On the morning of her daughter's wedding, June Reid's house goes up in flames, destroying her entire family – her present, her past and her future. Fleeing from the carnage, stricken and alone, June finds herself in a motel room by the ocean, hundreds of miles from her Connecticut home, held captive by memories and the mistakes she has made with her only child, Lolly, and her partner, Luke. In the turbulence of grief and gossip left in June's wake we slowly make sense of the unimaginable. The novel is a gathering of voices, and each testimony has a new revelation about what led to the catastrophe – Luke's alienated mother Lydia, the watchful motel owners, their cleaner Cissy, the teenage pothead who lives nearby – everyone touched by the tragedy finds themselves caught in the undertow, as their secret histories finally come to light. Lit by the clarity of understanding that true sadness brings, Did You Ever Have a Family is an elegant, unforgettable story that reveals humanity at its worst and best, through loss and love, fracture and forgiveness. At the book's heart is the idea of family – the ones we are born with and the ones we create – and the desire, in the face of everything, to go on living. Drawing on a wealth of knowledge and experience and a background of more than 1,000 magazine articles on the subject, engine control expert Jeff Hartman explains everything from the basics of engine management to the building of complicated project cars. Hartman has substantially updated the material from his 1993 MBI book Fuel Injection (0-879387-43-2) to address the incredible developments in automotive fuel injection technology from the past decade, including the multitude of import cars that are the subject of so much hot rodding today. Hartman's text is extremely detailed and logically arranged to help readers better understand this complex topic. Haynes manuals are written

This is just a collection of random thoughts and memories. A lot of what I have included in my writing is somewhat of an incriminating nature. I guess you can call this a journal/ diary of sorts. The things that I talk about and explain are very graphic and are not intended for the feeble minded or those with weak stomachs or souls. If you are reading this, you must be fucked up: whether it is a mind altering drug, or you are just plain sick.
