It's pretty simple, you get better quality material that is more accurate to what is on the actual test and way more online resources and tools for your money. Feel free to study from a different study guide that is just okay, but not great, however, we don't recommend it. Make sure any practice test workbook you buy checks off these items:

Material that accurately represents what's actually on the test
? Video lessons for every skill and lesson in the book
? Practice tests both in the book and online
? Flashcards online for every subject

Features:
