational approach,
offering insights-in-passing; ideas and thoughts to spark further
conversations and just maybe inspire other acts of moral courage. While the
book channels a palpable sense of rage—rage at imperialism, at the
surveillance state, at ‘Washington’s ability to destroy countries and its
inability to win a war’—it concludes on the topic of love.” —PopMatters “It
asks questions—a lot of them. It connects dots from Kashmir to Palestine to
Vietnam to Virginia—leaving no one spared from scrutiny—not even
themselves, as Arundhati asserts.” —Disorient “The freewheeling
conversations between all the participants will bring up many Eureka
moments for a lot of readers. Insights that can only be gained if you are

researching these topics in exhausting detail.” —Firstpost

Ugly Sep 16 2022 A beautiful story about one very ugly kid. Robert Hoge was born with a tumour in the middle of his face, and legs that weren't much use. There wasn't another baby like him in the whole of Australia, let alone Brisbane. But the rest of his life wasn't so unusual: he had a mum and a dad, brothers and sisters, friends at school and in his street. He had childhood scrapes and days at the beach; fights with his family and trouble with his teachers. He had doctors, too: lots of doctors who, when he was still very young, removed that tumour from his face and operated on his legs, then stitched him back together. He still looked different, though. He still looked ... ugly. UGLY is the true story of how an extraordinary boy grew up to have an ordinary life, and how that became his greatest achievement of all.

Every Day We Get More Illegal Jun 01 2021 Voted a Best Poetry Book of the

Year by Library Journal Included in Publishers Weekly's Top 10 Poetry Books of the Year One of LitHub's most Anticipated Books of the Year! A State of the Union from the nation's first Latino Poet Laureate. Trenchant, compassionate, and filled with hope. "Many poets since the 1960s have dreamed of a new hybrid art, part oral, part written, part English, part something else: an art grounded in ethnic identity, fueled by collective pride, yet irreducibly individual too. Many poets have tried to create such an art: Herrera is one of the first to succeed."—New York Times "Herrera has the unusual capacity to write convincing political poems that are as personally felt as poems can be."—NPR "Juan Felipe Herrera's magnificent new poems in *Every Day We Get More Illegal* testify to the deepest parts of the American dream—the streets and parking lots, the stores and restaurants and futures that belong to all—from the times when hope was bright, more like an intimate song than any anthem stirring the blood."—Naomi Shihab Nye, *The New York Times Magazine* "From Basho to Mandela, *Every Day We Get More Illegal* takes us on an international tour for a lesson in the history of resistance from a poet who declares, 'I had to learn . . . to take care of myself . . . the courage to listen to my self.' You hold in your hands evidence of who we really are."—Jericho Brown, author of *The Tradition* "These poems talk directly to America, to migrant people, and to working people. Herrera has created a chorus to remind us we are alive and beautiful and powerful."—José Olivarez, Author of *Citizen Illegal* "The poet comes to his country with a book of songs, and asks: America, are you listening? We better listen. There is wisdom in this book, there is a choral voice that teaches us 'to gain, pebble by pebble, seashell by seashell, the courage.' The courage to find more grace, to find flames."—Ilya Kaminsky, author of *Deaf Republic* In this collection of poems, written during and immediately after two years on the road as United States Poet Laureate, Juan Felipe Herrera reports back on his travels through contemporary America. Poems written in the heat of witness, and later, in quiet moments of reflection, coalesce into an urgent, trenchant, and yet hope-filled portrait. The struggle and pain of those pushed to the edges, the shootings and assaults and injustices of our streets, the lethal border game that separates and divides, and then: a shift of register, a leap for peace and a view onto the possibility of unity. *Every Day We Get More Illegal* is a jolt to the conscience—filled with the multiple powers of the many voices and many textures of every day in America. "Former Poet Laureate Juan Felipe Herrera should also be Laureate of our Millennium—a messenger who nimbly traverses the transcendental liminalities of the United States . . ."—Carmen Gimenez Smith, author of *Be Recorder*

Transformative Change and Real Utopias in Early Childhood Education May 01 2021 Early childhood education and care is a major policy issue for national governments and international organisations. This book contests two stories, both infused by neoliberal thinking, that dominate early childhood policy making today - 'the story of quality and high returns' and 'the story of markets', stories that promise high returns on investment if

only the right technologies are applied to children and the perfection of a system based on competition and individual choice. But there are alternative stories and this book tells one: a 'story of democracy, experimentation and potentiality' in which early childhood centres are public spaces and public resources, places where democracy and experimentation are fundamental values, community workshops for realising the potentiality of citizens. This story calls for transformative change but offers a real utopia, both viable and achievable. The book discusses some of the conditions needed for the story's enactment and shows what it means in practice in a chapter about project work contributed by a Swedish preschool teacher. Critical but hopeful, this book is an important contribution to resisting the dictatorship of no alternative and renewing a democratic politics of early childhood education. It is essential reading for students and teachers, researchers and other academics, and for all other concerned citizens.

