Left for Dead in the Outback Aug 26 2023 An extraordinary true story of abduction and survival, told vividly and with candour. Both shocking and inspiring, *Left for Dead in the Outback* is the gripping tale of how one man endured a terrible ordeal and lived to tell the tale. "No shoes, no vehicle, no food, no water and no idea. I'd always been one of those blokes who ragged on people who found themselves lost in the desert. Now I was one of those people. It was hard, desolate country for a man all alone in bare feet. Nevertheless, I started to walk. And walk. The more I walked, I figured, the less distance I'd have to travel to get found. It was faulty logic, but it was the best I could come up with." In April 2006 the news broke of an amazing feat of survival by a white man in one of the most inhospitable areas of Australia. Ricky Megree was found sheltering by a dam on a remote cattle property in the Northern Territory. After being abducted on the Buntine Highway, drugged, then left for dead, Ricky had walked for ten days in bare feet through unforgiving terrain in blistering heat. Stumbling upon a dam, he set up camp there and survived for almost three months on leeches, grasshoppers, frogs and plants, losing 60 kg in the process. In *Left for Dead in the Outback*, Ricky Megree gives a full and frank account of his abduction and survival, for the first time since his extraordinary rescue. Vividly told, it's a gripping yet inspiring story of how one man endures a terrible ordeal and lives to tell the tale. "Seventy-one days lost in the desert; it sounds like an amazing tale of survival against the odds. And it is." -- Real Travel "Loaded with brutal honesty." -- Time Out "This is a detailed page-turner of the will to live that pulls no punches; honest and readable, vicarious and visceral." -- Bookseller & Publisher "The least-PC book you will ever encounter. Hard-hitting but inspiring." -- MostlyFood

The Red Circle Nov 16 2022 Explosive, revealing, and intelligent, The Red Circle provides a uniquely personal glimpse into one of the most challenging and secretive military training courses in the world. Now including an excerpt from The Killing School: Inside the World's Deadliest

Sniper Program BEFORE HE COULD FORGE A BAND OF ELITE WARRIORS... HE HAD TO BECOME ONE HIMSELF. Brandon Webb's experiences in the world's most elite sniper corps are the stuff of legend. From his grueling years of training in Naval Special Operations to his combat tours in the Persian Gulf and Afghanistan, *The Red Circle* provides a rare and riveting look at the inner workings of the U.S. military through the eyes of a covert operations specialist. Yet it is Webb's distinguished second career as a lead instructor for the shadowy "sniper cell" and Course Manager of the Navy SEAL Sniper Program that trained some of America's finest and deadliest warriors—including Marcus Luttrell and Chris Kyle—that makes his story so compelling. Luttrell credits Webb's training with his own survival during the ill-fated 2005 Operation Redwing in Afghanistan. Kyle went on to become the U.S. military's top marksman, with more than 150 confirmed kills. From a candid chronicle of his student days, going through the sniper course himself, to his hair-raising close calls with Taliban and al Qaeda forces in the northern Afghanistan wilderness, to his vivid account of designing new sniper standards and training some of the most accomplished snipers of the twenty-first century, Webb provides a rare look at the making of the Special Operations warriors who are at the forefront of today's military.

Another Fine Mess May 30 2021 Tim Moore - indefatigable travelling everyman – switches two wheels for four as he journeys across Trumpland in an original Model T Ford. 'Alarminglly full of incident, very funny – even mildly transformative' Daily Mail Lacking even the most basic mechanical knowhow, Tim Moore sets out to cross Trumpland USA in an original Model T Ford. Armed only with a fan belt made of cotton, wooden wheels and a trunkload of 'wise-ass Limey liberal gumption', his route takes him exclusively through Donald-voting counties, meeting the everyday folks who voted red along the way. He meets a people defined by extraordinary generosity, willing to shift heaven and earth

to keep him on the road. And yet, this is clearly a nation in conflict with itself: citizens 'tooling up' in reaction to ever-increasing security fears; a healthcare system creaking to support sugar-loaded soda lovers; a disintegrating rust belt all but forgotten by the warring media and political classes. With his trademark blend of slapstick humour, affable insight and butt-clenching peril, Tim Moore invites us on an unforgettable road trip through America. Buckle up!

