Harmony and Symmetry. Celestial regularities shaping human culture. Gudrun Wolfschmidt, 2020-12-29 For the SEAC conference in Graz 2018 and for the Proceedings the motto Harmony and symmetry celestial regularities shaping human culture was chosen There were at least two strong reasons for this motto First the connection between astronomy and human culture has an extremely long tradition and one of its absolute high points is the astronomer Johannes Kepler who spent his entire life searching for the relationship between the movement of heavenly lights and ideas about harmonious structures and regular bodies Kepler started his scientific career and authored his first book the *Mysterium cosmographicum* in Graz Kepler argued in his first publication for the twelve fold partition of the zodiac with arguments derived from the monochord anticipating the procedure he developed in his *Harmonices mundi* Five contributions deal with Kepler including the harmony in musical theory The second reason was the Eggenberg Castle This palace built for the nobleman Hans Ulrich von Eggenberg 1568-1634 is a remarkable piece of symmetry and harmony and an outstanding example of a strong connection between astronomy and culture Seven contributions have the topic astronomy astrology and architecture with the emphasis on astronomical orientation symmetry and harmony in the Middle Ages and Renaissance The Proceedings with ten chapters and 44 contributions range besides the mentioned Middle Ages and beyond and Johannes

Kepler from Prehistoric Times Bronze and Iron Age Mythology and Ethnoastronomy Babylonian Astronomy Greek and Roman Astronomy Meso and South America Middle East and Eastern Asia and Computational Astronomy The celestial sphere regarded as the sky of astronomy as well as the heaven of divine numina from Antiquity to Copernicus and Kepler was equated with symmetry harmony and beauty Until today this has been reflected in the structure of cultural creations from architectural objects to musical forms

Duffy, 2016-04-19 The rapid introduction of sophisticated computers services telecommunications systems and manufacturing systems has caused a major shift in the way people use and work with technology It is not surprising that computer aided modeling has emerged as a promising method for ensuring products meet the requirements of the consumer The Handbook of D

Gesture Steven G. McCafferty, Gale Stam, 2009-06-02 This book demonstrates the vital connection between language and gesture and why it is critical for research on second language acquisition to take into account the full spectrum of communicative phenomena The study of gesture in applied linguistics is just beginning to come of age This edited volume the first of its kind covers a broad range of concerns that are central to the field of SLA The chapters focus on a variety of second language contexts including adult classroom and naturalistic learners and represent learners from a variety of language and cultural backgrounds

Gesture Second Language Acquisition and Classroom Research is organized in five sections Part I *Gesture and its L2 Applications* provides both an overview of gesture studies and a review of the L2 gesture research Part II *Gesture and Making Meaning in the L2* offers three studies that all take an explicitly sociocultural view of the role of gesture in SLA Part III *Gesture and Communication in the L2* focuses on the use and comprehension of gesture as an aspect of communication Part IV *Gesture and Linguistic Structure in the L2* addresses the relationship between gesture and the acquisition of linguistic features and how gesture relates to proficiency Part V *Gesture and the L2 Classroom* considers teachers gestures students gestures and how students interpret teachers gestures Although there is a large body of research on gesture across a number of disciplines including anthropology communications psychology sociology and child development to date there has been comparatively little investigation of gesture within applied linguistics This volume provides readers unfamiliar with L2 gesture studies with a powerful new lens with which to view many aspects of language in use language learning and language teaching

How to Draw Human Figures Jasmine Norris,2016-06-13 How to Draw Human Figures Ultimate guide on how to draw people Individuals simply beginning are frequently bewildered by the subject of how to draw individuals The type of a man wearing garments can be really perplexing and this goes considerably more for the human body itself We should accept you stay there with a charcoal and an unfilled sheet of drawing paper before you and in addition a figure of a human with garments Next you ponder where do I begin for the love of God How would I start Looking at the figure the undertaking can appear to be entirely overwhelming Along these lines we should begin with an essential standard Any drawing can be taken back to a couple of segments On account of a human figure the body can be isolated into a few sections Simply solicit yourself where might the center from the body be The answer is straightforward at the waistline It s vital to get the essential extents right to start with and not to include point of interest in the first place Just in the event that you are certain that the extents are about right would you be able to include just little detail later You can help that procedure considerably shutting your eyes when looking at your model Along these lines you concentrate on the wide shapes and not on the points of interest The accompanying step is to attempt and measure the head from the jaw to the top The body is around seven times bigger than the head How about we recap you ought to now have a blemish on your drawing paper where the base of the feet the waistline the button and the highest point of the head are Presently you can audit them and choose if the extents look alright Look from your drawing to the figure and back once more Do it very quick You will check whether it the extents aren t precisely right All things considered transform them As I said the whole head is around one seventh of the length of the body These tenets coincidentally ought to be utilized as a fundamental rule just not any guideline that is cut in stone Simply look from your drawing to the figure and back once more and see what s there That is the way to getting the right estimations Next you can make marks for other key parts of the body Obviously there are the legs and arms At the point when the arms are casual the fingers are approximately five head down and the knees around six so put marks there Begin with basic stances on the off chance that you begin with complex stances you will get dampened quick Work on drawing individuals with straightforward stances and once you get to be alright with that you will have the capacity to handle more troublesome ones effortlessly Here is a preview of what you ll learn How to draw a girl exercising How to draw a girl sitting How to draw a girl standing How to draw a guy How to draw a man Download your copy of How to Draw Human Figures by scrolling up and clicking Buy Now With 1 Click button

Computer Vision -- ACCV 2009 Hongbin Zha,Rin-ichiro Taniguchi,Stephen Maybank,2010-05-09 It givesus

great pleasure to present the proceedings of the 9th Asian Conference on Computer Vision ACCV 2009 held in Xi'an, China in September 2009. This was the first ACCV conference to take place in mainland China. We received a total of 670 full submissions, which is a new record in the ACCV series. Overall, 35 papers were selected for oral presentation and 131 as posters, yielding acceptance rates of 5.2% for oral, 19.6% for poster, and 24.8% in total. In the paper reviewing, we continued the tradition of previous ACCVs by conducting the process in a double-blind manner. Each of the 33 Area Chairs received a pool of about 20 papers and nominated a number of potential reviewers for each paper. Then Program Committee Chairs allocated at least three reviewers to each paper, taking into consideration any conflicts of interest and the balance of loads. Once the reviews were finished, the Area Chairs made summary reports for the papers in their pools based on the reviewers' comments and on their own assessments of the papers.
