Decision Making in Emergency Management Jan Glarum, Carl Adrianopoli, 2019-11-23 Decision Making in Emergency Management examines decisions the authors have made over their careers based on their combined training experience and instinct Through a broad range of case studies readers discover how experience impacts decision making in conjunction with research and tools available While the use of science data and industry standards are always the best option when it comes to handling emergency situations not all emergency situations fit one known solution This book comprehensively explores the question Is instinct a viable factor when faced with a challenging situation and how close does it match up with the best science available Includes case studies from natural and manmade disasters providing readers with decision making skills in various global settings Provides readers the opportunity to learn from someone else s decisions Inspires emergency response personnel to continuously pursue learning question their strategies and apply changes as appropriate **Guide for All-Hazard Emergency Operations Planning** Kay C. Goss, 1998-05 Meant to aid State local emergency managers in their efforts to develop maintain a viable all hazard emergency operations plan This guide clarifies the preparedness response short term recovery planning elements that warrant inclusion in emergency operations plans It offers the best judgment recommendations on how to deal with the entire planning process from forming a planning team to writing the plan Specific topics of discussion include preliminary considerations the planning process emergency operations plan format basic plan content functional annex content hazard unique planning linking Federal State operations *Developing and Maintaining Emergency Operations Plans* United States. Federal Emergency Management Agency, 2010 Comprehensive Preparedness Guide CPG 101 provides guidelines on developing emergency operations plans EOP It promotes a common understanding of the fundamentals of risk informed planning and decision making to help planners examine a hazard or threat and produce integrated coordinated and synchronized plans The goal of CPG 101 is to make the planning process routine across all phases of emergency management and for all homeland security mission areas This Guide helps planners at all levels of government in their efforts to develop and maintain viable all hazards all threats EOPs Accomplished properly planning provides a methodical way to engage the whole community in thinking through the life cycle of a potential crisis determining required capabilities and establishing a framework for roles and responsibilities It shapes how a community envisions and shares a desired outcome selects effective ways to achieve it and communicates expected results Each jurisdiction s plans must reflect what that community will do to address its specific risks with the unique resources it has or can obtain

Is-800. B National Response Framework Fema, 2010-08-17 Course Overview The course introduces participants to the concepts and principles of the National Response Framework Course Objectives At the end of this course you will be able to describe The purpose of the National Response Framework The response doctrine established by the National Response

Framework The roles and responsibilities of entities as specified in the National Response Framework The actions that support national response The response organizations used for multiagency coordination How planning relates to national preparedness Primary Audience This course is intended for government executives private sector and nongovernmental organization NGO leaders and emergency management practitioners This includes senior elected and appointed leaders such as Federal department or agency heads State Governors mayors tribal leaders and city or county officials those who have a responsibility to provide for effective response Prerequisite None CEUs 0 3 Public Assistance ,1999 **DSCA Handbook** United States. Department of Defense,2010 This two in one resource includes the Tactical Commanders and Staff Toolkit plus the Liaison Officer Toolkit Defense Support of Civil Authorities DSCA enables tactical level Commanders and their Staffs to properly plan and execute assigned DSCA missions for all hazard operations excluding Chemical Biological Radiological Nuclear high yield Explosives CBRNE or acts of terrorism Applies to all United States military forces including Department of Defense DOD components Active and Reserve forces and National Guard when in Federal Status This hand on resource also may be useful information for local and state first responders Chapter 1 contains background information relative to Defense Support of Civil Authorities DSCA including legal doctrinal and policy issues Chapter 2 provides an overview of the incident management processes including National Response Framework NRF National Incident Management Systems NIMS and Incident Command System ICS as well as Department of Homeland Security DHS Chapter 3 discusses the civilian and military responses to natural disaster Chapter 4 provides a brief overview of Joint Operation Planning Process and mission analysis Chapter 5 covers Defense Support of Civilian Authorities DSCA planning factors for response to all hazard events Chapter 6 is review of safety and operational composite risk management processes Chapters 7 11 contain Concepts of Operation CONOPS and details five natural hazards disasters and the pertinent planning factors for each within the scope of DSCA *Next-Generation Homeland Security* John Morton,2012-10-15 Security governance in the second decade of the 21st century is ill serving the American people Left uncorrected civic life and national continuity will remain increasingly at risk At stake well beyond our shores is the stability and future direction of an international political and economic system dependent on robust and continued U S engagement Outdated hierarchical industrial structures and processes configured in 1947 for the Cold War no longer provide for the security and resilience of the homeland Security governance in this post industrial digital age of complex interdependencies must transform to anticipate and if necessary manage a range of cascading catastrophic effects whether wrought by asymmetric adversaries or technological or natural disasters Security structures and processes that perpetuate a 20th century top down federal centric governance model offer Americans no more than a single point of failure The strategic environment has changed the system has not Changes in policy alone will not bring resolution U S security governance today requires a means to begin the structural and process transformation into what this book calls Network Federalism Charting the origins and development of borders out security

governance into and through the American Century the book establishes how an expanding techno industrial base enabled American hegemony Turning to the homeland it introduces a borders in narrative the convergence of the functional disciplines of emergency management civil defense resource mobilization and counterterrorism into what is now called homeland security For both policymakers and students a seminal work in the yet to be established homeland security canon this book records the political dynamics behind the creation of the Department of Homeland Security the impact of Hurricane Katrina and the ongoing development of what is now called the Homeland Security Enterprise The work makes the case that national security governance has heretofore been one dimensional involving horizontal interagency structures and processes at the Federal level Yet homeland security in this federal republic has a second dimension that is vertical intergovernmental involving sovereign states and local governments whose personnel are not in the President s chain of command In the strategic environment of the post industrial 21st century states thus have a co equal role in strategy and policy development resourcing and operational execution to perform security and resilience missions This book argues that only a Network Federal governance will provide unity of effort to mature the Homeland Security Enterprise The places to start implementing network federal mechanisms are in the ten FEMA regions To that end it recommends establishment of Regional Preparedness Staffs composed of Federal state and local personnel serving as co equals on Intergovernmental Personnel Act IPA rotational assignments These IPAs would form the basis of an intergovernmental and interdisciplinary homeland security professional cadre to build a collaborative national preparedness culture As facilitators of regional unity of effort with regard to prioritization of risk planning resourcing and operational execution these Regional Preparedness Staffs would provide the Nation with decentralized network nodes enabling security and resilience in this 21st century post industrial strategic environment
