Successfully cleared the AWS Solutions Architect Associate SAA C03 with a score of 824 surpassing my expectations The exam presented a mix of question difficulties with prominent topics being Kinesis Lakeformation Big Data tools and S3 Given the declining cybersecurity job market in Europe post 2021 I m contemplating a transition to cloud engineering For preparation I leveraged Stephane Mareek s course Tutorialdojo s practice tests and flashcards My manager also shared his AWS skill builder account Post evaluation I found Mareek s practice tests to be outdated and more challenging than required with his course delving too deeply into some areas In contrast Tutorialdojo s materials were simpler My scores ranged from 65% on Mareek s tests to 75-80% on Tutorialdojo with a 740 on the official AWS practice test Sharing this for those on a similar journey Get your copy now and clear the exam at your first attempt