Black Moses Apr 23 2023 It's 1970, and in the People's Republic of Congo a Marxist-Leninist revolution is ushering in a new age. But at the orphanage on the outskirts of Pointe-Noire where young Moses has grown up, the revolution has only strengthened the reign of Dieudonn Ngoulmoumako, the orphanage's corrupt director. So Moses escapes to Pointe-Noire, where he finds a home first with a larcenous band of Congolese Merry Men and then

among the Zairian prostitutes of the Trois-Cents quarter. But the authorities won't leave Moses in peace, and intervene to chase both the Merry Men and the Trois-Cents girls out of town. All this injustice pushes poor Moses over the edge. Could he really be the Robin Hood of the Congo? Or is he just losing his marbles? Vivid, exuberant and heartwarming, *Black Moses* is a vital new extension of Alain Mabanckou's extraordinary, interlinked body of work dedicated to his native Congo, and confirms his status as one of our great storytellers.

What the Eyes Don't See Sep 28 2023 A NEW YORK TIMES NOTABLE BOOK □ The dramatic story of the Flint water crisis, by a relentless physician who stood up to power. "Stirring . . . [a] blueprint for all those who believe . . . that 'the world . . . should be full of people raising their voices.'"—The New York Times "Revealing, with the gripping intrigue of a Grisham thriller." —O: The Oprah Magazine Here is the inspiring story of how Dr. Mona Hanna-Attisha, alongside a team of researchers, parents, friends, and community leaders, discovered that the children of Flint, Michigan, were being exposed to lead in their tap water—and then battled her own government and a brutal backlash to expose that truth to the world. Paced like a scientific thriller, *What the Eyes Don't See* reveals how misguided austerity policies, broken democracy, and callous bureaucratic indifference placed an entire city at risk. And at the center of the story is Dr. Mona herself—an immigrant, doctor, scientist, and mother whose family's activist roots inspired her pursuit of justice. *What the Eyes Don't See* is a riveting account of a shameful disaster that became a tale of hope, the story of a city on the ropes that came together to fight for justice, self-determination, and the right to build a better world for their—and all of our—children. Praise for *What the Eyes Don't See* "It is one thing to point out a problem. It is another thing altogether to step up and work to fix it. Mona Hanna-Attisha is a true

American hero.”—Erin Brockovich “A clarion call to live a life of purpose.”—The Washington Post “Gripping . . . entertaining . . . Her book has power precisely because she takes the events she recounts so personally. . . . Moral outrage present on every page.”—The New York Times Book Review “Personal and emotional. . . She vividly describes the effects of lead poisoning on her young patients. . . . She is at her best when recounting the detective work she undertook after a tip-off about lead levels from a friend. . . . ‘Flint will not be defined by this crisis,’ vows Ms. Hanna-Attisha.”—The Economist “Flint is a public health disaster. But it was Dr. Mona, this caring, tough pediatrician turned detective, who cracked the case.”—Rachel Maddow

Switch Mar 11 2022 Why is it so hard to make lasting changes in our companies, in our communities, and in our own lives? The primary obstacle is a conflict that's built into our brains, say Chip and Dan Heath, authors of the critically acclaimed bestseller Made to Stick. Psychologists have discovered that our minds are ruled by two different systems - the rational mind and the emotional mind—that compete for control. The rational mind

wants a great beach body; the emotional mind wants that Oreo cookie. The rational mind wants to change something at work; the emotional mind loves the comfort of the existing routine. This tension can doom a change effort - but if it is overcome, change can come quickly. In *Switch*, the Heaths show how everyday people - employees and managers, parents and nurses - have united both minds and, as a result, achieved dramatic results: □ The lowly medical interns who managed to defeat an entrenched, decades-old medical practice that was endangering patients □ The home-organizing guru who developed a simple technique for overcoming the dread of housekeeping □ The manager who transformed a lackadaisical customer-support team into service zealots by removing a standard tool of customer service In a compelling, story-driven narrative, the Heaths bring together decades of counterintuitive research in psychology, sociology, and other fields to shed new light on how we can effect transformative change. *Switch* shows that successful changes follow a pattern, a pattern you can use to make the changes that matter to you, whether your interest is in changing the world or changing your waistline.