Hell's Angels Mar 21 2023 Gonzo journalist and literary roustabout Hunter S. Thompson flies with the angels—Hell's Angels, that is—in this short work of nonfiction. "California, Labor Day weekend . . . early, with ocean fog still in the streets, outlaw motorcyclists wearing chains, shades and greasy Levis roll out from damp garages, all-night diners and cast-off one-night pads in Frisco, Hollywood, Berdoo and East Oakland, heading for the Monterey peninsula, north of Big Sur. . . The Menace is loose again." Thus begins Hunter S. Thompson's vivid account of his experiences with California's most notorious motorcycle gang, the Hell's Angels. In the mid-1960s, Thompson spent almost two years living with the controversial Angels, cycling up and down the coast, reveling in the anarchic spirit of their clan, and, as befits their name, raising hell. His book successfully captures a singular moment in American history, when the biker lifestyle was first defined, and when such countercultural movements were electrifying and horrifying America. Thompson, the creator of Gonzo journalism, writes with his usual bravado, energy, and brutal honesty, and with a nuanced and incisive eye; as *The New Yorker* pointed out, "For all its uninhibited and sardonic humor, Thompson's book is a thoughtful piece of work." As illuminating now as when originally published in 1967, *Hell's Angels* is a gripping portrait, and the best account we have of the truth behind an American legend.

Zero Hour Jun 23 2023 It is called zero point energy, and it really exists - a state of energy contained in all matter everywhere, and thus all but unlimited. Nobody has ever found a way to tap into it, however - until one scientist discovers a way. Or at least he thinks he has. The problem is, his machines also cause great earthquakes, even fissures in tectonic plates. One machine is buried deep underground; the other is submerged in a vast ocean trench. If Kurt Austin and Joe Zavala and the rest of the NUMA team aren't able to find and destroy them, and soon, the world will be on the threshold of a new era of earth tremors and unchecked volcanism.

Being tall coincides with considerable professional, athletic, and social benefits. Yet there are also some problems, and these raise some questions. For instance, if longer levers and more cells really are behind increased risk of injuries and cancer, then how is it that giraffes get by? Baz Luhrmann Apr 09 2022 Though he has made only five films in two decades—Strictly Ballroom, William Shakespeare's *Romeo + Juliet*, and the Oscar-nominated films *Moulin Rouge!*, *Australia*, and *The Great Gatsby*—Australian writer-director Baz Luhrmann is an internationally known brand name. His name has even entered the English language as a verb, as in "to Baz things up," meaning "to decorate them with an exuberant flourish." Celebrated by some, loathed by others, his work is underscored by what has been described as "an aesthetic of artifice" and is notable for both its glittering surfaces and recurring concerns. In this collection of interviews, Luhrmann discusses his methods and his motives, explaining what has been important to him and his collaborators from the start and how he has been able to maintain an independence from the studios that have backed his films. He also speaks about his other artistic endeavors, including stage productions of *La Bohème* and *A Midsummer Night's Dream*, and his wife and collaborative partner Catherine Martin, who has received two Academy Awards for her work with Luhrmann.

Missouri Landscapes Feb 05 2022 "In this magnificent book, Oliver Schuchard provides more than sixty-five exquisite black-and-white photographs spanning his thirty-eight years of photography. In addition, he explains the aesthetic rationale and techniques he used in order to produce these photographs, emphasizing the profound differences between, yet necessary interdependence of, craft and content. Although Schuchard believes that craft is important, he maintains that the idea behind the photograph and the emotional content of the image are equally vital and are, in fact, functions of one another. The author also shares components of his life experience that he believes helped shape his development as an artist and a teacher. He chose the splendid photographs included in this book from among nearly 5,000 negatives that had been exposed all over the world, from Missouri to Maine, California, Alaska, Colorado, France, Newfoundland, and Hawaii, among many other locations. Approximately 250 negatives survived the initial review, and each of those was printed before a final decision was made on which photographs were to be featured in the book. The final choices are representative of Schuchard's work and serve to substantiate his belief that craft, concept, and self must be fully understood and carefully melded for a good photograph to occur. This amazing work by award-winning photographer Oliver Schuchard will be treasured by professional and amateur photographers alike, as well as by anyone who simply enjoys superb photography."--Publishers website.
