A World on the Wing: The Global Odyssey of Migratory Birds Apr 04 2024 New York Times Bestseller Finalist for the Los Angeles Times Book Prize A Library Journal Best Science and Technology Book of the Year An exhilarating exploration of the science and wonder of global bird migration. In the past two decades, our understanding of the navigational and physiological feats that enable birds to cross immense oceans, fly above the highest mountains, or remain in unbroken flight for months at a stretch has exploded. What we've learned of these key migrations—how billions of birds circumnavigate the globe, flying tens of thousands of miles between hemispheres on an annual basis—is nothing short of extraordinary. Bird migration entails almost unfathomable endurance, like a sparrow-sized sandpiper that will fly nonstop from Canada to Venezuela—the equivalent of running 126 consecutive marathons without food, water, or rest—avoiding dehydration by "drinking" moisture from its own muscles and organs, while orienting itself using the earth's magnetic field through a form of quantum entanglement that made Einstein queasy. Crossing the Pacific Ocean in nine days of nonstop flight, as some birds do, leaves little time for sleep, but migrants can put half their brains to sleep for a few seconds at a time, alternating sides—and their reaction time actually improves. These and other revelations convey both the wonder of bird migration and its global sweep, from the mudflats of the Yellow Sea in China to the remote mountains of northeastern India to the dusty hills of southern Cyprus. This breathtaking work of nature writing from Pulitzer Prize finalist Scott Weidensaul also introduces readers to those scientists, researchers, and bird lovers trying to preserve global migratory patterns in the face of climate change and other environmental challenges. Drawing on his own extensive fieldwork, in A World on the Wing Weidensaul unveils with dazzling prose the miracle of nature taking place over our heads.

The Heartbeats of Wing Jones Sep 04 2021 Jandy Nelson meets Friday Night Lights in this sweeping, warm, arrestingly original novel about family, poverty, and hope. Wing Jones, like everyone else in her town, has worshipped her older brother, Marcus, for as long as she can remember. Good-looking, popular, and the star of the football team, Marcus is everything his sister is not. Until the night everything changes when Marcus, drunk at the wheel after a party, kills two people and barely survives himself. With Marcus now in a coma, Wing is crushed, confused, and angry. She is tormented at school for

Marcus's mistake, haunted at home by her mother and grandmothers' grief. In addition to all this, Wing is scared that the bank is going to repossess her home because her family can't afford Marcus's mounting medical bills. Every night, unable to sleep, Wing finds herself sneaking out to go to the school's empty track. When Aaron, Marcus's best friend, sees her running one night, he recognizes that her speed, skill, and agility could get her spot on the track team. And better still, an opportunity at a coveted sponsorship from a major athletic gear company. Wing can't pass up the opportunity to train with her longtime crush and to help her struggling family, but can she handle being thrust out of Marcus's shadow and into the spotlight? "The swiftly paced story will quickly sweep up readers...[a] well-crafted, inspirational debut with plenty of heart, hope, and determination." —Booklist "A story showing how hope and love can blossom in the midst of chaos." —Publishers Weekly

The Bird Is on the Wing Jan 01 2024 The airplane ranks as one of history's most ingenious and phenomenal inventions--and surely one of the most world-shaking. How ideas about its aerodynamics first came together and how the science and technology evolved to forge the airplane into the revolutionary machine it became is the epic story James R. Hansen tells in *The Bird Is on the Wing*. Just as the airplane is a defining technology of the twentieth century, aerodynamics has been the defining element of the airplane. Hansen provides an engaging, easily understandable introduction to the role of aerodynamics in the design of such historic American aircraft as the DC-3, X-1, and 747. Recognizing the impact individuals have had on the development of the field, he conveys not only a history of aircraft technology, but also a collective biography of the scientists, engineers, and designers who created the airplanes. From da Vinci, whose understanding of what it took to fly was three centuries too early for practical use, to the invention of the airplane by the Wright brothers, Hansen explores the technological matrix from which aeronautical engineering emerged. He skillfully guides the reader through the development of such critical aerodynamic concepts as streamlining, flutter, laminar-flow airfoils, the mythical "sound barrier," variable-sweep wing, supersonic cruise, blended body, and much more. Hansen's explanation of how vocabulary and specifications were developed to fill the gap between the perceptions of pilots and the system of engineers will fascinate all those interested in how human beings have used aerodynamics to move among, and even beyond, birds on the wing.

