Changing Language Teaching Through Language Testing Liying Cheng, 2005-10-06 There has been growing interest in recent years in the influence of tests on teaching and learning a phenomenon commonly referred to as washback Despite persistent assertions about its nature and scope empirical studies investigating test washback are still limited in number and few of these make use of both qualitative and quantitative methods in washback research This volume presents a study of how the introduction of the 1996 Hong Kong Certificate of Education in English a high stakes public examination impacted on classroom teaching and learning in Hong Kong secondary schools The washback effect was observed initially at the larger macro level among different stakeholder groups within the Hong Kong educational context and also at the more local micro level in terms of teachers attitudes teaching content and classroom interactions This study provides a theoretical background to the washback concept discusses the need for empirical investigation of washback describes the use of a mixed methodology approach in washback research offers insights into the role of tests as agents of innovation and change in the classroom and broader educational context This volume will be of particular relevance to language test developers and researchers interested in the consequential validity of tests it will also be of interest to teachers curriculum designers policymakers and others in education concerned with the interface between language testing and teaching practices programs Book jacket

Washback in Language Testing Liying Cheng, Yoshinori Watanabe, WITH Andy Curtis, 2004-02-04 Washback refers to the influence of language testing on teaching and learning This volume at the important intersection of language testing and teaching practices presents theoretical methodological and practical guidance for current and future washback studies In the field of language testing researchers major interest has traditionally been focused on issues and solving problems inherent in tests in order to increase their reliability and validity However the washback effect goes well beyond the test itself to include factors such as curriculum teacher and learner behaviors inside and outside the classroom their perceptions of the test and how test scores are used Only recently have researchers started to empirically investigate the phenomenon of washback This volume of such research serves two essential purposes by providing an overview of the complexity of washback and the various contextual factors entangled within testing teaching and learning and presenting empirical studies from around the world that offer insights into the effects of washback in specific educational contexts and models of research on which future studies can be based The extensive use of test scores for various educational and social purposes in society nowadays makes the washback effect a high interest phenomenon in the day to day educational activities of teachers researchers program coordinators directors policymakers and others in the field of education Washback in Language Testing Research Contexts

and Methods is a valuable resource for those who are interested in the application of findings to actual teaching and learning situations or conduct washback research in their own contexts including educational and psychological testing experts as well as alternative assessment people in all fields and for policy and decision makers in educational and testing organizations

Validating Technological Innovation David Coniam, Peter Falvey, 2016-04-02 This book discusses Hong Kong's use of onscreen marking OSM in public examinations. Given that Hong Kong leads the way in OSM innovation, this book has arisen from a recognised need to provide a comprehensive coherent account of the findings of various separate but linked validation studies of onscreen public examinations in Hong Kong. The authors discuss their experience of the validation process demonstrating how high stakes innovation should be fully validated by a series of research studies in order to satisfy key stakeholders.

Controversies in Medium of Instruction Reform Shek Kam Tse, Wing Wah Ki, Mark Shiu Kee Shum, 2021-10-25 The book is an in depth and comprehensive analysis of the case of language in education reform and language policy controversies of Hong Kong over the initial two decades after 1997. It is a scholarly monograph of conscientious educators and researchers who have been active during the education reform collaborating with different parties on school development and classroom teaching experiments. This book provides a multiple perspective investigation into the education and language matters. Besides socio political perspectives, this book also emphasizes the frontline educational and practical perspectives. The book explores the benefits and effective methods of mother tongue and multi lingual teaching that have emerged in the period. Based on the problematic experience of language purism and bifurcation in the reform, the book argues for an inclusive multilingual education policy with mother tongue as the core. This book provides potential solutions and good practices to tackle the complex issues brought about by medium of instruction policy reforms in post colonial times.

