

A large gorilla stands in the foreground, looking towards the viewer. The background features a vast, hazy landscape with rolling hills and mountains under a soft, blue sky. The scene is framed by the branches and leaves of a tree in the upper corners.

# Kingdom Under Glass A Tale Of Obsession Adventure And One Mans Quest To Preserve The Worlds Great Animals Jay Kirk

**Kingdom Under Glass** Jay Kirk,2010-10-26 A sweeping historical narrative of the life of Carl Akeley the famed explorer and taxidermist who changed the way Americans viewed the conservation of the natural world During the golden age of safaris in the early twentieth century one man set out to preserve Africa s great beasts In this epic account of an extraordinary life lived during remarkable times Jay Kirk follows the adventures of the brooding genius who revolutionized taxidermy and created the famed African Hall we visit today at New York s Museum of Natural History The Gilded Age was drawing to a close and with it came the realization that men may have hunted certain species into oblivion Renowned taxidermist Carl Akeley joined the hunters rushing to Africa where he risked death time and again as he stalked animals for his dioramas and hobnobbed with outsized personalities of the era such as Theodore Roosevelt and P T Barnum In a tale of art science courage and romance Jay Kirk resurrects a legend and illuminates a fateful turning point when Americans had to decide whether to save nature to destroy it or to just stare at it under glass

**The Planning Moment** Sarah Blacker,Emily Brownell,Anindita Nag,Martina Schlünder,Helen Verran,Sarah Van Beurden,2024-05-07 Empires and their aftermaths were massive planning institutions in the past two hundred years the natural and social sciences emerged at least in part as modes of knowledge production for imperial planning Yet these connections are frequently under emphasized in the history of science and its corollary fields The Planning Moment explores the myriad ways plans and planning practices pervade recent global history The book is built around twenty seven brief case studies that explore the centrality of planning in colonial and postcolonial environments relationships and contexts through a range of disciplines the history of science science and technology studies colonial and postcolonial studies urban studies and the history of knowledge If colonialism made certain landscapes populations and institutions legible while obscuring others The Planning Moment reveals the frequently disruptive and violent processes of erasure in imperial planning by examining how common sense was produced and how the intransigence of planning persists long after decolonization In recognizing the resistance and subversion that often met colonial plans the book makes visible a range of strategies and techniques by which planning was modified and reappropriated and by which decolonial futures might be imagined Contributors Itty Abraham Benjamin Allen Sarah Blacker Emily Brownell Lino Camprub John DiMoia Mona Fawaz Lilly Irani Chihyung Jeon Robert Kett Monika Kirloskar Steinbach Karen McAllister Laura Mitchell Gregg Mitman Aaron Moore Nada Moumtaz Tahani Nadim Anindita Nag Ra l Necochea L pez Tamar Novick Benjamin Peters Juno Salazar Parre as Martina Schl nder Sarah Van Beurden Helen Verran Ana Carolina Vimieiro Gomes Alexandra Widmer and Alden Young

**Circus World** Andrea Ringer,2024-07-09 From the 1870s to the

1960s circuses crisscrossed the nation providing entertainment A unique workforce of human and animal laborers from around the world put on the show They also formed the backbone of a tented entertainment industry that raised new questions about what constituted work and who counted as a worker Andrea Ringer examines the industry wide circus world the collection of shows that traveled by rail wagon steamboat and car and the traditional and nontraditional laborers who created it Performers and their onstage labor played an integral part in the popularity of the circus But behind the scenes other laborers performed the endless menial tasks that kept the show on the road Circus operators regulated employee behavior both inside and outside the tent even as the employees themselves blurred the line between leisure and labor until in all parts of the show the workers could not escape their work Illuminating and vivid Circus World delves into the gender class and even species concerns within an extinct way of life [Entangled Encounters at the National Zoo](#) Daniel Vandersommers,2023-09-29 Founded amid the urban commotion of Washington DC before the dawn of the twentieth century the National Zoological Park opened to preserve teach and conduct research about the animal world Entangled Encounters at the National Zoo is a study of this important cultural landmark from 1887 to 1920 Centered on the animals themselves each chapter looks from a different angle at the influential science of popular zoology in order to shed new light on the complex entangled relationships between humans and animals Daniel Vandersommers s goal is twofold First through narrative he shows how zoo animals always ran away from the zoo This is meant literally animals escaped frequently but even more so figuratively Living breathing historical zoo animals ran away from their cultural constructions and these constructions ran away from the living bodies they were made to represent The author shows that the resulting gaps produced by runaway animals contain concealed distorted and erased histories worthy of uncovering Second Entangled Encounters at the National Zoo demonstrates how the popular zoology fostered by the National Zoo shaped every aspect of American science culture and conservation during the Gilded Age and Progressive Era Between the 1880s and World War I as intellectuals debated Darwinism and scientists institutionalized the laboratory zoological parks suddenly appeared at the heart of nearly every major American city captivating tens of millions of visitors Vandersommers follows stories previously hidden within the National Zoo in order to help us reconsider the place of zoos and their inhabitants in the twenty first century [American Zoo](#) David Grazian,2017-12-05 A close up look at the contradictions and wonders of the modern zoo Orangutans swing from Kevlar lined fire hoses Giraffes feast on celebratory birthday cakes topped with carrots instead of candles Hi tech dinosaur robots growl among steel trees while owls watch animated cartoons on old television sets In American Zoo sociologist David Grazian takes us on a safari through the contemporary zoo alive with its many contradictions and strange wonders Trading in his tweed jacket for a zoo uniform and a pair of muddy work boots Grazian introduces us to zookeepers and animal rights activists parents and toddlers and the other human primates that make up the zoo s social world He shows that in a major shift away from their unfortunate pasts American zoos today emphasize naturalistic exhibits

