It was one of the beautiful summer days in Iran, one of the pretty hot days that are common in this region. The city had already waked up, but I did not have the slightest intention of getting out of bed. What for? To meet with the judging stares again? To hear how awkward I was? To face vivid, open hostility? I was so tired of that. Still, I did not have a choice. I promised my mother I would sweep the backyard, the place where I would see our "nearest and dearest" neighbors. Do not get me wrong, I like people, and I am always looking forward to helping them. Nevertheless, what I cannot stand is prying into my personal life.

If you ever go to Iran, be ready for continuous prying. At first, you can mistake it for curiosity. All people would seem so friendly to you. They will listen to you with close attention. You bet it flatters one's vanity. However, in a week, you will understand what I mean. Living here is like living in an aquarium. The neighbors treat you as a quaint fish and observe you all the time waiting for some kind of trick. What type of fish was I supposed to be? Most probably, people saw me as a clownfish. I was a Christian, and it bothered them a lot. I was unlike others, I was a black swan among them. To tell the truth, I wanted to be another fish. I wanted to be a plaice. I dreamt of hiding myself in sand and algae so that nobody would see me. Oh, I would give everything I had to become a plaice and skip sweeping that damn backyard. Nevertheless, I had to do it. So, I humbly put my shoes on and floated outside the room.

Two heads appeared over the fence immediately. "Good morning, Jasmine!"

Mezo, 2001 Concepts and Choices is a new approach to teaching writing one that incorporates recognized concepts and techniques with some neglected ones and some entirely new ones The assumption is made that extensive practice without attending to such concepts provides nothing more for students than the opportunity for frequent repetition of error Therefore this book calls for smaller manageable units of instruction In addition the so called process model of writing used extensively by teachers today has emphasized the discovery of arguments neglecting almost entirely descriptive narrative writing at the expense of more important elements including the quality of content Writing is a complex activity that cannot be reduced to an analogy in which it is compared to an assembly line at a factory Good writing indeed requires a rigorous apprenticeship one that goes beyond a few hours a day in a classroom This book attempts to provide a guide to good writing The Courage of Turtles Edward Hoagland, 1985

Everyone Can Write Peter Elbow, 2000-03-30 This new collection of essays bring together the best of Elbow's writing

since the publication of *Embracing Contraries* in 1987. The volume includes sections on voice, the experience of writing, teaching, and evaluation. Implicit throughout is Elbow's commitment to humanizing the profession and his continued emphasis on the importance of binary thinking and nonadversarial argument. The result is a compendium of a master teacher's thoughts on the relation between good pedagogy and good writing; it is sure to be of interest to all professional teachers of writing and will be a valuable book for use in graduate composition courses.

Shared Differences Diane Carson, Lester D. Friedman, 1995. This timely volume addresses those who teach and study multicultural topics. Rather than offering a Band Aid approach to curricular offerings, the contributors demonstrate inclusive, innovative ways to integrate multicultural issues and media into existing courses. In *Struggling for America's Soul: A Search for Some Common Ground in the Multicultural Debate*, Lester Friedman leads off the volume with an analysis of the value and necessity of multicultural approaches for today's students and for society at large. The essays that follow provide a wealth of material for organizing courses, including week-by-week syllabi, detailing specific writing assignments, bibliographical information on readings and sources for films and videos. The contributors, who teach at institutions ranging from community colleges through major research universities, describe their experiences teaching students of various ages, backgrounds, and interests. *Shared Differences* will be of value to all who use media as a tool in their teaching, whether in history, literature, or the social sciences, as well as to those who teach film and video production.

Essay-writing for Schools: A Practical Exposition of the Principles of this Form of Composition ... Designed to Meet the Requirements of the Public Examinations Leslie Cope Cornford, 1903

[The Humble Essay](#) Roy K. Humble, 2023-04-01. *The Humble Essay* is so much more than a writing textbook. It gives you tools, tips, and tricks that actually explain what a writer does. It doesn't sugarcoat the process or dumb down the very real challenges that entering a college writing space requires. This book is more like a friend. It's the kind of friend that will coach you through a tough time and encourage you, and it will make you laugh while you go through it. It's the kind of friend who holds your hair back when you're sick of writing and gives you the courage to try again. Roy K. Humble is the kind of writing teacher who understands the struggle of learning how to write like a college student and doesn't just tell you what you want to hear. His lessons here are profound, but in the sense that they are delivered by someone who wants you to feel included in the conversation about what good college writing should be. He writes to students in language they can understand without becoming English majors, and with just enough humor to keep them reading. He writes for faculty, moving step by step through the unadorned, guiding principles of effective formal writing, so that faculty have a great framework on which to build their classes. Perhaps most importantly, Humble understands that the price of a book matters to students, so his books are affordable. From every perspective, Humble gets it. *The Humble Essay* has students covered on these important topics: Understanding the college essay as an idea, Grasping the stages of the writing process, Organizing the college essay around cohesive paragraphs, Thinking for yourself as a college student, Gathering and synthesizing sources and information, Guiding readers through a
