Handbook of Health Social Work Sarah Gehlert, Teri Browne, 2006-03-20 The Handbook of Health Social Work provides a comprehensive and evidence based overview of contemporary social work practice in health care Written from a wellness perspective the chapters cover the spectrum of health social work settings with contributions from a wide range of experts The resulting resource offers both a foundation for social work practice in health care and a guide for strategy policy and program development in proactive and actionable terms Three sections present the material

The Foundations of Social Work in Health Care provides information that is basic and central to the operations of social workers in health care including conceptual underpinnings the development of the profession the wide array of roles performed by social workers in health care settings ethical issues and decision making in a variety of arenas public health and social work health policy and social work and the understanding of community factors in health social work Health Social Work Practice A Spectrum of Critical Considerations delves into critical practice issues such as theories of health behavior assessment effective communication with both clients and other members of health care teams intersections between health and mental health the effects of religion and spirituality on health care family and health sexuality in health care and substance abuse Health Social Work Selected Areas of Practice presents a range of examples of social work practice including settings that involve older adults nephrology oncology chronic diseases such as diabetes heart disease and HIV AIDS genetics end of life care pain management and palliative care and alternative treatments and traditional healers The

first book of its kind to unite the entire body of health social work knowledge the Handbook of Health Social Work is a must read for social work educators administrators students and practitioners *Urban Regeneration in the UK* Andrew Tallon, 2009-08-21 Exploring the streets of London Manchester Belfast Edinburgh or Cardiff one cannot help but notice the striking transformations taking place in the urban landscapes This prominent regeneration of urban areas in the UK and around the world has become an increasingly important issue amongst governments and populations The growing concern has been a result of the impacts of the decline of cities since the collapse of manufacturing industries and the heightening of global competition A range of innovative approaches to tackle urban problems have been taken over many decades to attempt to regenerate the fortunes of towns and cities across the UK This text provides an accessible yet critical synthesis of urban regeneration in the UK incorporating key policies approaches issues and debates The central objective of the book is to place the historical and contemporary regeneration agenda into context Section one sets up the conceptual and policy framework for urban regeneration in the UK Section Two traces policies that have been adopted by central government to influence the social economic and physical development of cities including early municipal interventions in the late nineteenth century community focused urban policies of the late 1960s entrepreneurial property led regeneration of the 1980s and competition for urban funds in the 1990s The penultimate section illustrates the key thematic policies and strategies that have been pursued by cities themselves focusing particularly on improving economic competitiveness and tackling social disadvantage These approaches are contextualized by discussions covering for example urban competitiveness policies and the focus on sustainable urban regeneration The final section summarizes key issues and debates facing urban regeneration and speculates upon future directions *Urban Regeneration in the UK* blends the approaches taken by central government programmes and cities themselves in the regeneration process The latest ideas and examples from across disciplines and across the UK's urban areas are illustrated This book provides a comprehensive and up to date synthesis that will fill a significant gap in the current literature on regeneration and will be a tool for students as well as a seminal read for practitioners and researchers *Remaking Regional Economies* Susan Christopherson, Jennifer Clark, 2007-09-26 Since the early 1980s the region has been central to thinking about the emerging character of the global economy In fields as diverse as business management industrial relations economic geography sociology and planning the regional scale has emerged as an organizing concept for interpretations of economic change This book is both a critique of the new regionalism and a return to the regional question including all of its concerns with equity and uneven development It will challenge researchers and students to consider the region as a central scale of action in the global economy At the core of the book are case studies of two industries that rely on skilled innovative and flexible workers the optics and imaging industry and the film and television industry Combined with this is a discussion of the regions that constitute their production centers The authors intensive research on photonics and entertainment media firms both large and small leads them to question some basic

assumptions behind the new regionalism and to develop an alternative framework for understanding regional economic development policy Finally there is a re examination of what the regional question means for the concept of the learning region This book draws on the rich contemporary literature on the region but also addresses theoretical questions that preceded the new regionalism It will contribute to teaching and research in a range of social science disciplines

Causes of War Jack S. Levy, William R. Thompson, 2011-09-15 Written by leading scholars in the field *Causes of War* provides the first comprehensive analysis of the leading theories relating to the origins of both interstate and civil wars Utilizes historical examples to illustrate individual theories throughout Includes an analysis of theories of civil wars as well as interstate wars one of the only texts to do both Written by two former International Studies Association Presidents

Near Eastern Archaeology Suzanne Richard, 2003 Annotation Filling a gap in classroom texts more than 60 essays by major scholars in the field have been gathered to create the most up to date and complete book available on Levantine and Near Eastern archaeology The book is divided into two sections Theory Method and Context and Cultural Phases and Topics which together provide both methodological and areal coverage of the subject The text is complemented by many line drawings and photographs Includes a foreword by W G Dever

Ecoregions Robert G. Bailey, 2014-04-03 Global warming and human driven impacts are changing the World s ecological zones This book applies the principles described in Bailey s *Ecosystem Geography From Ecoregions to Sites* 2nd ed Springer 2009 1st ed 1996 to describe and characterize the major terrestrial and aquatic ecological zones of the Earth Bailey s system for classifying these zones has been adopted by major organizations such as the U S Forest Service and The Nature Conservancy and this book is a significant contribution to a long tradition of classifying and studying the world s ecological regions or ecoregions It includes two color maps that show the major ecoregions of the continents and oceans Also included are 106 illustrations with 55 in full color A new chapter on mountains is included There are new sections that address concerns about how eco regions are changing under the relentless influence of humans and climate change Another new feature is the discussion of using eco regional patterns to transfer research results and select sites for detecting climate change effects on ecosystem distribution Use of ecoregional patterns to design monitoring networks and sustainable landscapes Fire regimes in different regional ecosystems and their management implications
