Parachute Minds: Leap of Faith By: Jeremiah Sanchez Traveler explains it was during his people's third phase that they discovered elastic light. By harnessing light's elasticity, they were able to explore the universe, healing with each jump. It wasn't long before they discovered they are not alone. Other habitable worlds exist throughout the cosmos, populated by uniquely evolved Homo sapiens. Their observers confirmed each planet's humanity goes through the same three phases. Phase one: traveling and mapping one's world. Phase two: manipulation of tools, agriculture, industry, electricity, and technology. Phase three: exploring beyond one's planet into the stars. But they traveled too far. They discovered something humanity was never meant to in the farthest reaches of space: The fourth phase. The mysteries held within its unknown are so terrifying that Traveler's people refuse to explore it themselves. He explains that's why he's come to Earth: to recruit brave souls willing to go where his people dare not. Gideon, a death-seeking adrenaline junky with a disturbing secret, seems the perfect candidate for Traveler's invitation. He accepts, leaving Earth behind with a wink and a smile, but Traveler worries the gamble may prove to be too much. Gideon's recklessness could either be the key to unlocking the fourth phase, or the mistake that unleashes humanity's extinction across the stars. Bad Dog's contribution to career advice offers a complete guide to what NOT to do during job search. Are you unhappy with your career, feel stuck and don't know how to move forward? Or do you often tell yourself that you will just stick out your current (unhappy) job or career path until retirement because you've invested time and/or your job just pays too well to leave? The secret to understanding why we sacrifice our personal happiness within an unhappy career lives in our past. And it is never too late to figure it out. Cory Calvin had an epiphany looking out of the office window as a successful corporate strategy executive for a Fortune 50 company daydreaming about a different life. He realized the past ten years of unhappiness was a result of certain beliefs he had held since an early age, yet quickly figured out these beliefs hindered his path forward. In Jump Without A Parachute, Cory shares the lessons he learned after leaving his 16-year corporate career behind and took a leap into the unknown. He decided to jump without knowing all of the answers like "How will I make money? How will I save for retirement? How will I have health benefits? What do I want to do?" Those unanswered questions are the parachute strings that will help us land safely and oftentimes hold us back to taking the leap. He decided to jump without a parachute. And now Cory is living a life of ultimate happiness, earning a living doing exactly what he loves

doing every day. Are you ready to live your best life and take the leap? A WONDROUS NEW BOOK OF MCPHEE'S PROSE PIECES—IN MANY ASPECTS HIS MOST PERSONAL IN FOUR DECADES

The brief, brilliant essay "Silk Parachute," which first appeared in *The New Yorker* a decade ago, has become John McPhee's most anthologized piece of writing. In the nine other pieces here—highly varied in length and theme—McPhee ranges with his characteristic humor and intensity through lacrosse, long-exposure view-camera photography, the weird foods he has sometimes been served in the course of his reportorial travels, a U.S. Open golf championship, and a season in Europe "on the chalk" from the downs and sea cliffs of England to the Maas valley in the Netherlands and the champagne country of northern France. Some of the pieces are wholly personal. In luminous recollections of his early years, for example, he goes on outings with his mother, deliberately overturns canoes in a learning process at a summer camp, and germinates a future book while riding on a jump seat to away games as a basketball player. But each piece—on whatever theme—contains somewhere a personal aspect in which McPhee suggests why he was attracted to write about the subject, and each opens like a silk parachute, lofted skyward and suddenly blossoming with color and form. For more than 35 years, What Color Is Your Parachute? Has guided millions of job-hunters to find satisfying careers. Now, Parachute for Retirement will help people plan for the next stage of life. Going way beyond financial planning, Richard N. Bolles and retirement expert John E. Nelson use all the latest research from economics, medicine and psychology to provide a complete essential guide for planning this important and inevitable stage of anyone's career. It aims to inspire readers to take charge of their retired life and get the most possible out of their retirement, emotionally, financially and physically.