teeming with lush and immersive landscapes breeding programs for endangered animals and enrichment activities for their captive creatures In doing so zoos blur the imaginary boundaries we regularly use to separate culture from nature humans from animals and civilization from the wild At the same time zoos manage a wilderness of competing priorities animal care education scientific research and recreation all while attempting to serve as centers for conservation in the wake of the current environmental and climate change crisis The world of the zoo reflects how we project our own prejudices and desires onto the animal kingdom and invest nature with meaning and sentiment A revealing portrayal of comic animals delighted children and feisty zookeepers American Zoo is a remarkable close up exploration of a classic cultural attraction

**The Shotgun Conservationist** Brant MacDuff,2023-04-25 At the intersection of hunting and conservation a man shares his personal journey from staunch anti hunter to compassionate ethical hunter weaving together a larger history of humans animals the environment and our food systems The Shotgun Conservationist doesn t teach us how to hunt it explores why we should hunt As public lands remain imperiled factory farms pollute the earth and subject animals to inhumane conditions and global uncertainty presses us all to be more self sufficient there has never been a better time to take up hunting Writer natural historian and public speaker Brant MacDuff has done just that An avid animal lover and raised as a non hunter MacDuff started his journey intending to investigate the claim that hunting is conservation So convinced he now holds a hunting license in four states and gives lectures on the positive impact it has on conservation efforts nationwide Armed with years of experience in the field and a deep love for the natural world MacDuff tells the provocative humorous and insightful story of how he became a hunter Along the way readers meet a cast of colorful characters and learn the firsthand research that helped change Brant s mind You may not book a hunting trip after reading The Shotgun Conservationist but you ll have a new perspective on and appreciation for those that do

**Encountering Gorillas** James L. Newman,2013-07-05 Gorillas the largest of the apes inhabiting our planet have been a source of fear awe and inspiration to humans In this book James L Newman brings a lifetime of study of Africa to his compelling story of the rich and varied interaction between gorillas and humans since earliest contact He illuminates the complex relationship over time through the interlinked themes of discovery exploitation understanding and continuing survival Tragically the number of free living gorillas facing habitat loss disease and poaching has declined dramatically over the course of the past century and the future of the few that remain is highly uncertain At the same time those in zoos and sanctuaries now lead much more secure lives than they did earlier Newman follows this transition highlighting the roles played by key individuals both humans and gorillas Among the former have been adventurers opportunists writers and scientists The latter include real gorillas such as Gargantua and Koko and fictional ones notably King Kong and Mighty Joe Young This thoughtful and engaging book helps us understand how our image of gorillas has been both distorted and clarified through culture and science for centuries and how we now control the destiny of these magnificent great apes

*The Fair Chase* Philip Dray,2018-05-01 An award winning historian tells the story of hunting in

America showing how this sport has shaped our national identity From Daniel Boone to Teddy Roosevelt hunting is one of America s most sacred but also most fraught traditions It was promoted in the 19th century as a way to reconnect soft urban Americans with nature and to the legacy of the country s pathfinding heroes Fair chase a hunting code of ethics emphasizing fairness rugged independence and restraint towards wildlife emerged as a worldview and gave birth to the conservation movement But the sport s popularity also caused class ethnic and racial divisions and stirred debate about the treatment of Native Americans and the role of hunting in preparing young men for war This sweeping and balanced book offers a definitive account of hunting in America It is essential reading for anyone interested in the evolution of our nation s foundational myths

**At Fault** Sebastian D.G. Knowles,2021-03-16 At Fault is an exhilarating celebration of risk taking in the work of James Joyce Esteemed Joyce scholar and teacher Sebastian Knowles critiques the state of the modern American university denouncing what he sees as an accelerating trend of corporatization that is repressing discussions of controversial ideas and texts in the classroom Arguing that Joyce offers the antidote to risk averse attitudes in higher education he shows how the modernist writer models an openness to being at fault that should be central to the academic enterprise Knowles describes Joyce s writing style as an outlaw language imbued with the possibility and acknowledgment of failure He demonstrates that Joyce s texts and characters display a drive to explore the boundaries of experience to move outward in a centrifugal pattern to defy delimitation Knowles further highlights the expansiveness of Joyce s world by engaging a diverse range of topics including Jumbo the elephant as a symbol of imperialism the gramophone as a representation of the machine age self ge and live music performance in the Sirens episode of Ulysses Joyce s jokes and the neurology of humor and inventive ways of reading and teaching Finnegans Wake Contending that error is the central theme in all of Joyce s work Knowles argues that the freedom to challenge boundaries and make mistakes is essential to an effective learning environment Energetic and delightfully erudite and offering insights drawn from over thirty years of classroom experience Knowles inspires readers with the infinite possibilities of free human thought exemplified by Joyce s writing A volume in the Florida James Joyce Series edited by Sebastian D G Knowles

