Abbey Road To Ziggy Stardust Ken Scott

Abbey Road To Ziggy Stardust Ken Scott

Abbey Road to Ziggy Stardust Ken Scott, Bobby Owsinski, 2012 Shares memories of Ken Scott's days working as a producer with the Beatles, David Bowie, Elton John, Pink Floyd, Jeff Beck, Duran Duran, The Rolling Stones, Lou Reed, America, Devo, Kansas, The Tubes, Missing Persons, Mahavishnu Orchestra, Billy Cobham, Dixie Dregs, and Stanley Clarke **Here, There and Everywhere** Geoff Emerick, Howard Massey, 2006-03-16 An all access firsthand account of the life and music of one of history's most beloved bands from an original mastering engineer at Abbey Road. Geoff Emerick became an assistant engineer at the legendary Abbey Road Studios in 1962 at age fifteen and was present as a new band called the Beatles recorded their first songs. He later worked with the Beatles as they recorded their singles "She Loves You" and "I Want to Hold Your Hand" the songs that would propel them to international superstardom. In 1964 he would witness the transformation of this young and playful group from Liverpool into professional polished musicians as they put to tape classic songs such as "Eight Days a Week" and "I Feel Fine." Then in 1966 at age nineteen Geoff Emerick became the Beatles' chief engineer, the man responsible for their distinctive sound as they recorded the classic album *Revolver* in which they pioneered innovative recording techniques that changed the course of rock history. Emerick would also engineer the monumental *Sgt. Pepper and Abbey Road* albums considered by many the greatest rock recordings of all time. In *Here, There and Everywhere* he reveals the creative process of the band in the studio and describes how he achieved the sounds on their most famous songs. Emerick also brings to light the personal dynamics of the band from the relentless and increasingly mean spirited competition between Lennon and McCartney to the infighting and frustration that eventually brought a bitter end to the greatest rock band the world has ever known. *Sound Man* Glyn Johns, 2015-11-24 A life recording hits with the Rolling Stones, the Who, Led Zeppelin, the Eagles, Eric Clapton, the Faces, *Jacket* **Making Records** Phil Ramone, 2007-10-09 Sinatra, Streisand, Dylan, Pavarotti, McCartney, Sting, Madonna. What do these musicians have in common besides their super stardom? They have all worked with legendary music producer Phil Ramone. For almost five decades Phil Ramone has been a force in the music industry. He has produced records and collaborated with almost every major talent in the business. There is a craft to making records and Phil has spent his life mastering it. For the first time ever he shares the secrets of his trade. *Making Records* is a fascinating look behind the glass of a recording studio. From Phil's exhilarating early days recording jazz and commercial jingles at A & R to his first studio and eventual legendary producer status, Phil allows you to sit in on the sessions that created some of the most memorable music of the 20th century including Frank Sinatra's *Duets* album, Bob Dylan's *Blood on the Tracks*, Ray Charles's *Genius Loves Company* and Paul Simon's *Still Crazy After All These Years*. In addition to being a ringside seat for contemporary popular music history, *Making Records* is an unprecedented tutorial on the magic behind what music producers and engineers do. In these pages Phil offers a rare peek inside the way music is made, illuminating the

creative thought processes behind some of the most influential sessions in music history This is a book about the art that is making records the way it began the way it is now and everything in between **The Mixing Engineer's Handbook** Bobby Owsinski,2022-03-15 Learning the art of mixing has never been easier For more than two decades The Mixing Engineer s Handbook has been the best selling and most respected resource on the art of music mixing for seasoned professionals and enthusiastic beginners alike Today s home studio is just as powerful as any commercial studio but it s the techniques that the top mixers use that separates their work from what most musicians songwriters producers or artists can produce without that knowledge In this fully updated 5th edition of the Handbook you ll find all the proven fundamental and advanced techniques that the pros use to help you take your music to another level Guaranteed to help you get a great mix regardless of your gear playback environment or the kind of music you work on you ll find your mixing chops getting better with each chapter The book still contains one of its best loved features interviews with some of the music industry s most successful and celebrated audio mixers from all different music genres The new edition contains four brand new interviews with some of the industry s biggest hit makers along with access to a bonus website with 12 additional interviews not found in the book Learn the art of mixing from start to finish by using the tips and techniques from the pros with The Mixing Engineer s Handbook 5th Edition **Blue Note** Graham Marsh,Glyn Callingham,Felix Cromey,1991 Music lovers have been attracted to the distinct style and sleek sound of jazz since its birth at the turn of the century The album covers collected in this comprehensive volume under the well known Blue Note record label embody classic design and pioneering typography Two hundred color photographs of the album sleeves an informative history of the Blue Note record company and a portrait of Reid Miles who designed nearly 500 album covers capture the integrity of this distinctive record label Sophisticated jazz connoisseurs and young listeners alike as well as those with an interest in style and graphic design will enjoy this exciting book of jazz memorabilia [Making Rumours](#) Ken Caillat,Steve Stiefel,2012-03-05 Inside the making of one of the biggest selling albums of all time Fleetwood Mac s Rumours Fleetwood Mac s classic 1977 Rumours album topped the Billboard 200 for thirty one weeks and won the Album of the Year Grammy More recently Rolling Stone named it the twenty fifth greatest album of all time and the hit TV series Glee devoted an entire episode to songs from Rumours introducing it to a new generation Now for the first time Ken Caillat the album s co producer tells the full story of what really went into making Rumours from the endless partying and relationship dramas to the creative struggles to write and record You Make Loving Fun Don t Stop Go Your Own Way The Chain and other timeless tracks Tells the fascinating behind the music story of the making of Fleetwood Mac s Rumours written by the producer who saw it all happen Filled with new and surprising details such as Stevie Nicks and Lindsey Buckingham s screaming match while recording You Make Loving Fun how the band coped with the pressures of increasing success how the master tape nearly disintegrated and the incredible attention paid to even the tiniest elements of songs from Lindsey playing a chair to Mick breaking glass Includes eighty black and white
