## Step Forward in Word Study and Phonics Guided Reading Level a Set 2 Next Step Guided Reading in Action

Fresh new cover, same great content In 1996, Gay Su Pinnell and Irene Fountas presented Guided Reading, the most comprehensive guided reading resource ever published.

Hailed for its practical, systematic approach, the book showed hundreds of thousands of teachers how to address the needs of the whole classroom as well as individual readers. Now, with the publication of Word Matters, Pinnell and Fountas offer K-3 teachers the same unparalleled support, this time focusing on phonics and spelling instruction. Word Matters presents essential information on designing and implementing a high-quality, systematic literacy program to help children learn about letters, sounds, and words. The central goal is to teach children to become "word solvers": readers who can take words apart while reading for meaning, and writers who can

construct words while writing to communicate. Where similar books are narrow in focus, Word Matters presents the theoretical underpinnings and practical wherewithal of word study in three contexts: word study that includes systematically planned and applied experiences focusing on the elements of letters and words writing, including how children use phoneme-grapheme relationships, word patterns, and principles to develop spelling ability reading, including teaching children how to solve words with the use of phonics and visual-analysis skills as they read for meaning. Each topic is supported with a variety of practical tools: reproducible sheets for a word study system and for writing workshop; lists of spelling minilessons; and extensive word lists, including frequently used words, antonyms, synonyms, and more. Armed with these tools-and the tried-and-true wisdom of Gay Su Pinnell and Irene Fountas-teachers can help students develop not just the

"essential skills," but also a joyful appreciation of their own literacy. Build your child's beginning reading success with this set of 5 simple and fun storybooks plus a separate parent guide! Written by educator and reading specialist Dr. Julie M. Wood, with lively illustrations by Sebastien Braun, this set of books stars Tug the Pup and an endearing group of characters who will lead beginners through the proven steps for successful reading. The Learn to Read with Tug the Pup books features sight word vocabulary, simple text, strong picture support, and character and plot development. The parent guide lists ideas for building early literacy skills through shared reading, games, and art activities. The 5 stories in this set are Guided Reading Levels C-E, which means the stories are still very simple but include dialogue and are slightly more advanced than the A and B level stories. Enter into the world of reading with My Very First I Can Read! This comprehensive emergent

reading program addresses all the components of reading mastery based on the latest early literacy research. Justin loves soccer—but he doesn't love being teased. George Takei returns in a deluxe edition with 16 pages of bonus material! Experience the forces that shaped an American icon -- and America itself -- in this gripping tale of courage, country, loyalty, and love. George Takei has captured hearts and minds worldwide with his magnetic performances, sharp wit, and outspoken commitment to equal rights. But long before he braved new frontiers in STAR TREK, he woke up as a four-year-old boy to find his own birth country at war with his father's -- and their entire family forced from their home into an uncertain future. In 1942, at the order of President Franklin D. Roosevelt, every person of Japanese descent on the west coast was rounded up and shipped to one of ten "relocation centers," hundreds or thousands of miles from home, where they would be held for years under armed guard. **THEY CALLED US ENEMY** is Takei's firsthand account of those years behind barbed wire, the terrors and small joys of childhood in the

shadow of legalized racism, his mother's hard choices, his father's tested faith in democracy, and the way those experiences planted the seeds for his astonishing future. What does it mean to be American? Who gets to decide? George Takei joins cowriters Justin Eisinger & Steven Scott and artist Harmony Becker for the journey of a lifetime. For ten years and in two classic books, Irene Fountas and Gay Su Pinnell have described how to analyze the characteristics of texts and select just-right books to use for guided reading instruction. Now, for the first time, all of their thinking and research has been updated and brought together into **Leveled Books, K-8** to form the ultimate guide to choosing and using books from kindergarten through middle school. Fountas and Pinnell take you through every aspect of leveled books, describing how to select and use them for different purposes in your literacy program and offering prototype descriptions of fiction and nonfiction books at each level. They share

advice on: the role of leveled books in reading instruction, analyzing the characteristics of fiction and nonfiction texts, using benchmark books to assess instructional levels for guided reading, selecting books for both guided and independent reading, organizing high-quality classroom libraries, acquiring books and writing proposals to fund classroom-library purchases, creating a school book room. In addition, Fountas and Pinnell explain the leveling process in detail so that you can tentatively level any appropriate book that you want to use in your instruction. NAMED ONE OF THE BEST BOOKS OF THE YEAR BY MARIE CLAIRE Everything changes in a single moment for Dawn Edelstein. She's on a plane when the flight attendant makes an announcement: Prepare for a crash landing. She braces herself as thoughts flash through her mind. The shocking thing is, the thoughts are not of her husband but of a man she last saw fifteen years ago: Wyatt Armstrong. Dawn, miraculously, survives the crash, but so do all the doubts that have suddenly been raised. She has led a good life. Back in Boston, there is her

husband, Brian, their beloved daughter, and her work as a death doula, in which she helps ease the transition between life and death for her clients. But somewhere in Egypt is Wyatt Armstrong, who works as an archaeologist unearthing ancient burial sites, a career Dawn once studied for but was forced to abandon when life suddenly intervened. And now, when it seems that fate is offering her second chances, she is not as sure of the choice she once made. After the crash landing, the airline ensures that the survivors are seen by a doctor, then offers transportation to wherever they want to go. The obvious destination is to fly home, but she could take another path: return to the archaeological site she left years before, reconnect with Wyatt and their unresolved history, and maybe even complete her research on *The Book of Two Ways*—the first known map of the afterlife. As the story unfolds, Dawn's two possible futures unspool side by side, as do the secrets and doubts long buried with

them. Dawn must confront the questions she's never truly asked: What does a life well lived look like? When we leave this earth, what do we leave behind? Do we make choices . . . or do our choices make us? And who would you be if you hadn't turned out to be the person you are right now?
