(1953 – 2020), was one of the most brilliant and scintillating Catholic writers of our time. His essays and reviews, collected here for the first time, display a unique wit, a singular breadth of learning, and a penetrating insight into the challenges of Catholic life in the postmodern world. Whether explicating Catholic doctrines like the Immaculate Conception, dissecting contemporary academic life, deploring clerical malfeasance, or celebrating great authors, Father Mankowski's keen intelligence is always on display, and his energetic prose keeps the pages turning. Whatever his topic, however, Paul Mankowski's intense Catholic faith shines through his writing, as it did through his life. Jesuit at Large invites its readers to meet a man of

great gifts who suffered for his convictions but never lost hope in the renewal of Catholicism, a man whose confidence in the truth of what the Church proposed to the world was never shaken by the failures of the people of the Church. Dr. Owen Whitfield is the elderly Oxford professor of history who first appeared in Michael O'Brien's novel *The Father's Tale*. In the events of *The Sabbatical*, which occur sometime later, Dr. Whitfield is looking forward to a sabbatical year of peace and quiet, gardening in his backyard, and tinkering with what he calls his latest "unpublishable book". As the year begins, he is drawn by a series of seeming coincidences into involvement with a group of characters from across Europe, including a family that has been the target of assassination attempts by unknown powers. During his journey to Romania, the situation in which he finds himself becomes more sinister than it first seemed. The story deals with the tension between fatalism and the providential understanding of history, with the courage and love that are necessary for navigating through a confusion of signs, and with the triumph of faith and reason over the forces of destruction.