True Change Aug 28 2023 Drawing on her own long-term research and extensive work experience, Janice Klein reveals how the power of people (insiders who are able to see problems from outsider's perspective), approach ("pulling change"), and system (support infrastructure) combine to turn new ideas and concepts into institutionalized practices. In particular, certain people inside organizations "outsiders on the inside" are key to driving innovation, adaptation, and real change. Using examples from leading companies in MIT's Leaders for Manufacturing (LFM) and System Design and Management (SDM) Partnership -- such as Boeing, Intel, Motorola, Alcoa, Ford, Kodak, and others -- she shows how employees at all levels can learn how to become "an outsider on the inside," and be in the right place at the right time to discover opportunities to "pull" into their organization. Throughout, we grow to understand the perspectives of numerous "outsiders on the inside," by hearing their voices and observing their actions. The strategy Klein provides is relevant for any company that

hopes to build a change capability, rather than attempt only to manage change.

Kids Can Use Less Feb 27 2021 Level 3 guided reader that helps kids understand the importance of consuming less and the impact that has on keeping the earth healthy.

The Heart of Change Jul 03 2021 Moving beyond the process of change Why is change so hard? Because in order to make any transformation successful, you must change more than just the structure and operations of an organization—you need to change people's behavior. And that is never easy. The Heart of Change is your guide to helping people think and feel differently in order to meet your shared goals. According to bestselling author and renowned leadership expert John Kotter and coauthor Dan Cohen, this focus on connecting with people's emotions is what will spark the behavior change and actions that lead to success. Now freshly designed, The Heart of Change is the engaging and essential complement to Kotter's worldwide bestseller Leading Change. Building off of Kotter's revolutionary eight-step process, this book vividly illustrates how large-scale change can work. With real-life stories of people in organizations, the authors show how teams and individuals get motivated and activated to overcome obstacles to change—and produce spectacular results. Kotter and Cohen argue that change initiatives often fail because leaders rely too exclusively on data and analysis to get buy-in from their teams instead of creatively showing or doing something that appeals to their emotions and inspires them to spring into action. They call this the see-feel-change dynamic, and it is crucial for the success of any true organizational transformation. Refreshingly clear and eminently practical, The Heart of Change is required reading for anyone facing the challenges inherent in leading change.

Stand Firm Jun 13 2022 The pace of modern life is accelerating. To keep up, we must keep on moving and adapting – constantly striving for greater happiness and success. Or so we are told. But the demands of life in the fast lane come at a price: stress, fatigue and depression are at an all-time high, while our social interactions have become increasingly self-serving and opportunistic. How can we resist today's obsession with introspection and self-improvement? In this witty and bestselling book, Danish philosopher and psychologist Svend Brinkmann argues that we must not be afraid to reject the self-help mantra and 'stand firm'. The secret to a happier life lies not in finding your inner self but in coming to terms with yourself in order to coexist peacefully with others. By encouraging us to stand firm and get a foothold in life, this vibrant anti-self-help guide offers a compelling alternative to life coaching, positive thinking and the need always to say 'yes!'

Duped! Aug 04 2021 As long as there have been people willing to believe

the unbelievable, people have been duped. In the best storytelling tradition, readers can follow the tales of: □ How the Nazis planned to destroy the British economy during World War II by flooding the world with millions of fake British banknotes □ How an infamous radio broadcast had American citizens convinced that Martians were invading the country □ How one of the 20th century's most elaborate scams — conducting tours to the lost Tasaday tribe in the Philippines — fooled the world's media and top scientists for nearly a decade. The author's fascination with the boldness and inventiveness of the swindlers, as well as their motives, makes for a compelling read. The stories instill a sense of disbelief, amusement and even grudging admiration for these ingenious scam artists who often (but not always) meet a bad end. Accompanied by graphic-style artwork, each tale offers a great escape for readers drawn to true stories presented in a lively fashion.

Dirty Kids Jan 21 2023 “[A] fascinating debut . . . documenting the lives of teenage runaways who traverse America as part of a freewheeling counterculture.” —Publishers Weekly At age twenty-two, writer Chris Urquhart left a life of middle-class comfort to document the lives of these young nomads for a magazine feature. Captivated, she followed them for three more years. In honest prose interspersed with photographs portraying the grimy beauty of nomadic life, *Dirty Kids* tells the story of how Urquhart lived alongside runaways, crust punks, and dropouts, hippies, Deadheads, and Rainbows in an attempt to belong in their world. But the road took its toll, and along the way, Urquhart found suffering alongside the freedom—mental health issues, substance abuse, and fears of violence marred her journey. Despite all that, the warm, welcoming family of travelers and their radically alternative culture of sharing, generosity, and non-capitalistic collaboration forever changed her outlook on life and her understanding of freedom. “An illuminating and memorable twenty-first-century journey. From this angle, Burning Man looks bourgeois.” —Ted Conover, National Book Critics Circle Award-winning author of *Newjack: Guarding Sing Sing* “Brings readers face-to-face with the bliss of freedom, the terror of loneliness, and the hard but true realities of life on the road—and on the rails—in modern day Babylon.” —Peter Connors, author of *Growing Up Dead: The Hallucinated Confessions of a Teenage Deadhead* “Urquhart shows us a seldom-glimpsed slice of America with poetic flair and journalistic objectivity.” —Ken Ilgunas, award-winning author of *Trespassing Across America*

