The coronavirus pandemic of 2019 20 and its associated global economic collapse has bluntly revealed that decision makers everywhere are ill equipped to identify the innovative capacities of modern societies and in particular deploy managers to harness such capabilities Getting the problem of management right is a voyage to the heart of human experience Indeed the perennial questions that haunt our existence almost invariably prompt answers that invoke conceptions of work transformative effort and realisation of ideas One way or another all such endeavour requires management It is often overlooked that more than any other discipline management history brings into focus humanity s most pressing questions At the time of writing these queries come with a disquieting urgency What is management How do its modern methods differ from those in pre industrial societies How does the management that emerged in Western Europe and North America in the nineteenth century differ from forms practiced in the twentieth In what ways do Asian African and South American societies have distinctive managerial philosophies Perhaps most importantly what don t we know or don t do very well It is to these fundamental questions that the Palgrave Handbook of Management History speaks The work s 63 chapters authored by 27 of the world s leading management and business thinkers explore virtually every aspect of management globally as well as across millennia The series explores the theoretical contributions of classical Western business and management scholars Adam Smith Frederick Taylor Elton Mayo Peter Drucker Alfred Chandler etc as well as commentaries from critical theorists such as Michel Foucault Jacques Derrida and Hayden White The Handbook is also practical For example its content addresses the day to day experience of management in ancient Greece and Rome as well as the contemporary approaches of China France South Africa India Denmark Australia South America New Zealand and the Middle East In short the Palgrave Handbook provides students of economics management business theory and practice and critical studies with a single comprehensive and in depth point of reference
