**Examinations In Singapore: Change And Continuity (1891-2007)** Hong Kheng Chow,Christine Goh,Yap Kwang Tan,2008-03-28 The first book to explore the development of Singapore s much talked about education and examination system this volume juxtaposes examinations with its immediate context of education and wider context of politics economy and society The study covers three broad historical periods Examinations in Singapore from 1891 to 1945 The Post War Years from 1946 to the 1970s and Charting Our Destiny from the 1980s to 2007 In the British period up to 1941 the local examinations were conducted by the vernacular schools and external examinations by the University of Cambridge Local Examinations Syndicate There was a lack of systematic effort to establish a uniform system of education and examinations During the Japanese Occupation examinations were conducted by the Japanese authorities and unexpectedly the Cambridge examinations continued in the Sime Road Camp In the post war period and particularly after Singapore was granted self government the establishment of a national education system was followed by the emergence of national examinations the Primary School Leaving Examinations and the Singapore Cambridge GCE N O A Levels for every school going child in Singapore Thereafter the nature of national examinations evolved with the changing needs of education and the nation At the turn of the century with the Ministry of Education s decision to take greater control of examinations the Singapore Examinations and Assessment Board was established to oversee new developments in examinations Unlike most literature on education where examinations are often mentioned as an outcome of educational goals and objectives this book focuses on examinations per se Examinations have gained a momentum of their own and it is interesting to note the development of examinations against the backdrop of the broader history of Singapore and of education in Singapore [Tests And Exams In Singapore Schools: What School Leaders, Teachers And Parents Need To Know](#) Kay Cheng Soh,2017-09-22 Assessment mainly in the form of tests and examinations plays a critical role in the schooling of Singaporean students The results are often used to make irrevocable decisions on the students future education careers This book is written with school leaders teachers and parents in mind with the view of helping them to better understand the processes and products of assessment via tests and exams It is written in simple terms using minimal technical terms and introduces school leaders teachers and parents to essential concepts and principles of educational measurements which are relevant in the school context in Singapore While existing books on educational measurement are academically oriented and meant for formal training courses this book makes self study simple by using practical examples couched in layman s language In addition this book uses concrete examples and analogies to make the text reader friendly
