In a positive, non-condemning way, Anderson provides an alternative model of recovery for substance and alcohol abusers, a model that will also work for individuals struggling with other kinds of addictions. The first half of Freedom from Addictions tells the unbelievable story of Mike and Julia Quarles, and how Mike overcame a debilitating addiction to alcohol. It is not a requirement for the program (i.e. that the resident fill in all the journaling pages, read all the commentary, etc.). We created this solely for a resident's personal journey, so that they can have ample space to journal; so that they can have the Recovery Center Client Handbook at their fingertips; and so that they will have the benefit of a few Bible study helps. The Bible study helps include collections of Bible verses on specific topics, a brief journey through the Old and New Testaments, and a short lesson in Bible interpretation. We've also included a section concerning "Discharge Goals." Though discharge from the program may be a little way down the road for the resident, as they progress through the recovery program we trust that God will instill in them the proper vision for their lives. As this occurs, they may want to examine the questions and begin making notes. If you desire this journal be tailored for your addiction recovery program, you can contact us at canfieldwritingservice@gmail.com. They are written in such a manner that Dr. Perkinson is your mentor and is conversing with you, sharing with you his vast area of expertise and knowledge about recovery. These patient exercises meet the highest standards demanded by accrediting bodies." --Dr. Bob Carr, Director Substance Abuse Program and Mental Health Services, Sioux Falls V.A. I have been utilizing Dr. Perkinson's workbooks for 10 years and have found them to be some of the most useful tools in helping addicts and gamblers identify the many ways that addiction has impacted their lives. Our clients benefit from the straightforward approach of the workbooks and the clear instructions of how to begin incorporating a 12-step recovery program into their lives. I highly recommend Dr Perkinson's workbooks." --Lisa Vig, Licensed Addiction Counselor and Nationally Certified Gambling Counselor. Gamblers Choice, Fargo, North Dakota "I have been in the chemical dependency field for over 28 years. I have worked as a counselor, clinical supervisor and executive director in a number of treatment centers. These are the best exercises for alcoholics, drug addicts and problem gamblers that I have ever seen. I have used them for years and patients find them easy to understand. The material covers everything an addict needs to know to enter a stable recovery. I highly recommend these patient handbooks. Patients love them and they make the counselor's job easy. Comments from patients include, 'it has opened my eyes to my gambling and behaviors associated with it' and 'I feel it is easy to work and very self explanatory.'" --Ron Scherr, CCDC II, Certified Chemical Dependency Counselor, Avera St. Lukes, Worthmore Treatment Center Grant me the serenity to accept the things I can't change, The courage to change the things I can, And the wisdom to know the difference. Maybe you've just started on the road to recovering from addiction. Or you've tried to stop abusing alcohol or drugs before, but haven't been successful. This book will help you find the serenity, courage, and wisdom it takes to leave substance abuse behind for good. FINALLY, A RECOVERY WORKBOOK FOR ALL! This practical workbook, in its 3rd revised edition, is designed to be used to accompany a person or group in their addiction recovery process. Therefore, it is also recommended for counselors, clergy, sponsors, or anyone else serious about helping others. The workbook is unique in that it can be applied to any addiction, whether it be chemical dependency, sex, eating, spending, working, or gambling, just to name a few. It contains 101 practical exercises leaving no stone unturned in helping the workbook user uncover and deal with the issues they encounter while in recovery. The 3rd edition contains updated exercises, some new exercises, and updated resources. The Recovery Workbook is an invaluable, interactive tool to assist anyone who suffers from or is trying to help those that suffer from addiction. The book was written by someone who has traveled the path from addiction to sobriety and will help you attain and sustain relief from your addiction. This book and the tools it contains can be applied to any of the ways that the disease of addiction manifests itself. Ruth wrote it from the viewpoint of a recovering alcoholic but the clear and simple to understand process will work for gambling, narcotics or over-eating just as effectively. Because the disease of addiction hijacks specific parts of the brain, the recovery process is the same regardless of the substance or behavior one is addicted to. From adolescents to octogenarians, Ruth's unique way of combining medical and scientific knowledge with the behavior modification aspect of the 12 step process will have you not only conquering your addiction but better understanding the path that led you there in the first place. By breaking down the 12 steps of A.A and explaining the physiological and psychological components of the disease of addiction, Ruth helps you better understand how the body and mind work together. This workbook allows the reader to catalogue their history and their progress through the process, while developing new coping mechanisms to replace old thoughts and behaviors. The same thoughts and behaviors that included "using" as a way to deal with their problems. These new approaches to dealing with emotional issues will assist the reader in understanding the reasons they used before and developing a better sense of self to use as a tool against relapse. Ruth's Master's Thesis was on 'trauma's connection to addiction and relapse prevention', so it makes sense that someone who relapsed multiple times, then spent years studying the process would understand the tools necessary to assist in relapse prevention. Ruth's personal experience with addiction and her easy to like and understand teaching style have helped thousands of her clients to date. Let her help you, with The Recovery Workbook. This is the workbook that goes with my first book: Midbrain and The Beast. Over the past twenty years while working as a substance abuse counselor and helping people who struggle with drug and alcohol addiction, [some making it and some not] I've learned a few things about what works and what doesn't. During the last few years I've been focusing most of my efforts toward something I feel is very important to long term success. And the success I'm referring to means a lot more than just sobriety. Anyone can quit drinking and drugging. A ten year old child can tell you how to quit drinking and drugging. Quitting is the easy part. Staying clean and sober; that's the difficult part. The biggest challenge for most people is living life on life's terms without turning to a mood altering chemical. And how to do that is what I'm going to share with you in this workbook. We'll get into the details of what separates the winners from the losers. Some people don't like when I use the word loser. However, the reality is, if you relapse you will increase your chances of losing this game called life. If you want to be successful do what successful people do, go where they go and learn what they learn. Successful people in recovery are willing to do what the unsuccessful people won't do. This separates the men from the boys [the mature women from the little girls]. As you complete this small workbook program you'll notice I like to keep things simple. I do it this way mainly so I can understand it and then explain things in a way you can understand it. Then you can gain the knowledge and apply it to your life. We've all heard that knowledge is power. Well, I've learned that applied knowledge is real power. And power means the ability to make things happen; to get something done. So, let's get started.
