American Motors was the little company that made a big impact. Maker of the Rambler family car, the Kenosha-based AMC offered an antidote to the excess of Detroit's Big 3. But when America decided it wanted sporty, rather than econocars, AMC got groovy with the Javelin, AMX, Scrambler and Rebel Machine. American Motors was a proven performer in showrooms and on the track, with success in drag and road course racing. However, through it all came solid Rambler value, and a different approach from Detroit. An accent on consumer protection, along with brand label special editions. And when it came to blue sky thinking, AMC surpassed all with the Gremlin and Pacer small cars. Off road, Kenosha truly made Jeep 'The One & Only,' popularizing the brand and making it the sales success it is today. Beyond that, AMC created America's first crossover, the Eagle. It all proved that America's smallest ... was its biggest surprise!

The Crisis, founded by W.E.B. Du Bois as the official publication of the NAACP, is a journal of civil rights, history, politics, and culture and seeks to educate and challenge its readers about issues that continue to plague African Americans and other communities of color. For nearly 100 years, The Crisis has been the magazine of opinion and thought leaders, decision makers, peacemakers and justice seekers. It has chronicled, informed, educated, entertained and, in many instances, set the economic, political and social agenda for our nation and its multi-ethnic citizens. Available again! This highly illustrated book presents the history of one of America's greatest automobiles, the Chrysler 300. Every model's specifications and role in Chrysler history is examined in detail. Includes sales and production records. Though American Motors never approached the size of Detroit's Big Three, it produced a long series of successful cars that were distinctive, often innovative and in many cases influential. This history examines AMC's cars from the company's formation in 1954 through its absorption by Chrysler in 1987. The Gremlin, Pacer and Eagle vehicles are examined in detail, as are the AMC custom cars of George Barris and Carl Green. The text details AMC's 1980s involvement with the French firm Renault and the design legacy of that joint venture, which includes the Hummer. The evolution of Jeep is covered from the 1960s through the 2000s. Features include some 225 photographs; a listing of AMC / Rambler clubs, organizations and business entities, with contact details; tables of detailed specifications and performance data; data on technical devices, trim packages and all model variations; a comprehensive account of AMC / Rambler appearances in film, television and cartoons. Looks at the history of the Chrysler Corporation through a collection of vintage photographs. This book chronicles over 75 years of engine design, development, and production at Chrysler Corporation. Every production engine built by Chrysler is covered in detail, with descriptions, pictures, specifications, and timelines provided for each. In addition to the specifications, the book also looks at the personalities behind the engines'

development, and the vehicles in which the engines were used. In recent years, Chrysler has made waves with a series of dramatic new show cars, exciting production vehicles like the Prowler and Viper, and its mega-merger with German juggernaut Daimler-Benz. It is generally accepted that Chrysler is the most forward-thinking of the Big Three American automakers, yet the company also has a wonderfully compelling past. Just in time to mark Chrysler's 75th anniversary, this beautifully illustrated history takes readers on a journey that spans the company's genesis in the 1920s to present. Marvelous archival black-and-white photography is accompanied by nostalgic period color imagery, print ads, and new color photography of classics. The story includes model from Dodge, Plymouth, Imperial, and DeSoto, while sidebars highlight key figures and stunning feats of engineering and styling.
