Fierce Attachments Apr 22 2022 Vivian Gornick's *Fierce Attachments*—hailed by the *New York Times* for the renowned feminist author's "mesmerizing, thrilling" truths within its pages—has been selected by the publication's book critics as the #1 Best Memoir of the Past 50 Years. In this deeply etched and haunting memoir, Vivian Gornick tells the story of her lifelong battle with her mother for independence. There have been numerous books about mother and daughter, but none has dealt with this closest of filial relations as directly or as ruthlessly. Gornick's groundbreaking book confronts what Edna O'Brien has called "the principal crux of female despair": the unacknowledged Oedipal nature of the mother-daughter bond. Born and raised in the Bronx, the daughter of "urban peasants," Gornick grows up in a household dominated by her intelligent but uneducated mother's romantic depression over the early death of her husband. Next door lives Nettie, an attractive widow whose calculating sensuality appeals greatly to Vivian. These women with their opposing models of femininity continue, well into adulthood, to affect Gornick's struggle to find herself in love and in work. As Gornick walks with her aged mother through the streets of New York, arguing and remembering the past, each wins the reader's admiration: the caustic and clear-thinking daughter, for her courage and tenacity in really talking to her mother about the most basic issues of their lives, and the still powerful and intuitively-wise old woman, who again and again proves herself her daughter's mother. Unsparring, deeply courageous, *Fierce Attachments* is one of the most remarkable documents of family feeling that has been written, a classic that helped start the memoir boom and remains one of the most moving examples of the genre. "[Gornick] stares unflinchingly at all that is hidden, difficult, strange, unresolvable in herself and others—at loneliness, sexual malice and the devouring, claustal closeness of mothers and daughters...[*Fierce Attachments* is] a portrait of the artist as she finds a language—original, allergic to euphemism and therapeutic banalities—worthy of the women that raised her."—*The New York Times*

Organic Housekeeping Oct 29 2022 Longing for a kinder, gentler world? As the old saying goes, everything begins at home, and odds are, if you live in the all-American household, the air inside is more toxic than the air outside, even if you live in the most polluted of cities. You regularly handle the filthiest object in your home -- the kitchen sponge -- and put the same chemicals on your face that are used in brake fluid and antifreeze. The cleaning agents and personal care products commonly marketed to and used in American homes contain not only some very dangerous, toxic chemicals, but they also create an "overly clean," chemically bombed-out house that compromises immune systems. And with more than fifty million Americans suffering from allergies and other autoimmune diseases -- not to mention the developing and fragile immune systems of children and seniors -- large numbers of people are actually being made sicker and sicker by their homes. Learn to live a clean, healthy, more economical way with Ellen Sandbeck, the nontoxic avenger. In this must-have book for the twenty-first-century home, this passionate, witty advocate of all things organic will teach you how to maintain every part of the home -- from living room to septic tank, kitchen floor to bathroom sink -- using safe, simple cleansers and quick preventative measures as well as the most effective organic products on the market to get the job done. Learn time-saving, preventative housekeeping, such as taking

thirty seconds to clean the shower while you shower. Take care of bathroom stains with baking soda and vinegar rather than commercial, toxic bathroom "bombs" peddled to you with such force by manufacturers. Need whiter whites? There is no bleaching power on earth stronger than the sun. Snow clean your fine rugs. Choose fruits and vegetables from the relatively pesticide residue-free list. Clean felt-tipped pen stains with vodka. Make furniture shine with olive oil and lemon. Your house will also smell as great as it looks. *2018 CFR Annual Print Title 21 Food and Drugs Parts 300 to 499* Mar 14 2024