Writing Without a Parachute: The Art of Freefall shows both beginning and experienced writers how to get the thinking mind to step aside, so that writing becomes truly creative - a vulnerable and open-hearted engagement with the moment. Here for the first time, writing teacher Barbara Turner-Vesselago shares in print the method by which, for almost 30 years, she has helped hundreds of writers to publish fiction, memoir, non-fiction and poetry worldwide. By means of five simple precepts, she leads the writer step by step into real trust in writing through the art of Freefall: invoking the courage to fall without a parachute into the words as they come. This book can be used for inspiration, as a reference, or as a sustained, twelve-month course in writing. It will help all writers to connect with their deepest intention in writing, and to write with greater authority and grace. The purpose of this manual is to provide recovery system engineers in government and industry with tools to evaluate, analyze, select, and design parachute recovery systems. These systems range from simple, one-parachute assemblies to multiple-parachute systems, and may include equipment for impact attenuation, flotation, location, retrieval, and disposition. All system aspects are discussed, including the need for parachute recovery, the selection of the most suitable recovery system concept, concept analysis, parachute performance, force and stress analysis, material selection, parachute assembly and component design, and manufacturing. Experienced recovery system engineers will find this publication useful as a technical reference book; recent college graduates will find it useful as a textbook for learning about parachutes and parachute recovery systems; and technicians with extensive practical experience will find it useful as an engineering textbook that includes a chapter on parachute-related aerodynamics. In this manual, emphasis is placed on aiding government employees in evaluating and supervising the design and application of parachute systems. The parachute recovery system uses aerodynamic drag to decelerate people and equipment moving in air from a higher velocity to a lower velocity and to a safe landing. This lower velocity is known as rate of descent, landing velocity, or impact velocity, and is determined by the following requirements: (1) landing personnel uninjured and ready for action, (2) landing equipment and air vehicles undamaged and ready for use or refurbishment, and (3) impacting ordnance at a preselected angle and velocity. Discover the true story of the four women who worked tirelessly behind the scenes to help shape and curate the image of The Rolling Stones—perfect for fans of *Girls Like Us*. The Rolling Stones have long been considered one of the greatest rock-and-roll bands of all time. At the forefront of the British Invasion and heading up the counterculture movement of the 1960s, the Stones' innovative music and iconic performances defined a generation, and fifty years later, they're still performing to sold-out stadiums around the globe. Yet, as the saying goes, behind every great man is a greater woman, and behind these larger-than-life rockstars were four incredible women whose stories have yet to be fully unpacked . . . until now. In *Parachute Women*, Elizabeth Winder introduces us to the four women who inspired, styled, wrote for, remixed, and ultimately helped create the legend of the Rolling Stones. Marianne Faithfull, Marsha Hunt, Bianca Jagger, and Anita Pallenberg put the glimmer in the Glimmer Twins and taught a group of straight-laced boys to be bad. They opened the doors to subterranean art and alternative lifestyles, turned them on to Russian literature, occult practices, and LSD. They connected them to cutting edge directors and writers, won them roles in art house films that renewed their appeal. They often acted as unpaid stylists, providing provocative looks from their personal wardrobes. They remixed tracks for chart-topping albums, and sometimes even wrote the actual songs. More hip to the times than the rockers themselves, they consciously (and unconsciously) kept the band current—and confident—with that mythic lasting power they still have today. Lush in detail and insight, and long overdue, *Parachute Women* is a group portrait of the four audacious women who transformed the Stones into international stars, but who were themselves marginalized by the male-dominated rock world of the late '60s and early '70s. Written in the tradition of Sheila Weller's *Girls Like Us*, it's a story of lust and rivalries, friendships and betrayals, hope and degradation, and the birth of rock and roll. With more than 10 million copies sold in 28 countries, the world's most popular job-search book is updated for 2020, tailoring Richard Bolles's long-trusted guidance with up-to-the-minute information and advice for today's job-hunters and career-changers. "That Others May Live" is a mantra that defines the fearless men of Alaska's 212th Pararescue Unit, the PJs, one of the most elite military forces on the planet. Whether they are rescuing citizens injured and freezing in the Alaskan wilderness or saving wounded Rangers and SEALs in blazing firefights at war, the PJs are the least known and most highly trained of America's warriors. *Never Quit* is the true story of how Jimmy Settle, an Alaskan shoe store clerk, became a Special Forces Operator and war hero. After being shot in the head during a dangerous high mountain operation in the rugged Watapur Valley in Afghanistan, Jimmy returns to battle with his teammates for a heroic rescue, the bullet fragments stitched over and still in his skull. In a cross between a suicide rescue mission and an against-all-odds mountain battle, his team of PJs risk their lives again in an epic firefight. When his helicopter is hit and begins leaking fuel, Jimmy finds himself in the worst possible position as a rescue specialist—forced to leave members from his own team behind. Jimmy will have to risk everything to get back into the battle and bring back his brothers. Each year, millions escaped the heat of New York City to savor the thrills of the Cyclone roller coaster and Wonder Wheel at the Astroland amusement park. They came to sample an original Nathan's Famous hot dog, witness the first demolition derby, or to take a chance at a game of three-card Monte on the legendary boardwalk. The advent of air-conditioning, concerns about Coney's "tawdry" entertainment, and faster transportation to other beaches hastened the demise of what had become a uniquely American icon of entertainment and a defining terminus of New York at the water's edge. In an effort to revitalize the area, the Van Alen Institute, in concert with the Coney Island Development Corporation, held the Parachute Pavilion Competition, a contest to design a year-

round pavilion in the shadow of the Parachute Jump, a landmark built for the 1939 World's Fair. Coney Island: The Parachute Pavilion Competition presents all 864 submissions from the feasible to the fantastic received from around the world. The winning design by London-based Carmody Groarke Hardie is a mesmerizing attraction in its own right, composed of two provocative trapezoids illuminated by thousands of colored light bulbs. The design respects the historic icon under which it is located but also promises to become an icon in its own right and bring the fun-loving spirit of Coney Island into the twenty-first century. Featuring essays, photographic documentation, and jury comments, Coney Island: The Parachute Pavilion Competition is a critical resource for students, designers, city officials, and anyone interested in Coney Island and the reinvention of the historic recreation sites of our cities.
