In an age of continued Middle East volatility, religious extremists, and terrorist threats, the mere mention of Islam and Muslims too often provokes misunderstanding and even rancor. Often overlooked are the important links between the Qur'an and the Bible. Also ignored are the significant historical overlap between Islamic interpretation of history with those of Christianity and Judaism, including the monotheistic belief in a single God. Islam is too often confusing and even opaque to those unfamiliar with it. The Handy Islam Answer Book, is clearly and eloquently written by John Renard, Ph.D., a scholar of Islam with more than 40 years of research and teaching experience. He provides detailed descriptions of the history, beliefs, symbols, rituals, observations, customs, leaders, and organization of the world's second largest religion. Renard explains the significance of the Five Pillars, Muhammad, various sects, the Qur'an, Islamic law, and much more. This engaging primer is a resource for reliable information about Islam and Muslims and it brings an understanding of the shared humanity that joins Muslims and non-Muslims far more deeply than cultural or religious differences separate them. Truly a must-have reference for our changing and trying times, this user-friendly guide answers nearly 800 questions and offers fun facts that cover Islamic history, religious practices, and Muslim cultural perspectives, including ... • When did Islam begin? • Why is Mecca a holy city for Muslims? • Do Muslims worship Muhammad? • What was the fate of Medieval Christian pilgrims to the Holy Land? • What do Muslims mean by the term "Allah"? • What does the crescent moon and star symbol mean to Muslims? • What is the Muslim "call to prayer"? Is it similar to "church bells"? • Do Muslims believe that God "tests" people? • Does Muhammad play a role in Islamic spirituality in a manner similar to Jesus' role in Christianity? • Is jihad a legal concept for Muslims? • Is it true that Muhammad both preached and engaged in military campaigns? • Do Muslims, Christians, and Jews worship the "same God"? • Why do Jews, Christians, and Muslims all claim parts of

Israel/Palestine as "Holy Land"? • Why do some people, such as the Taliban, not want girls to get an education? • Does Islam require wearing face veils? • Does Islam have theologians like Augustine and Thomas Aquinas and the other great Christian thinkers? • Is there any similarity between Muslim and Christian art? Muslims are diverse, and they have a vast spectrum of views about Islam. The Handy Islam Answer Book aims for understanding, which is the first step to uniting, instead of dividing. This helpful book provides a historic timeline, a glossary of commonly used terms, a genealogy from Adam to Muhammad and beyond, a calendar of major observances, and a bibliography help further exploration of one of the world's great religions. From the bestselling co-author of Chicken Soup for the Soul comes a revolutionary programme to help you cut back or quit drinking entirely - on your own and in the privacy of your own home. Existing established published resources have utterly failed to help most alcoholics. Only a tiny percentage of those with alcohol abuse issues ever receive any sort of treatment, including Alcoholics Anonymous, which provides a dated programme of recovery that many find difficult to accept or practical to implement. There has also been no dramatic decline in alcoholism over time, suggesting that we are desperately in need of a fresh approach. The 30-Day Sobriety Solution offers the answer to anyone who feels their drinking has become unmanageable. Inspired by Canfield's work in self-esteem and success training and developed into a programme by Dave Andrews, it integrates positive psychology, neurolinguistic programming, cognitive therapy, meditation, positive self-talk and the correction of negative self-perceptions, amongst numerous other techniques. At the core of this programme are the two concepts of a no alcohol '30-Day Reboot', with the option of a non-abstinence track after the first 30 days. This is a model of sobriety that you can achieve in the privacy of your own home in only a few minutes a day. ¡Qué chévere! is an engaging program that develops students' communication skills by providing ample speaking and writing practice in contextualized situations, working with partners and in groups. Professional studio design is a specialized science, with more than a touch of "black magic" thrown in. Over the past few years, Sound on Sound magazine has made one trip each month to a reader's studio. However, they've also proven that beginners' attempts at DIY acoustic treatments often cause more problems than they solve. Utilizing knowledge from dozens of visits to readers' home and project studios, the SOS team imparts easy-to-understand, organized troubleshooting advice. Learn how to rid yourself of monitoring problems and get an accurate monitoring system, how to enhance the sound of your recording space, and how to perfect your instrumental and vocal recordings. Decrease the time you spend re-recording and mixing, simply by improving your room with advice from the guys who have seen it all when it comes to make-do small studios. Contains: A structured look at the problems that most often plague small studios, with individual studio case studies addressing each issue Real solutions that you can both afford and implement; no thousand-dollar investments or idealized studio designs that don't work with your space!