Student Power, Democracy and Revolution in the Sixties Apr 11 2022 This book uses humour and personal insight to weave tales, analysis, and history in this insider account of an enlightened populist student movement. The students involved took their citizenship seriously by asking the authorities

who they were benefiting and who they were ignoring. They altered the prevailing culture by asking, "why not do something different"? Unlike other books on the Sixties, this book shows how predominantly working middle-class white students in a very conservative region initiated radical changes. They ushered in a new era of protecting women and minorities from discriminatory practices. This vivid account of bringing conservative students around to support social justice projects illustrates how step-by-step democratic change results in reshaping a nation's character. Across the globe, students are seeking change. In the US, over 80 percent believe they have the power to change the country, and 60 percent think they're part of that movement. This book's portrayal of such efforts in the Sixties will inspire and guide those students.

Twenty Years of Life Oct 06 2021 In *Twenty Years of Life*, Suzanne Bohan exposes the ugly truth that health is largely determined by zip code. Life expectancies in wealthy versus poor neighborhoods can vary by as much as twenty years. Bohan chronicles a bold experiment to challenge that inequity. The California Endowment, one of the nation's largest health foundations, is upending the old-school, top-down charity model and investing \$1 billion over ten years to help distressed communities advocate for their own interests. With compassion and insight, Bohan shares stories of students and parents, former street shooters, urban farmers, and a Native American tribe who are tapping into their latent political power to make their neighborhoods healthier. Their stories will fundamentally change how we think about the root causes of disease and the prospects for healing.

Unstuck Jul 15 2022 Back to the Bible Leaders Show Readers How to Cultivate a Thriving Walk with Christ When asked about their relationship with God, many believers say the Christian life "isn't working" or that they want "more than an okay walk." After conducting extensive survey research on what it takes to grow spiritually, Back to the Bible leaders Cole and Ross offer solid evidence for the power of Bible engagement. But more than statistics, Unstuck gives readers a practical and proven way to encounter Scripture daily, connect with God, and revitalize an otherwise listless faith. This book is part of a strategic ministry plan developed by Back to the Bible, which has been on the air for more than 70 years. Through multimedia products and services, the ministry is walking alongside individuals and churches, helping Christ-followers tap into and live out God's Word.

The Wake Up Oct 18 2022 This informative guide helps allies who want to go beyond rigid Diversity and Inclusion best practices, with real tools to go

from good intentions to making meaningful change in any situation or venue. 2022 NAUTILUS BOOK AWARDS GOLD WINNER 2022 NATIONAL ANTIRACIST BOOK FESTIVAL SELECTION 2021 PORCHLIGHT PERSONAL DEVELOPMENT & HUMAN BEHAVIOR BOOK OF THE YEAR As we become more aware of various social injustices in the world, many of us want to be part of the movement toward positive change. But sometimes our best intentions cause unintended harm, and we fumble. We might feel afraid to say the wrong thing and feel guilt for not doing or knowing enough. Sometimes we might engage in performative allyship rather than thoughtful solidarity, leaving those already marginalized further burdened and exhausted. The feelings of fear, insecurity, inadequacy are all too common among a wide spectrum of changemakers, and they put many at a crossroads between feeling stuck and giving up, or staying grounded to keep going. So how can we go beyond performative allyship to creating real change in ourselves and in the world, together? In *The Wake Up*, Michelle Mijung Kim shares foundational principles often missing in today's mainstream conversations around "diversity and inclusion," inviting readers to deep dive into the challenging and nuanced work of pursuing equity and justice, while exploring various complexities, contradictions, and conflicts inherent in our imperfect world. With a mix of in-the-trenches narrative and accessible unpacking of hot button issues—from inclusive language to representation to "cancel culture"—Michelle offers sustainable frameworks that guide us how to think, approach, and be in the journey as thoughtfully and powerfully as possible. *The Wake Up* is divided into four key parts: Grounding: begin by moving beyond good intentions to interrogating our deeper "why" for committing to social justice and uncovering our "hidden stories." Orienting: establish a shared understanding around our historical and current context and issues we are trying to solve, starting with dismantling white supremacy. Showing Up: learn critical principles to approach any situation with clarity and build our capacity to work through complexity, nuance, conflict, and imperfections. Moving Together: remember the core of this work is about human lives, and commit to prioritizing humanity, healing, and community. *The Wake Up* is an urgent call for us to move together while seeing each other's full and expansive humanity that is at the core of our movement toward justice, healing, and freedom.