Geordie Armstrong: On the Wing May 13 2022 George 'Geordie' Armstrong served Arsenal for 27 years as both a player and a coach, before being cruelly taken from his family and his club whilst coaching the Arsenal reserves at London Colney - he collapsed suddenly on the training pitch having suffered a brain haemorrhage in October 2000 - and never recovered. At the request of Geordie's daughter, Jill, Dave Seager has worked towards capturing the essence of George Armstrong: the player, the coach and the man. He has not chosen the conventional biography route, instead he tells the story of Geordie Armstrong with the assistance of those who knew him best - and the end product reads like a veritable who's who of Arsenal Football Club from the past 50 years. Seager successfully paints a remarkable picture - reliving stories and recollections of those who loved him; those who were fortunate to call him their friend; those who played alongside him; those who watched him play week in week out and those who were coached by him. There are also dozens of never before published action shots and pictures from George's own personal photographic collection to enjoy. The interview roll-call includes: Bob Wilson, Frank McLintock, Charlie George, Eddie Kelly, John Radford, George Graham, Liam Brady, George Cohen, Arsene Wenger, Dennis Bergkamp, Lee Dixon, David Dein, Gary Lewin, Vic Akers, Stewart Houston, Pat Rice, Martin Keown, Kevin Campbell, Frank Stapleton, Steve Burtenshaw, Ken Friar, Steve Sidwell, Perry Groves, Peter Simpson, Brendan Batson, Bob McNab and many more -

On Wings of Eagles Jun 01 2021 #1 bestselling author Ken Follett tells the inspiring true story of the Middle East hostage crisis that began in 1978, and of the unconventional means one American used to save his countrymen. . . . When two of his employees were held hostage in a heavily guarded prison fortress in Iran, one man took matters into his own hands: businessman H. Ross Perot. His team consisted of a group of volunteers from the executive ranks of his corporation, handpicked and trained by a retired Green Beret officer. To free the imprisoned Americans, they would face incalculable odds on a mission that only true heroes would have dared. . . .

Sleeping on the Wing Aug 28 2023 This book is specifically for high school students, though it is useful to college students and anyone interested in the art and craft of poetry. Koch and Farrell, experienced teachers as well as poets, write about poetry in such a way that students will find it accessible and interesting. The book includes selections of poetry by twenty-three poets, among them Dickinson, Hopkins, Pound, Williams and Eliot, as well as Ginsberg, O'Hara, Baraka and Ashbery. There is also the translated work of such modern European poets such as Lorca, Rilke, Rimbaud, Apollinaire and Mayakovsky.

Taking Wing Oct 06 2021 In 1861, just a few years after the publication of Charles Darwin's *On the Origin of Species*, a scientist named Hermann von Meyer made an amazing discovery. Hidden in the

Bavarian region of Germany was a fossil skeleton so exquisitely preserved that its wings and feathers were as obvious as its reptilian jaws and tail. This transitional creature offered tangible proof of Darwin's theory of evolution. Hailed as the First Bird, Archaeopteryx has remained the subject of heated debates for the last 140 years. Are birds actually living dinosaurs? Where does the fossil record really lead? Did flight originate from the "ground up" or "trees down"? Pat Shipman traces the age-old human desire to soar above the earth and to understand what has come before us. *Taking Wing* is science as adventure story, told with all the drama by which scientific understanding unfolds.

Raven on the Wing Jul 27 2023 New York Times bestselling author Kay Hooper brings together romance and suspense in this classic love story of a woman who must lie to keep a safe distance from the man she loves—because telling him the truth is too dangerous for them both. From the moment Raven Anderson literally knocks Josh Long off his feet, he's determined to keep this elusive beauty in his tight embrace. While Raven denies their electrifying attraction and fends off his advances, Josh uses the resources of his business empire to crack the mystery surrounding Raven's true identity. But Josh can't bring himself to believe what the background check confirms—that Raven is an international criminal wanted for her connections to worldwide terrorism. Raven has discouraged Josh's help and his love, but she's going to need both. For she is playing a part in a deadly game against an adversary who never loses, who takes no prisoners, and who threatens her very life.

