Aesthetic Surgery of the Abdominal Wall Melvin A. Shiffman,Sid Mirrafati,2005-11-02 We have come a long way since the days when abdominal wall contouring was performed by simple dermolipectomies with no attention to diastasis correction and muscular reinforcement and little regard for the final aesthetic result Nowadays an abdominoplasty may be indicated for even the most demanding of patients Details such as placement of the incision and umbilicoplasty are meticulously planned so as to conceal undesirable scars Since the advent of suction assisted lipectomy in association with a classical operation or as an isolated procedure the plastic surgeon has become capable of remodeling the entire trunk assuring removal of considerable amounts of adipose tissue Drs Shiffman and Mirrafati have brought all of these aspects together in this most timely book *Aesthetic Surgery of the Abdominal Wall* Here the reader will find an all encompassing textbook written in collaboration with outstanding colleagues all of whom have contributed to this field of plastic surgery that

has been of particular interest to me I am sure that for both the younger and the more experienced surgeon this book will become a reference text covering all aspects of plastic abdominal surgery Ivo Pitanguy MD Preface This book on aesthetic surgery of the abdominal wall is an attempt to bring together the existing knowledge on body contouring of the abdomen The major emphasis is on abdominoplasty and liposuction of the abdomen with the various combinations and techniques

A History of Warfare John Keegan,2012-09-19 The acclaimed author and preeminent military historian John Keegan examines centuries of human conflict From primitive man in the bronze age to the end of the cold war in the twentieth century Keegan shows how armed conflict has been a primary preoccupation throughout the history of civilization and how deeply rooted its practice has become in our cultures Keegan is at once the most readable and the most original of living military historians A History of Warfare is perhaps the most remarkable study of warfare that has yet been written The New York Times Book Review

Why Nations Fail Daron Acemoglu,James A. Robinson,2013-09-17 Brilliant and engagingly written Why Nations Fail answers the question that has stumped the experts for centuries Why are some nations rich and others poor divided by wealth and poverty health and sickness food and famine Is it culture the weather geography Perhaps ignorance of what the right policies are Simply no None of these factors is either definitive or destiny Otherwise how to explain why Botswana has become one of the fastest growing countries in the world while other African nations such as Zimbabwe the Congo and Sierra Leone are mired in poverty and violence Daron Acemoglu and James Robinson conclusively show that it is man made political and economic institutions that underlie economic success or lack of it Korea to take just one of their fascinating examples is a remarkably homogeneous nation yet the people of North Korea are among the poorest on earth while their brothers and sisters in South Korea are among the richest The south forged a society that created incentives rewarded innovation and allowed everyone to participate in economic opportunities The economic success thus spurred was sustained because the government became accountable and responsive to citizens and the great mass of people Sadly the people of the north have endured decades of famine political repression and very different economic institutions with no end in sight The differences between the Koreas is due to the politics that created these completely different institutional trajectories Based on fifteen years of original research Acemoglu and Robinson marshal extraordinary historical evidence from the Roman Empire the Mayan city states medieval Venice the Soviet Union Latin America England

Europe the United States and Africa to build a new theory of political economy with great relevance for the big questions of today including China has built an authoritarian growth machine Will it continue to grow at such high speed and overwhelm the West Are America s best days behind it Are we moving from a virtuous circle in which efforts by elites to aggrandize power are resisted to a vicious one that enriches and empowers a small minority What is the most effective way to help move billions of people from the rut of poverty to prosperity More philanthropy from the wealthy nations of the West Or learning the hard won lessons of Acemoglu and Robinson s breakthrough ideas on the interplay between inclusive political and economic institutions Why Nations Fail will change the way you look at and understand the world
