Cybercrime Through an Interdisciplinary Lens Thomas J. Holt, 2016-12-08 Research on cybercrime has been largely bifurcated with social science and computer science researchers working with different research agendas These fields have produced parallel scholarship to understand cybercrime offending and victimization as well as techniques to harden systems from compromise and understand the tools used by cybercriminals The literature developed from these two fields is diverse and informative but until now there has been minimal interdisciplinary scholarship combining their insights in order to create a more informed and robust body of knowledge This book offers an interdisciplinary approach to research on cybercrime and lays out frameworks for collaboration between the fields Bringing together international experts this book explores a range of issues from malicious software and hacking to victimization and fraud This work also provides direction for policy changes to both cybersecurity and criminal justice practice based on the enhanced understanding of cybercrime that can be derived from integrated research from both the technical and social sciences The authors demonstrate the breadth of contemporary scholarship as well as identifying key questions that could be addressed in the future or unique methods that could benefit the wider research community This edited collection will be key reading for academics researchers and practitioners in both computer security and law enforcement This book is also a comprehensive resource for postgraduate and advanced undergraduate students undertaking courses in social and technical studies

Operational concepts for grid services using electric vehicles Hamza Riaz Bokhari, 2020-01-01 This thesis deals with the challenges to frequency stability in the European electricity grid posed by the increasing share of renewable energy resources and electric vehicles It evaluates European load frequency control systems for their suitability for integration of electric vehicles and the impact of increase in photovoltaic and wind power on frequency stability for the case of Germany demonstrating a consequent significant increase in frequency control reserve requirements Evaluation of alternative approaches to load frequency control shows that introduction of an aggregator of distributed energy resources can also significantly reduce the overall infrastructure requirements for grid operators The operational concepts herein proposed are evaluated using several

case studies for optimizing the use of electric vehicles for grid flexibility services by taking into account the user behavior of vehicle owners and supply requirements of these grid services

Expert Laws of War Anton O. Petrov,2020-06-26 Over recent decades international humanitarian law has been shaped by the omnipresence of so called expert manuals Astute and engaging this discerning book provides a comprehensive account of these black letter rules and commentaries produced by private expert groups and demonstrates why the general acceptance of these expert manuals is largely unjustified The author innovatively links interdisciplinary insights to the needs of military lawyers in practice showing

the pitfalls of relying on private manuals as arguable restatements and interpretations of the law as it is *Como Mantener Tu Volkswagen Vivo* John Muir,1980-10-01 Exploring Evidence-based Practice Martin Lipscomb,2015-07-30 Despite sustained debate and progress the evolving thing that is evidence based nursing or practice EBP continues to dangle a variety of conceptual and practical loose threads Moreover when we think about what is being asked of students and registered or licenced practitioners in terms of EBP it is difficult not to concede that this ask is in many instances quite large and occasionally it may be unachievable EBP has and continues to improve patient client and user care Yet significant questions concerning its most basic elements remain unresolved and if nurses are to contribute to the resolution or reconfiguration of these questions then as a first step we must acknowledge their existence From a range of international standpoints and perspectives contributors to this book focus on aspects of EBP that require development This focus is always robust and at times it is unashamedly provocative Contributors challenge readers to engage with anomalies that surround the subject and readers are asked to consider the often precarious assumptions that underpin key aspects of EBP While both conflict and concord are evident among the various offerings presented here the book nonetheless creates and sustains a narrative that is bigger or more substantial than the sum of individual parts And across contributions a self assuredly critical stance towards EBP as currently practiced conceptualized and taught coexists alongside respectful admiration for all who make it happen *Exploring Evidence based Practice Debates and Challenges in Nursing* should be considered essential reading for academics and postgraduate students with an interest in evidence based practice and nursing research 101 *Projects for Your Porsche Boxster* Wayne R. Dempsey,2011-01-08 Since its introduction in 1997 the Porsche Boxster has earned a reputation as one of the world s greatest sports cars as well as a huge loyal following of devoted drivers This book is aimed at those owners of Boxsters who want to improve their machines while avoiding thousands of dollars in mechanic s costs Clearly and simply written with straightforward illustrations this manual offers 101 projects to help you modify maintain and enhance your Porsche Focusing on the 986 and 987 Boxster models 101 Projects for Your Porsche Boxster presents all the necessary information associated costs and pitfalls to avoid when performing a wide array of projects In a word it makes owning a Porsche Boxster an unqualified thrill *Teaching respect for all: implementation guide* UNESCO,2014-07-14 **Practical Aspects of Hair Transplantation in Asians** Damkerng Pathomvanich,Kenichiro Imagawa,2018-05-08 This book comprehensively discusses the practical aspects of hair transplantation in Asians The demand for hair transplantation has increased globally in recent years and Follicular Unit Extraction FUE is gaining popularity As such the book examines the techniques used by different ethnic group in Asia included shaving non shaving FUE and robotic hair restoration surgery With the help of illustrations it describes surgical techniques and provides numerous practical tips Written by leading experts and offering an overview of the current state of the art of hair restoration surgery it enables experienced surgeons in the field to achieve optimal outcomes and to improve patients QOL It is a must read for hair

The engrossing Wall Street Journal story of the biggest con in wine history In 2002 Rudy Kurniawan an unknown twentysomething burst into the privileged world of ultrafine wines Blessed with a virtuoso palate and with a seemingly limitless supply of coveted bottles Kurniawan quickly became the leading purveyor of rare wines to the American elite But in April 2008 at a New York auction house dozens of Kurniawan s trophy bottles were abruptly pulled from sale Journalist Peter Hellman was there and he began to investigate Were the bottles fake Were there others And was Kurniawan himself a dupe or had he ensnared the world s top winemakers sellers and drinks in a web of deceit