A Bird on the Wing Nov 30 2023 This book is about the inner search and personal transformation, sharing insights that address our deepest question of life, introducing 11 teaching stories from different Zen masters. At the conclusion of each talk, Osho responds to questions from his international audience, providing direct guidance on matters of love, understanding, and "the search." The body and the soul are discussed as the two aspects of importance. Our bodies can be used to reach to the stars, but they must have strong roots here on Earth first. Osho highlights how one's life can be transformed through

integrating meditation into daily life. He also bypasses the rational mind and speaks directly to the heart. The Zen stories Osho uses illustrate the mysterious yet simple world of Zen, where any situation can be used to become more aware, more conscious, more alive.

ON THE WING. Feb 27 2021

Year on the Wing Dec 08 2021 Birds -- those "upgiven ghosts" who shape our skies -- and their many styles of flying have inspired us for centuries. Tim Dee became enthralled with birds as a young boy, and their allure has informed how he perceives time as well as how he sees the world and his place in it. Compelling and poetic, A Year on the Wing is a month-by-month account of following these magnificent creatures, on land, at sea, and in the air, over the course of one "dew-dipped year." A memoir of the author's life as well as of the birds' migrations, the book draws on memories of forty years of observing birds as Dee explores the ideas and feelings that birds awaken in their flying, breeding, and dying. A Year on the Wing is also a significant chronicle of Dee's rich reading of a gorgeous literary tradition about birds -- from Aristotle to Thomas Hardy, Dante to Pound, Wordsworth to Ted Hughes -- as well as naturalists' writings that train a scientific eye on these elusive creatures. With a poet's marvelous commingling of nature and language, Dee finds meaning and a fascinating beauty in the quiver of a redstart's tail, elegizes the thrilling skydiving stoop of the once-endangered, now resurgent peregrine falcon, and reflects on the nocturnal restlessness of migrant woodcocks that is suggestive of how nature encodes us all. A Year on the Wing brings us as close as possible to birds, as we seek to understand the unique connection between us and them as well as our separation from them and, by extension, our estrangement from all of nature. Watching birds instills a renewed sense of wonder, getting us airborne and expanding our horizons. This vicarious liftoff does us good in a way hard to define but incontestably felt. It also makes us ever aware of our place on the ground. Dee homes in on those moments when the gap narrows between humans and birds, when birds' freedom gives us our own, making our lives more vibrant and alive. The first book from an exciting new literary voice, this beautifully written memoir celebrates birds and the inspiration they provide through their twice-yearly winged migrations.

My Pen Is the Wing of a Bird Jun 25 2023 A landmark collection: the first anthology of short fiction by Afghan women that are "powerful, profound, and deeply moving" (Elif Shafak, author of The Island of Missing Trees, a Reese's Book Club pick) "My pen is the wing of a bird; it will tell you those thoughts we are not allowed to think, those dreams we are not allowed to dream." Eighteen Afghan women living in, speaking about, and writing from the country itself tell stories that are powerful and illuminating, unique and universal - stories of family, work, childhood, friendship, war, gender identity, and cultural traditions. A woman's fortitude saves her village from disaster. A teenager explores their identity in a moment of quiet. A tormented girl tries to find love through a horrific act. A headmaster makes his way to work, treading the fine line between life and death. These and more original, vital, and unexpected stories hail from extraordinary voices rooted in Afghanistan's two main linguistic groups (Pashto and Dari), and were developed over two years through the writer development program Untold's Write Afghanistan Project.

My Pen Is the Wing of a Bird comes at a pivotal moment in Afghanistan's history, when these voices must be heard. With an Introduction by Lyse Doucet, BBC chief international correspondent, and afterword by Lucy Hannah, Founder and Director of Untold

Angel on the Wing Jul 03 2021 In *Angel on the Wing*, Joan Zeller shares how she survived a plane crash that took sixty-five lives in February 1959. She was a stewardess on American Airlines Flight 320, returning to New York from Chicago. Close to midnight on that foggy, cold evening, the plane crashed into the choppy waters of the East River on approach to LaGuardia Airport. Joan Zeller's memoir vividly brings to life the events of the crash, the peril passengers and crew experienced following impact, the time spent in the frigid waters in total darkness before their dramatic rescue, and her recovery from traumatic injuries sustained in the accident. The author was inspired to pen her story when she came across a website that chronicled the events of that evening, listing the names of those who perished, as well as the eight survivors. Following the story was an opportunity to respond in an open letter. After reading pleas from family members of the deceased she recognized an invaluable opportunity as eyewitness and survivor, to help bring solace and closure to the families of those who lost loved ones that fateful night.
