Good Strategy Bad Strategy Richard Rumelt, 2011-07-19 Good Strategy Bad Strategy clarifies the muddled thinking underlying too many strategies and provides a clear way to create and implement a powerful action oriented strategy for the real world Developing and implementing a strategy is the central task of a leader A good strategy is a specific and coherent response to and approach for overcoming the obstacles to progress A good strategy works by harnessing and applying power where it will have the greatest effect Yet Rumelt shows that there has been a growing and unfortunate tendency to equate Mom and apple pie values fluffy packages of buzzwords motivational slogans and financial goals with strategy In Good Strategy Bad Strategy he debunks these elements of bad strategy and awakens an understanding of the power of a good strategy He introduces nine sources of power ranging from using leverage to effectively focusing on growth that are eye opening yet pragmatic tools that can easily be put to work on Monday morning and uses fascinating examples from business nonprofit and military affairs to bring its original and pragmatic ideas to life The detailed examples range from Apple to General Motors from the two Iraq wars to Afghanistan from a small local market to Wal Mart from Nvidia to Silicon Graphics from the Getty Trust to the Los Angeles Unified School District from Cisco Systems to Paccar and from Global Crossing to the 2007 08 financial crisis Reflecting an astonishing grasp and integration of economics finance technology history and the brilliance and foibles of the human character Good Strategy Bad Strategy stems from Rumelt s decades of digging beyond the superficial to address hard questions with honesty and integrity

The Consolations of Philosophy Alain De

Botton,2013-01-23 From the author of How Proust Can Change Your Life a delightful truly consoling work that proves that philosophy can be a supreme source of help for our most painful everyday problems Perhaps only Alain de Botton could uncover practical wisdom in the writings of some of the greatest thinkers of all time But uncover he does and the result is an unexpected book of both solace and humor Dividing his work into six sections each highlighting a different psychic ailment and the appropriate philosopher de Botton offers consolation for unpopularity from Socrates for not having enough money from Epicurus for frustration from Seneca for inadequacy from Montaigne and for a broken heart from Schopenhauer the darkest of thinkers and yet paradoxically the most cheering Consolation for envy and of course the final word on consolation comes from Nietzsche Not everything which makes us feel better is good for us This wonderfully engaging book will however make us feel better in a good way with equal measures of wit and wisdom