International Handbook of Technology Education Marc J. de Vries, Ilja Mottier, 2006 *International Handbook of Technology Education* *Global Practices of Language Teaching: Proceedings of the 2008 International Online Language Conference (IOLC 2008)* Azadeh Shafaei, 2008-12-30 The first International Online Language Conference was successfully held in September 2008. This event invited professors, Masters and Ph D students and academicians from around the world to submit papers in areas related to the conference theme. The event was organized by International Online Knowledge Service Provider IOKSP. The main conference objectives were as follows: to provide a platform for language educators, academicians and researchers from diverse cultural backgrounds to exchange ideas and the best practices for effective language teaching and learning; to promote better understanding of cultural diversity in language learning; to encourage language educators to be involved in the research process in order to achieve comprehensive excellence; and to produce a collection of scholarly papers.

 Curtis, 2010-03-17 This volume addresses a very timely and important topic and provides both broad and in depth coverage of
 a number of large scale English tests in China including Hong Kong and Taiwan and about the Chinese learner Lyle F
 Bachman From the Foreword Building on current theoretical and practical frameworks for English language assessment and
 testing this book presents a comprehensive up to date relevant picture of English language assessment for students in China
 Mainland China Hong Kong and Taiwan and for Chinese learners of English around the world Written by well recognized
 international scholars in language testing it covers the history of tests and testing systems issues and challenges and current
 research in China both test designers and test users points of view on test development and test validation within a range of
 political economical social and financial contexts in China theoretical conceptual perspectives on the use of the English
 language assessment at different levels including societal university and schools empirical research related specifically to
 test development curricular innovation and test validation Given the long history of objective testing and its extensive use in
 Chinese society and considering the sheer number of students taking various tests in English in China and elsewhere an
 understanding of the impact of English language testing is essential for anyone involved in testing and assessment issues in
 China and elsewhere in the world This is a must read volume for testing and assessment policy makers curriculum designers

 gathers contributions in the closely linked fields of English language assessment and language education The contributors
 from China and Hong Kong represent a mixture of established and new scholars Areas covered in the language education
 section range across major developments in the redefining of Hong Kong s secondary and tertiary curricula as well as the
 huge field of China s vocational education curriculum Regarding assessment the contributions reflect major changes in the
 marking of examinations in Hong Kong whereby all examinations from 2012 onwards are marked onscreen to quality control
 issues in the administration of China s College English Test which is taken by over 10 million candidates every year
Researching Chinese Language Education Mark Shiu-kee Shum, Peter Micken, 2018-09-13 The culmination of more
 than a decade of research this compelling volume offers a fresh approach for applying functional linguistics to assess student
 performance to inform the teaching and learning of Chinese and to design curriculum and teaching materials Documenting
 authentic systemic functional linguistics SFL studies in researching and teaching Chinese as a first or second language this

research is set in the multilingual settings of Hong Kong and Australia The experiences of SFL and genre teaching in English have been well demonstrated as valid viable and practical in different contexts however this volume covers the relatively new domain of research into the applications of SFL to the teaching of Chinese Using SFL as the research framework the authors cover three major areas in Chinese language education effective pedagogies curriculum and material design and text analysis Covering major local curriculum reforms and the rapid growth of International Baccalaureate programmes worldwide this book will be of interest to linguists language teachers and teacher educators and those involved in the teaching and learning of Chinese around the world

Social Studies Education in East Asian Contexts Kerry J. Kennedy,2020-07-28 The book explores the state of social studies education within selected East Asian societies and provides some insights into distinctive classroom practices In an increasingly volatile and unpredictable world the education of young people who both understand the contexts in which they are growing up and see the need for engaging with them is a top priority This task falls to social studies education which carries the responsibility for inducting young people into their social world and helping them to see the role they can play within it This is particularly important in East Asia where strong economic growth long held cultural values and diverse political systems create an environment that challenges young people on multiple fronts This book with its team of regional authors shows how different societies in the region are dealing with these challenges and what can be expected from future citizens The book will appeal to policy makers researchers and teachers interested in the current state of social studies education in East Asian societies
