She hired him from Rent for Your 'Rents, a company specializing in providing fake boyfriends trained to impress even the most traditional Asian parents. Drew Chan's passion is art, but after his parents cut him off for dropping out of college to pursue his dreams, he became a Rent for Your 'Rents employee to keep a roof over his head. Luckily, learning protocols like "Type C parents prefer quiet, kind, zero-PDA gestures" comes naturally to him. The Silver Swan Nov 04 2021 "Men who inherit great wealth are respected, but women who do the same are ridiculed. In *The Silver Swan*, Sallie Bingham rescues Doris Duke from this gendered prison and shows us just how brave, rebellious, and creative this unique woman really was, and how her generosity benefits us to this day." —Gloria Steinem A bold portrait of Doris Duke, the defiant and notorious tobacco heiress who was perhaps the greatest modern woman philanthropist In *The Silver Swan*, Sallie Bingham chronicles one of the great underexplored lives of the twentieth century and the very archetype of the modern woman. "Don't touch that girl, she'll burn your fingers," FBI director J. Edgar Hoover once said about Doris Duke, the inheritor of James Buchanan Duke's billion-dollar tobacco fortune. During her lifetime, she would be blamed for scorching many, including her mother and various ex-lovers. She established her first foundation when she was twenty-one; cultivated friendships with the likes of Jackie Kennedy, Imelda Marcos, and Michael Jackson; flaunted interracial relationships; and adopted a thirty-two year-old woman she believed to be the reincarnation of her deceased daughter. This is also the story of the great houses she inhabited, including the classically proportioned limestone mansion on Fifth Avenue, the sprawling Duke Farms in New Jersey, the Gilded Age mansion Rough Point in Newport, Shangri La in Honolulu, and Falcon's Lair overlooking Beverly Hills. Even though Duke was the subject of constant scrutiny, little beyond the tabloid accounts of her behavior has been publicly known. In 2012, when eight hundred linear feet of her personal papers were made available, Sallie Bingham set out to probe her identity. She found an alluring woman whose life was forged in the Jazz Age, who was not only an early war correspondent but also an environmentalist, a surfer, a collector of Islamic art, a savvy businesswoman who tripled her father's fortune, and a major philanthropist with wide-ranging passions from dance to historic preservation to human rights. In *The Silver Swan*, Bingham is especially interested in dissecting the stereotypes that have defined Duke's story while also confronting the disturbing questions that cleave to her legacy.

is simultaneously swept up in a whirlwind romance and down a rabbit hole of dark family secrets when another Taiwanese family moves to her small, predominantly white midwestern town in this remarkable novel from the critically acclaimed author of *American Panda*. Seventeen-year-old Ali Chu knows that as the only Asian person at her school in middle-of-nowhere Indiana, she must be bland as white toast to survive. This means swapping her congee lunch for PB&Js, ignoring the clueless racism from her classmates and teachers, and keeping her mouth shut when people wrongly call her Allie instead of her actual name, pronounced 'h-I?e, after the mountain in Taiwan. Her autopilot existence is disrupted when she finds out that Chase Yu, the new kid in school, is also Taiwanese. Despite some initial resistance due to the "they belong together" whispers, Ali and Chase soon spark a chemistry rooted in competitive martial arts, joking in two languages, and, most importantly, pushing back against the discrimination they face. But when Ali's mom finds out about the relationship, she forces Ali to end it. As Ali covertly digs into the why behind her mother's disapproval, she uncovers secrets about her family and Chase that force her to question everything she thought she knew about life, love, and her unknowable future. Snippets of a love story from 19th-century China (a retelling of the Chinese folktale *The Butterfly Lovers*) are interspersed with Ali's narrative and intertwined with her fate.

Deep Time of the Media Sep 02 2021 A quest to find something new by excavating the "deep

time" of media's development—not by simply looking at new media's historic forerunners, but by connecting models, machines, technologies, and accidents that have until now remained separated. *Deep Time of the Media* takes us on an archaeological quest into the hidden layers of media development—dynamic moments of intense activity in media design and construction that have been largely ignored in the historical-media archaeological record. Siegfried Zielinski argues that the history of the media does not proceed predictably from primitive tools to complex machinery; in *Deep Time of the Media*, he illuminates turning points of media history—fractures in the predictable—that help us see the new in the old. Drawing on original source materials, Zielinski explores the technology of devices for hearing and seeing through two thousand years of cultural and technological history. He discovers the contributions of "dreamers and modelers" of media worlds, from the ancient Greek philosopher Empedocles and natural philosophers of the Renaissance and Baroque periods to Russian avant-gardists of the early twentieth century. "Media are spaces of action for constructed attempts to connect what is separated," Zielinski writes. He describes models and machines that make this connection: including a theater of mirrors in sixteenth-century Naples, an automaton for musical composition created by the seventeenth-century Jesuit Athanasius Kircher, and the eighteenth-century electrical tele-writing machine of Joseph Mazzolari, among others. Uncovering these moments in the media-archaeological record, Zielinski says, brings us into a new relationship with present-day moments; these discoveries in the "deep time" media history shed light on today's media landscape and may help us map our expedition to the media future.