**Moral Claims in the Age of Spectacles** Brian M. Lowe,2017-08-09 This volume considers the rise of a new mode of creating spreading and encountering moral claims and ideas as they are expressed within spectacles Brian M Lowe explains how spectacles emerge when we are saturated with mediated representations including pictures texts and videos and exposed to television and movies and the myriad stories they tell us The question of which moral issues gain our attention and which are neglected increasingly relates to how societal concerns are supported or obscured by spectacles This project explores how this new form of moral understanding came to be Through a series of case studies including the use of radio and comic books the crafting of Russian national identity through art television and film the evolution of human rights law through film and journalism and the promotion of animal rights campaigns this book unveils some of the ways in which our spectacular environment shapes moral

understanding and is in turn shaped by spectacle *Colonial Documentary Film in South and South-East Asia* Ian Aitken, 2016-12-05 Based on rare archival documents and films this anthology is the first to focus primarily on the use of official and colonial documentary films in the South and South East Asian regions Drawing together a range of international scholars the book sheds new light on historical theoretical and empirical issues pertaining to the documentary film in order to better comprehend the significant transformations of the form in the colonial late colonial and immediate post colonial period Covering diverse geographical and colonial contexts in countries like Singapore Malaysia the Philippines and Hong Kong and focusing on under researched or little known films it demonstrate the complex set of relations between the colonisers and the colonised throughout the region

*Delia Akeley and the Monkey* Iain McCalman, 2022-02-01 By telling this story Iain McCalman illuminates much about human animal relations and the tyranny of gender inequality He reinstates a twentieth century story of a dedicated amateur primatologist and her adopted Vervet monkey On an East African hunting expedition in 1909 Delia Akeley a forty year old American woman captured a baby female monkey Delia s loneliness in an isolating patriarchal world and her long frustrated desire to adopt a child had motivated her to nurture the animal She named the monkey JT Jr and decided to study her interactions with humans The unique relationship between Delia and JT unlocked Delia s latent talents of research and observation anticipating both Jane Goodall s chimpanzee writings and Margaret Mead s Samoan ethnographies However Delia s love for JT clashed with her husband Carl s obsession to create a temple of African wildlife dioramas at the Museum of Natural History in New York Nursing Carl s broken body and realising their diverging interests pushed Delia into a breakdown in Uganda which led to a savage divorce in Manhattan and the heartbreaking caging of JT in a Washington zoo Carl s death triggered a long battle between Delia and Carl s widow who succeeded in obliterating most of Delia s achievements In *Delia Akeley and the Monkey* Iain McCalman uses official records and personal documents to build a story of passionate love and hate among women men animals and museums that predates our times but speaks to our present It illuminates much about human animal relations and the tyranny of gender inequality through reinstating an obscured story of a dedicated amateur primatologist

Brinkman,2024-08-20 A narrative microhistory of the Field Museum of Natural History s groundbreaking expedition to hunt and preserve rare African animal specimens for its collection before it went extinct due to modern progress and natural selection a common view among natural historians as the 1800s came to a close [The Naturalist](#) Darrin Lunde,2017-04-11 Winner of the inaugural Theodore Roosevelt Association Book Prize A captivating account of how Theodore Roosevelt s lifelong passion for the natural world set the stage for America s wildlife conservation movement and determined his legacy as a founding father of today s museum naturalism No U S president is more popularly associated with nature and wildlife than is Theodore Roosevelt prodigious hunter tireless adventurer and ardent conservationist We think of him as a larger than life original yet in The Naturalist Darrin Lunde has firmly situated Roosevelt s indomitable curiosity about the natural world in the tradition of museum naturalism As a child Roosevelt actively modeled himself on the men including John James Audubon and Spencer F Baird who pioneered this key branch of biology by developing a taxonomy of the natural world basing their work on the experiential study of nature The impact that these scientists and their trailblazing methods had on Roosevelt shaped not only his audacious personality but his entire career informing his work as a statesman and ultimately affecting generations of Americans relationship to this country s wilderness Drawing on Roosevelt s diaries and travel journals as well as Lunde s own role as a leading figure in museum naturalism today The Naturalist reads Roosevelt through the lens of his love for nature From his teenage collections of birds and small mammals to his time at Harvard and political rise Roosevelt s fascination with wildlife and exploration culminated in his triumphant expedition to Africa a trip which he

himself considered to be the apex of his varied life With narrative verve Lunde brings his singular experience to bear on our twenty sixth president s life and constructs a perceptively researched and insightful history that tracks Roosevelt s maturation from exuberant boyhood hunter to vital champion of serious scientific inquiry **A Wilderness of Rocks**
